Section 1: Details of the Investment

1.1 What is Capital Series?

Capital Series offers a diversified exposure to global markets and a range of asset classes such as equities, currencies and commodities through different Strategies. Capital Series also offers varying levels of capital protection at maturity which are specific to each Strategy.

During the Investment Term, each Strategy of Capital Series provides exposure to an Underlying Portfolio and aims to generate capital growth and, depending on the Strategy you choose, may also aim to provide income.

1.2 What are some of the features of Capital Series?

Generally, Capital Series offers a combination of one or more of the following features:

- › Up to 100% capital protection at maturity
- › Capital growth potential based on the performance of an Underlying Portfolio
- › Potential diversified exposure to select markets and asset classes
- › Income potential
- › 100% funding via the Capital Investment Loan and Interest in Advance Loan
- › 2-7 year term

Each Strategy of Capital Series has different features, so it's important you read Part 2 of this PDS to determine whether a specific Strategy is suitable for you.

1.3 Who is Capital Series suitable for?

Capital Series may not be suitable for you. You should seek your own independent financial and taxation advice before making a decision whether to invest in Capital Series.

Generally, Capital Series may be suitable for individuals, companies, trusts and superannuation funds looking to:

- › diversify their investment portfolio by gaining exposure to the Reference Assets in each Underlying Portfolio and the Delivery Asset;
- › gain exposure to the Reference Assets in each Underlying Portfolio without the complications of direct investment on an international stock exchange or other financial market. Under Capital Series, investors have the security and convenience of dealing exclusively with Commonwealth Bank, one of Australia's leading financial institutions;
- › invest with the potential cash flow advantages of coupon payments (depending on which Strategy or Strategies you choose to invest in);
- › invest with up to 100% gearing where a Capital Investment Loan is used (except for superannuation funds who may be able to use an alternative gearing package offered by us); and
- › invest with up to 100% capital protection at maturity (depending on which Strategy or Strategies you choose to invest in).

Generally, Capital Series may not be suitable for you if:

- › you do not have any experience or knowledge in relevant equity, currency, commodity or other markets to which the Reference Assets and the Delivery Asset relate;
- › you are reliant on an income stream from your investment;
- › you require an investment which is guaranteed by the government or has the benefit of any statutory priority; or
- › you are likely to require access to your funds before the end of the term.

1.4 What are the Underlying Portfolio and the Reference Assets?

The Underlying Portfolio is the group of indices, commodities, securities or other assets that make up each Strategy. The return of each Strategy is based on the performance of the Underlying Portfolio.

The Reference Assets are the individual indices, commodities, securities or other assets comprising the Underlying Portfolio.

A guide to the Underlying Portfolio and Reference Assets for each Strategy are detailed in Part 2 of this PDS.

The Underlying Portfolio may change in certain situations, such as when an Adjustment Event occurs (please refer to Section 1.21 “What are the significant risks?” in Part 1 of this PDS).

The Underlying Portfolio is not otherwise actively managed and may remain unchanged until maturity. This means the Underlying Portfolio may not be changed due to poor performance.

1.5 What is capital protection and how does it work?

The capital protection level for Capital Series is, in relation to each Strategy, the Strategy Capital Protection Amount.

This level varies between 0% and 100% of your Strategy Investment Amount on the Maturity Date, depending on the Strategy. This means that the Strategy Maturity Value cannot be less than the Strategy Capital Protection Amount, unless an Early Termination Event occurs. The Strategy Capital Protection Amount may be less than the Strategy Investment Amount, in which case there is no capital protection for the difference.

The sum of each Strategy Capital Protection Amount is the Total Capital Protection Amount. Accordingly, your Investment is capital protected for the amount equal to the Total Capital Protection Amount. The Total Capital Protection Amount may be less than your Investment Amount, in which case there is no capital protection for the difference.

Investments in Capital Series are not bank deposits. Any capital protection only applies if your Investment is held to maturity. However, you are reliant on us – Commonwealth Bank – to meet our obligations, which are unsecured. Please refer to Section 1.21 “What are the significant risks?” in Part 1 of this PDS for more information.

1.6 What happens on the Start Date?

On the Start Date, you will have exposure to the Reference Assets in each Underlying Portfolio in the Strategy or Strategies you have chosen to invest in.

If your Application is accepted, we will send you an Acceptance Notice which will specify your Investment Amount and the Initial Reference Level for each Reference Asset.

1.7 Are there any coupons payable?

The Strategies of Capital Series may or may not pay coupons.

If coupons are payable, they may be payable at a rate which is fixed, regardless of the performance of the Underlying Portfolio. Alternatively, whether coupons are payable and the rate at which they are payable, may be dependant on the performance of the Underlying Portfolio. For example, the Reference Asset in the Underlying Portfolio may have to increase above a specified level for the coupon to be payable.

The Schedule of Terms in Part 2 of this PDS sets out the conditions for each coupon payment and the timing of these payments, depending on the Strategy or Strategies you choose to invest in.

If you provide a valid bank account for direct credit in your Application Form, any coupon payment will be directly credited to the bank account you have provided.

Section 1: Details of the Investment (cont).

1.8 What is the Participation Rate?

The Participation Rate is the rate at which you will participate in any return on the Underlying Portfolio. Generally, the Participation Rate is 100%, however, this rate may change from Strategy to Strategy.

The actual Participation Rate is set on the Start Date based on the prevailing market variables. The factors that affect the Participation Rate are market variables that are constantly changing, including for example, volatility in the Underlying Portfolio. The Participation Rate will be the same for all Investors in a particular Strategy of Capital Series.

The indicative Participation Rate of each Strategy will be specified in the Schedule of Terms in Part 2 of this PDS.

1.9 Is there any foreign exchange risk?

Unless one or more of the Reference Assets is a foreign currency there is no direct currency risk associated with your Investment, as Capital Series is denominated in Australian Dollars.

1.10 What is the Delivery Asset?

The Delivery Asset is the asset which, on the Start Date, you agree to purchase. The Delivery Asset is purchased at maturity of the Investment. The Delivery Asset is the asset as set out in the Schedule of Terms in Part 2 of this PDS, or, where we offer you a choice of assets in the Application Form, the asset selected by you. This Delivery Asset (which we refer to as the Specified Delivery Asset) may change in certain circumstances. Please refer to Section 1.11 in Part 1 of this PDS for more information.

1.11 Can the Delivery Asset change?

It is our intention that the Specified Delivery Asset will be and will remain the Delivery Asset during the term of your Investment. However, on the occurrence of an Adjustment Event, we may substitute the Specified Delivery Asset with a Substituted Delivery Asset. The Substituted Delivery Asset may be any Security as determined by us.

Subject to an Adjustment Event occurring, the substitution of the Delivery Asset may occur at any time after the Start Date and up to and including the Settlement Date. We will only substitute if we reasonably believe there is a valid and sufficient reason for doing so. If substitution occurs and you have elected to accept physical delivery of the Delivery Parcel, the Delivery Parcel will comprise the Substituted Delivery Asset, not the Specified Delivery Asset. We will notify you if a substitution occurs.

1.12 What are my options at maturity?

At maturity, you can choose to either:

- (a) accept physical delivery of the Delivery Parcel, or
- (b) receive the Sale Proceeds from the sale of the Delivery Parcel using our Delivery Asset Sale Service.

If you choose to accept physical delivery of the Delivery Parcel, you will have an investment in the Delivery Asset. You will then no longer have an investment linked to the Reference Assets in each Underlying Portfolio. You should consider whether or not this is suitable for you.

Subject to the Specified Delivery Asset being substituted, the Delivery Asset at maturity will be the Specified Delivery Asset as set out in the Schedule of Terms in Part 2 of this PDS. If you do not consider that an investment in the Delivery Asset, at maturity, is suitable for you, you may choose to receive the Sale Proceeds from the sale of the Delivery Parcel by using our Delivery Asset Sale Service. If you do so, you will incur a Brokerage Fee of up to 0.55% (including GST) of the Maturity Value.

Choosing to accept physical delivery of the Delivery Parcel may have different tax consequences for you than if you choose to receive the Sale Proceeds. This will depend on your specific circumstances and the applicable tax law and Australian Taxation Office ("ATO") rulings and determinations (including, for example, any ATO determinations on deferred purchase agreements). Capital Series is a deferred purchase agreement. You should seek independent tax advice on your investment in Capital Series. Please also refer to Section 4 "Tax Considerations" and "Tax Opinion" in Part 1 of this PDS.

1.13 How is the Maturity Value calculated?

At the Maturity Date, the Strategy Portfolio Return is calculated for each Strategy you choose to invest in and is used to determine the Strategy Maturity Value.

The Strategy Portfolio Return calculations are detailed in Part 2 of this PDS.

In relation to each Strategy you have chosen to invest in, the Strategy Maturity Value is equal to the greater of:

- (a) your Strategy Investment Amount + (your Strategy Investment Amount x Strategy Portfolio Return); and
- (b) your Strategy Capital Protection Amount.

The Maturity Value of your Investment is the sum of the Strategy Maturity Values for each Strategy you choose to invest in.

1.14 What kind of structure is Capital Series?

Capital Series is a deferred purchase agreement between you, the Investor, and Commonwealth Bank. When you invest, you agree to purchase the Delivery Parcel from Commonwealth Bank. The Delivery Parcel is a number of Delivery Assets, equal in value to the Maturity Value. Delivery of the Delivery Parcel is deferred for the Investment Term. The number of Delivery Assets you receive at the end of that time (that is, the Delivery Parcel) depends on the Maturity Value. The Delivery Asset for each Strategy is detailed in Part 2 of this PDS.

Capital Series is classified as a “security” under the Corporations Act because it gives you an equitable beneficial interest (the “Beneficial Interest” as more particularly defined in the Nominee Deed) in a fraction of the Nominee Security for the duration of the investment.

The Nominee Security is held by the Nominee for Investors for the term of the investment and your Beneficial Interest in it cannot be dealt with separately to the rest of the Capital Series (i.e. they form a single package of rights and obligations). So if an Investor transfers its Capital Series interest under clause 13.11 of the Terms of Sale, the Investor’s Beneficial Interest will automatically be transferred along with it to the transferee.

The Nominee Security is 1 ordinary share in the capital of BHP Billiton Limited, or any other substitute security in accordance with the Nominee Deed.

1.15 When do I notify Commonwealth Bank of my preferred settlement at maturity?

Approximately one month before your investment matures, we will send you a Completion Notice to fill out and return to us. In your Completion Notice you must indicate whether:

- 1. you wish to accept physical delivery of the Delivery Parcel, which will be described in the Completion Notice, or
- 2. you wish to receive the Sale Proceeds from the sale of the Delivery Parcel using our Delivery Asset Sale Service.

There may be different tax consequences for you depending on which option you choose. For more information, please refer to Section 4 “Tax Considerations” and “Tax Opinion” in Part 1 of this PDS.

You should complete all the relevant details on the Completion Notice. If the Delivery Asset is a Security quoted and trading on the ASX, you should also specify your broker sponsored account and your Holder Identification Number (HIN).

If you are not funding your investment in Capital Series with a Capital Investment Loan and if we do not receive your Completion Notice by 5 pm, Sydney time, on the Maturity Date we will arrange for physical delivery of the Delivery Parcel to you.

If you choose to receive the Sale Proceeds from the sale of the Delivery Parcel using the Delivery Asset Sale Service, you are instructing us or our nominee to sell the Delivery Parcel on your behalf and forward the Sales Proceeds to you. If your holding includes any partial unit, you will receive the relevant dollar value of the partial unit in cash. We charge a Brokerage Fee of up to 0.55% (including GST) of the Maturity Value for using the Delivery Asset Sale Service.

Section 1: Details of the Investment (cont).

If you are funding your investment in Capital Series with a Capital Investment Loan, and you indicate on your Completion Notice that you wish to accept physical delivery of the Delivery Parcel, subject to clause 3.9, you will need to repay the Capital Investment Loan with your own capital or with other borrowed funds. If you are in default under your Capital Investment Loan, you will not be offered the choice of repaying the Capital Investment Loan with your own capital or with other borrowed funds. If you indicate on your Completion Notice that you wish to use the Delivery Asset Sale Service or if we do not receive a validly completed Completion Notice from you (in which case, we will assume you have chosen to use the Delivery Asset Sale Service), the Sale Proceeds will be used to repay all monies you owe us under the Capital Investment Loan and the Interest in Advance Loan (if applicable). Any residual amount will be paid to the account nominated in your Application Form.

1.16 What happens on the Trade Date and Settlement Date?

On the Trade Date, we will purchase the Delivery Parcel on your behalf. The Trade Date will be five Business Days after the Maturity Date.

On the Settlement Date, we will either physically deliver the Delivery Parcel to you or, if you have elected to receive the Sale Proceeds using our Delivery Asset Sales Service, we will pay you the Sale Proceeds.

The Trade Date and the Settlement Date are set out in the Schedule of Terms in Part 2 of this PDS.

If you are taking physical delivery of the Delivery Parcel, we will transfer the Delivery Parcel as set out in the Completion Notice. For example, if the Delivery Asset is a security quoted and trading on the ASX, we will transfer the Delivery Parcel to your broker-sponsored account and Holder Identification Number (HIN) nominated in your Completion Notice. If you have not nominated a broker-sponsored account and HIN, or they are invalid, we will transfer the Delivery Parcel to an issuer-sponsored account in the same name as your investment.

If you are taking physical delivery of the Delivery Parcel and your holding includes any partial unit, you will receive the relevant dollar value of the partial unit in cash. For example, if the Maturity Value is \$250,000.00 and the Delivery Asset is trading at \$45.00, we will buy on your behalf 5,555 units for a value of \$249,975.00 (5,555 X \$45.00) and forward the residual amount of \$25.00 to you (\$250,000 – \$249,975.00). Note that if the residual amount does not exceed \$20.00, we are under no obligation to you to make any payment for the fractional security or unit (as applicable) that make up the Delivery Asset.

If you are using our Delivery Asset Sale Service we will credit the Sale Proceeds to the account nominated in your Application Form. If you use the Delivery Asset Sale Service, there may be different tax consequences so you should seek your own independent tax advice in this situation. For more information, please refer to Section 4 “Tax Considerations” and “Tax Opinion” in Part 1 of this PDS.

1.17 Can my investment be terminated early?

Capital Series is a hold to maturity investment. However, your Investment may be terminated before maturity by:

- (a) agreement between you and Commonwealth Bank, or
- (b) Commonwealth Bank, in accordance with the Terms of Sale.

Where capital protection applies, if your investment is terminated early, you will not receive any capital protection for your Investment.

You may request Commonwealth Bank to terminate your Investment early. If we agree to terminate your Investment early, we will provide you with an indicative quote and we will determine the date on which the termination will be processed. We will notify you of the date on which the termination will be processed.

At the time of termination we will calculate the Early Termination Value. In doing so we will take into account the Break Costs associated with unwinding the hedge arrangements Commonwealth Bank established in connection with your Investment (which may be an addition (that is, in your favour) or a deduction (that is, not in your favour) in the calculation of the Early Termination Amount).

Break Costs are defined in clause 14.1 of the Terms of Sale. They represent the costs to Commonwealth Bank of terminating your Investment before maturity. They are an amount calculated and determined by us in our absolute discretion, exercised with due care and skill. They may be in your favour, which means they will be added in determining the Early Termination Value; or they may not be in your favour, which means they will be deducted in determining the Early Termination Value.

Break Costs may be significant. They are only payable if your Investment is terminated prior to the Maturity Date. If your Investment is terminated prior to the Maturity Date, the Early Termination Value may be less than your Investment Amount – even if the Underlying Portfolio has increased in value. You will also have to pay an Early Termination Fee (being an amount up to \$500) and, if you elect to use the Delivery Asset Sale Service, a Brokerage Fee (being up to 0.55% (including GST) of the Early Termination Value).

It is not possible to accurately forecast the Break Costs on your Investment. You should therefore not invest in Capital Series if you are likely to need your funds before the Maturity Date.

The table below provides an indication of how changes in some variables can affect Break Costs. The table assumes all other variables remain constant. A downward pointing arrow in the Break Costs column in the table below means it is more favourable to you. An upward pointing arrow in the Break Costs column in the table below means it is less favourable to you.

How changes in some variables affect Break Costs

Variable	Change in Variable	Break Costs
Underlying Portfolio	↑	↓
Underlying Portfolio Volatility	↑	↓
AUD Interest Rates	↑	↑

There may also be different tax consequences if your investment is terminated early. You will need independent tax advice in this situation. For more information, please refer to Section 4 “Tax Considerations” and “Tax Opinion” in Part 1 of this PDS.

1.18 Can Commonwealth Bank terminate the investment early?

We may terminate the Investment early, following an Early Termination Event. In clause 14.1 of the Terms of Sale, an Early Termination Event is defined to mean:

- (a) you are or become Insolvent;
- (b) you or a signatory to your Investment appears to be a Proscribed Person;
- (c) you breach, or fail to fully observe or perform, any of your obligations or undertakings under these Terms of Sale;
- (d) any actual or proposed Adjustment Event which, in our reasonable opinion, it is not possible or desirable to deal with in accordance with clause 9;
- (e) any arrangements entered into by us in order to hedge our obligations under these Terms of Sale in whole or in part cannot reasonably be established, maintained or re-established;
- (f) if you have funded your investment in Capital Series with a Capital Investment Loan and an Interest in Advance Loan (if applicable), a default by you under the terms of your Capital Investment Loan or your Interest in Advance Loan (if applicable); or
- (g) any actual or proposed event that may reasonably in our opinion be expected to lead to any of the events in paragraphs (a) to (f) above occurring.

1.19 What are the significant benefits?

- You have the potential to receive capital growth based on the performance of the Reference Assets in the Underlying Portfolio of the Strategy or Strategies you choose to invest in.
- Each Reference Asset in the Underlying Portfolios may be diversified across a broad base of companies, asset classes or geographic regions. This diversification may reduce investment risk by potentially moderating volatility compared to investing in individual stocks or assets.
- If your Investment is held to maturity, you will receive capital protection equal to the amount of the Total Capital Protection Amount; and in relation to each Strategy, the Strategy Capital Protection Amount.
- The Strategies of Capital Series may or may not pay coupons. For information on coupon payments and the timing of these payments for each Strategy, please refer to Part 2 of this PDS.

Section 1: Details of the Investment (cont).

- Any return on your Strategy Investment Amount, apart from any coupon payments (depending on which Strategy or Strategies you choose to invest in), reflects the performance of the Underlying Portfolio. You also gain exposure to the performance of these assets without the complication of direct investment in stock exchanges and other financial markets.
- You have the security and convenience of dealing exclusively with Commonwealth Bank, one of Australia's leading financial institutions.
- Unless one or more of the Reference Assets is a foreign currency, there is no direct currency risk associated with your investment, as Capital Series is denominated in Australian Dollars.
- At maturity of Capital Series you can choose to either:
 - (a) accept physical delivery of the Delivery Parcel, or
 - (b) receive the Sale Proceeds from the sale of the Delivery Parcel using our Delivery Asset Sale Service.

If you choose to accept physical delivery of the Delivery Parcel, you will then have an investment in the Delivery Asset. An investment in the Delivery Asset gives you exposure to the performance of the Delivery Asset, which may be of benefit to you.

- If you choose to accept physical delivery of the Delivery Parcel there may be tax consequences that are favourable to you, depending on your specific taxation circumstances and the applicable tax law and ATO rulings and determinations (including, for example, any ATO determinations on deferred purchase agreements). You should note that these consequences may not be available to you. Please refer to Section 1.21 "What are the significant risks?" in Part 1 of this PDS. For further information, please also refer to Section 4 "Tax Considerations" and "Tax Opinion" in Part 1 of this PDS.
- You may withdraw your Application for Capital Series at any time before the Closing Date. Any money that you have paid with the Application Form will be refunded to you, without interest.

The benefits above may have risk associated with them. Please refer to Section 1.21 "What are the significant risks?" in Part 1 of this PDS.

1.20 What are the significant disadvantages?

- On the Maturity Date you can choose to either:
 - (a) accept physical delivery of the Delivery Parcel, or
 - (b) receive the Sale Proceeds from the sale of the Delivery Parcel using our Delivery Asset Sale Service.

If you choose to accept physical delivery of the Delivery Parcel at maturity, you will have an investment in the Delivery Asset. This will give you exposure to the performance of the Delivery Asset which may not be advantageous to you.
- If you choose to receive the Sale Proceeds from the sale of the Delivery Parcel using our Delivery Asset Sale Service at maturity or upon Early Termination, you will incur a Brokerage Fee of up to 0.55% (including GST) of the Maturity Value or the Early Termination Value (whichever is applicable). There may also be tax consequences. In particular, you may be treated as holding your investment on revenue account and may not be eligible for any Capital Gains Taxation (CGT) discount on any gain on your Investment. You should seek independent tax advice in this situation. For more information on taxation, please refer to Section 4 "Tax Considerations" and "Tax Opinion" in Part 1 of this PDS.
- You need to be aware of the applicable tax law and relevant rulings and determinations (including determinations on deferred purchase agreements). Receiving the Sale Proceeds at maturity may be more disadvantageous from a tax perspective than accepting physical delivery of the Delivery Parcel at maturity, depending on your specific circumstances. Please refer to the "Taxation risk" part of Section 1.21 "What are the significant risks?" in Part 1 of this PDS. For more information on this subject, please refer to Section 4 "Tax Considerations" and "Tax Opinion" in Part 1 of this PDS.
- If capital protection applies to any Strategy at maturity and your Investment is terminated early, you will not receive any capital protection for your Investment. Break Costs may be significant and may result in the Early Termination Value of your investment being less than your Investment Amount. You will have to pay an Early Termination Fee (being an amount up to \$500) and, if you elect to use the Delivery Asset Sale Service, a Brokerage Fee (being up to 0.55% (including GST) of the Early Termination Value). There may also be different tax consequences. Please refer to Section 1.17 "Can my investment be terminated early?" and Section 1.18 "Can Commonwealth Bank terminate the investment early?" in Part 1 of this PDS. Please also refer to Section 4 "Tax Considerations" and "Tax Opinion" in Part 1 of this PDS.

1.21 What are the significant risks?

Capital Series may not be suitable for you. You need to make sure that you understand all of the risks of investing before applying. We recommend that you obtain independent financial advice before investing in Capital Series.

Starting from the time at which you make your Investment, risk factors may lead to changes in the financial outcomes that are unfavourable to you. Monitoring of any risks associated with this product is your responsibility (subject to the responsibility of Commonwealth Bank for its own operational processes, please refer to “Operational risk” on page 14 in Part 1 of this PDS).

Performance and general investment risk

- There is a risk that you may receive no return on your Investment. Apart from any coupon payments you may receive during the term of your Investment (depending on which Strategy or Strategies you choose to invest in), you will only receive a return on your investment on the Settlement Date if on the Maturity Date the final value of your Investment is higher than your Investment Amount. Commonwealth Bank cannot guarantee the performance of the Reference Assets in each Underlying Portfolio nor your Investment.
- There are circumstances where you may make a capital loss. Any capital protection feature, which provides protection equal to the Total Capital Protection Amount and, in relation to each Strategy, the Strategy Capital Protection Amount, will apply only if your Investment is held until maturity. If the Total Capital Protection Amount is less than your Investment Amount, you may incur a loss on your Investment.
- The effects of inflation and time value of money mean the amount you invest may be worth less at maturity, even if that amount was capital protected.
- Investments in Capital Series are not bank deposits. You are reliant on us – Commonwealth Bank – to meet our obligations, which are unsecured.
- Capital Series is a hold to maturity investment. However, your Investment may be terminated before maturity either by agreement between you and Commonwealth Bank, or by Commonwealth Bank following an Early Termination Event. Please refer to Section 1.18 “Can Commonwealth Bank terminate the investment early?” for more information on Early Termination Events. If terminated before maturity, the Early Termination Value of your investment may be less than your Investment Amount and you may make a capital loss. Break Costs payable by you could be a factor in this. Break Costs are defined in clause 14.1 of the Terms of Sale and can be significant. They represent the costs to Commonwealth Bank of terminating your Investment before maturity. The Break Costs could be in your favour, which means they will be added in when determining the Early Termination Value or they may not be in your favour, in which case they will be deducted. Break Costs may be significant. Break Costs are payable only if your Investment is terminated prior to the Maturity Date. This, together with the fact that an Early Termination Fee and, if you elect to use the Delivery Asset Sale Service, a Brokerage Fee is payable on Early Termination, is why Capital Series is a hold to maturity investment. If you choose to invest, we recommend that you only invest funds which you will not require for other purposes during the life of your Investment. Please refer to Section 1.17 “Can my investment be terminated early?” and Section 1.18 “Can Commonwealth Bank terminate the investment early in Part 1 of this PDS for more information.
- Capital Series is a speculative financial product and its returns may be less than the return you could earn on other investments.
- Capital Series is not a listed investment. It cannot be traded on a market.
- The performance of Capital Series and the Strategy Portfolio Return of each Underlying Portfolio are not affected by the performance of the Delivery Asset over the Investment Term. However, if you elect to accept physical delivery of the Delivery Parcel at maturity you should be aware that following purchase by Commonwealth Bank of the Delivery Parcel on the Trade Date, the value of the Delivery Parcel will be affected by changes in the price of the Delivery Asset. You can find out where to obtain more information about the Delivery Asset in Part 2 of this PDS.
- On the occurrence of an Adjustment Event, we may substitute the Specified Delivery Asset the Substituted Delivery Asset. If substitution occurs, the Delivery Asset will be the Substituted Delivery Asset, not the Specified Delivery Asset. You are warned of this and should take this into account when considering investing in Capital Series. We will promptly notify you if substitution occurs.
- Although funds invested in Capital Series may be capital protected, if you borrow funds to invest in Capital Series any interest you pay on those borrowed funds will not be capital protected.

Section 1: Details of the Investment (cont).

Market risk

- › During the Investment Term, Capital Series may be affected by a number of market variables, including but not limited to, the performance of the Reference Assets in each Underlying Portfolio, interest rates, economic variables, time remaining to maturity, technological, legal or political conditions that may occur globally or at a country, industry or asset specific level.
- › Investors should be familiar with stocks and with investments in the financial markets generally. In particular, Investors should be familiar with the financial market on which the Reference Assets in each Underlying Portfolio are traded.
- › If there is more than one Reference Asset in any Underlying Portfolio or if you invest in more than one Strategy, the Reference Assets in these Strategies may be correlated to a greater or lesser extent than you anticipate.

Taxation risk

- › Capital Series is a deferred purchase agreement. The ATO has made determinations in relation to deferred purchase agreements (TD 2008/21 and TD 2008/22) and this may have taxation implications for you. Any changes to the tax law, ATO interpretation of the tax law or change in the way your Investment affects your tax position could affect the value and/or the return of your Investment. For more information on tax, please refer to Section 4 “Tax Considerations” and “Tax Opinion” in Part 1 of this PDS.
- › Whether at maturity you choose to accept physical delivery of the Delivery Parcel or to receive the Sale Proceeds may have different tax consequences for you, depending on your specific taxation circumstances and the applicable tax law and ATO rulings and determinations (including, for example, any ATO determinations on deferred purchase agreements). If you intend to terminate early, there may be tax consequences which you should consider. For more information, please refer to Section 4 “Tax Considerations” and “Tax Opinion” in Part 1 of this PDS.

Credit risk

Credit risk, which is sometimes described as “counterparty risk”, is common to all investment products that you may hold with Commonwealth Bank. In all cases, you are reliant on the ability of Commonwealth Bank to meet its obligations to you under the terms of each transaction, which in the case of Capital Series are unsecured obligations.

Where under a Strategy of Capital Series coupons are payable, payment of these coupons is an obligation of Commonwealth Bank. You are reliant on us – Commonwealth Bank – to meet our obligations. Capital Series is capital protected only at maturity by Commonwealth Bank in the amount of the Total Capital Protection Amount and in relation to each Strategy, in the amount of the Strategy Capital Protection Amount. This means that the Maturity Value of your Investment at maturity cannot be less than the Total Capital Protection Amount, and for each Strategy you choose to invest in, the Strategy Maturity Value of your investment at maturity cannot be less than your Strategy Capital Protection Amount. However, even though we use the word “protected” in relation to the capital of your Investment, you are reliant on us – Commonwealth Bank – to meet our obligations. You are warned that the obligation of Commonwealth Bank to ensure that coupon payments are paid (depending on which Strategy or Strategies you choose to invest in) and the obligation of Commonwealth Bank to ensure the Maturity Value of your Investment at maturity is not less than the Total Capital Protection Amount, and the Strategy Maturity Value is not less than your Strategy Capital Protection Amount, are unsecured obligations of Commonwealth Bank which rank equally with other unsecured obligations of Commonwealth Bank. If, for example, in the unlikely event Commonwealth Bank were wound up, there would be a risk you may not receive your capital protection at maturity and if coupons are payable for a Strategy, you may not receive your coupon payments. This means you may make no return on your Investment and you may make a capital loss.

For more information on Commonwealth Bank, please refer to Section 5 under “Information about Commonwealth Bank” in Part 1 of this PDS. You can also view further information about Commonwealth Bank, including financial statements and annual reports, at commbank.com.au

Operational risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or external events.

You are reliant on the ability of Commonwealth Bank to price and settle your investment in a timely and accurate manner. Commonwealth Bank in turn is dependent on the reliability of its own operational processes that include communications, computers and computer networks. Disruptions in Commonwealth Bank’s processes may lead to delays in the execution and settlement of your investment. Such disruptions may result in outcomes that are less favourable to you. However, once you have made your Investment, the management of risks associated with its own operational processes is the responsibility of Commonwealth Bank.

Legal risk

Australia, as a member state of the United Nations, is obliged to implement United Nations Security Council sanctions. Australia also may be required to implement other international sanctions and sometimes imposes unilateral sanctions. Sanctions can cover various subject matters including financial restrictions. Consequently, Commonwealth Bank may be prohibited from dealing with certain persons or entities.

This means that if Commonwealth Bank is aware that you, or a signatory to your Investment, are a proscribed person or entity, then we may be required to suspend, cancel or refuse you services or close or terminate any account, facility, transaction, arrangement or agreement with you. We may also be required to freeze your assets. You could incur significant costs as a result of these actions.

Adjustment events and other changes to the Terms of Sale

Certain events may occur affecting the use or suitability of the Specified Delivery Asset or the Reference Assets in each Underlying Portfolio for Capital Series. If these events occur we may substitute the Delivery Asset with another Security (the Substituted Delivery Asset), or substitute one or more of the Reference Assets in each Underlying Portfolio with another asset or other assets. We will only substitute if we reasonably believe there is a valid and sufficient reason for doing so. For more information on adjustments, please refer to clause 9 of the Terms of Sale and the definition of "Adjustment Event" in clause 14.1 of the Terms of Sale.

If adjustment occurs, the Delivery Asset and/or the Reference Assets in each Underlying Portfolio will change. You are warned of this and should take this into account when considering your Investment.

Further, if we determine in our reasonable opinion that any adjustments we make are not appropriate to deal with the occurrence of an Adjustment Event we may make alterations to clause 9 of the Terms of Sale or any other term that we consider is reasonably appropriate. Alternatively, we can nominate the Adjustment Event as an Early Termination Event and deal with it accordingly. We may also adjust or amend any variable, formulae, amount, weighting or calculation set out or used in the Terms of Sale and/or the Schedule of Terms. You will be notified if an adjustment occurs.

If we determine that any Early Termination provision in clause 8 of the Terms of Sale is not appropriate in any particular circumstances, or that any event which is not dealt with in clause 8 of the Terms of Sale should have been dealt with, we may make any alterations to these provisions or any other Term in the Terms of Sale that we consider appropriate.

We may from time to time make any modification, variation, alteration or deletion of, or addition to, the Terms of Sale ("Amendment") by sending you written notice describing the amendments where:

- (a) the Amendment is one determined by us as being required under either of clauses 8 or 9 of the Terms of Sale;
- (b) the Amendment is necessary or desirable in our reasonable opinion to comply with any statutory or other requirement of law, or
- (c) in our reasonable opinion the Amendment is necessary, desirable or expedient to:
 - (i) correct any error, inconsistency, inadvertent omission, inaccuracy or ambiguity in these Terms of Sale;
 - (ii) conform Commonwealth Bank with its competitors, industry or market practice or best practice in Australia or overseas;
 - (iii) accommodate changes to the needs or requirements of the Bank's customers (such as new product features or services); or
 - (iv) address any internal requirements of the Bank, for example, occasioned by changes in technology or processing (including computer systems),

but only if such Amendment does not, in our reasonable opinion, cause you detriment.

The risks described here may not include all the risk considerations that may be relevant to you when making an investment. Please also refer to Section 1.20 "What are the significant disadvantages?" in Part 1 of this PDS. Before transacting in Capital Series you should be satisfied that Capital Series is suitable for you. We recommend that you consult your investment adviser or obtain other independent advice on your Investment.

Changes of dates and times

At any time before the Start Date specified in the "Key dates and information" in Part 2 of this PDS, Commonwealth Bank may, if we consider it necessary, desirable or expedient, change the Start Date, the Closing Date (and time), the Maturity Date, the Trade Date or the Settlement Date of this invitation, in which case you acknowledge that the Investment Term may be more or less than the term stated in the Schedule of Terms. We may do this, for example, to deal with changes in pricing or market conditions, or to achieve a requisite number of applicants for Capital Series, or to address regulatory or compliance requirements.

Section 1: Details of the Investment (cont).

1.22 What information is contained in the Nominee Deed?

This is a summary of some of the key terms of the Nominee Deed. It does not purport to be a comprehensive summary of the relevant terms of the Nominee Deed. It highlights particular provisions that we encourage you and other prospective Investors to consider in detail and discuss with your advisers. A copy of the Nominee Deed is available free of charge to prospective applicants and Investors in Capital Series. Clause references in this section are references to clauses in the Nominee Deed.

Trust

The Nominee will hold each item of trust property on the terms of the Nominee Deed on trust for the Beneficiaries solely. The trust property is comprised of the Nominee Security and the Beneficiaries of the trust are:

- (a) in respect of income relating to the Nominee Security, us; and
- (b) in all other respects, you.

The trust will terminate on the earlier of the date on which all Capital Series have been discharged (or any other date determined by us and notified to the Nominee), and the day before the date 80 years from the date of the Nominee Deed.

It is a term of the trust that no encumbrance may be created, arise or continue to exist over the trust property.

Beneficial Interest

Each Investor has an equitable beneficial interest in the Nominee Security (the “Beneficial Interest”, as more particularly defined in the Nominee Deed) which is subject to the terms of the Nominee Deed.

Neither the Capital Series nor the Beneficial Interest in the trust property held by you confers or entitles you or any other Investor to:

- (a) any right to require the transfer to it of any of the Nominee Security;
- (b) any further assurance of that Beneficial Interest beyond that resulting from the Terms of Sale and the Nominee Deed;
- (c) receive notices of meetings of the issuer of the Nominee Security, attend, speak or vote at any meetings of members of the issuer of the Nominee Security, or require the Nominee to do so; or
- (d) otherwise control the transfer or disposal of the trust property.

Voting by the Nominee

The Nominee must not cast any vote in respect of the Nominee Security comprised in the trust property. The Nominee must not dispose of the Nominee Security for the duration of the Trust except that the Nominee may:

- (a) deposit certificates for the Nominee Security with a custodian; and/or
- (b) hold uncertificated shares in the name of a custodian,

where required for compliance with our obligations under the Terms of Sale in relation to Capital Series or as otherwise expressly permitted by the Nominee Deed.

Entitlements to Dividends

If a Dividend is paid, the Nominee must pay the Dividend directly to us as soon as possible after receipt in the form of cleared funds. You have no entitlement to any Dividends. Neither we nor the Nominee has any obligation to accept or participate in any dividend reinvestment plans on behalf of you or any other investor.

Corporate Actions and Takeover Bids

In the event of a corporate action or a takeover bid, the Nominee may (at our direction) take (and will not be liable for) any reasonable action in respect to the corporate action or takeover bid. This might include substituting the Nominee Security for some other security.

In particular, if a takeover bid is made or announced for any Nominee Security, the Nominee will not accept that takeover bid, will be under no obligation to communicate any information or document it receives in connection with that takeover bid to any Beneficiaries and will have no other obligation to any person in connection with that takeover bid.

Occurrence of disposal event

If a disposal event occurs and the Nominee is obliged to dispose of the Nominee Security, the Nominee must take all reasonable steps to determine which securities will be sold and to sell the securities in accordance with that obligation. Upon completion of a sale of a Nominee Security the proceeds of any sale made upon a disposal event will be applied at our direction to acquire a substitute Nominee Security.

Extinguishment and transfer of Beneficial Interest of Investor

Upon the occurrence of an extinguishment event, your Beneficial Interest in the Nominee Security is automatically extinguished in full and you will no longer have any interest, right or claim to or in respect of the Nominee Security or the other trust property. An extinguishment event happens when any event or circumstance referred to in the Terms of Sale in clause 3.6 (“Satisfaction of obligations”), clause 3.9 (“Default under the Capital Investment Loan or the Interest in Advance Loan”) or clause 8.3 (“Procedure for Early Termination”) occurs.

If an Investor transfers any of the Investor’s rights or obligations under the Terms of Sale in accordance with clause 13.11 (“Assignment and transfer of interests”) of the Terms of Sale, then automatically upon such transfer the Investor’s related Beneficial Interest will be transferred to the relevant transferee.

Delegation

The Nominee may authorise any person(s) to act as its delegate (in the case of a joint appointment, jointly and severally) to hold title to the Nominee Security, perform any act or obligation or exercise any discretion within the Nominee’s power. The delegate may be an associate of the Issuer or the Nominee.

Retirement

The Nominee must retire as the trustee of the trust when required to retire by the operation of law. The Nominee may retire by giving 30 days notice to us or any shorter notice period we accept. We may also remove the Nominee in accordance with the Nominee Deed. In either case, we appoint the replacement.

Limitation on liability

The Nominee does not have any obligations or duties in respect of the trust, the Capital Series, the Nominee Security, the trust property or anything in relation to them except as expressly set out in the Nominee Deed. If the Nominee acts in good faith and without wilful default or negligence in endeavouring to perform its obligations under the Nominee Deed, it is not responsible to you or any other investor for any loss suffered in respect of the trust including in case of a breach of an obligation imposed on the Nominee.

The liability of the Nominee in relation to the trust is in any case limited to the trust property.

Exercise of discretion

The Nominee need not act except when required to do so by the Nominee Deed. The Nominee need not consult with your or any other Investor before acting, giving any consent, approval or agreement or making any determination under the Nominee Deed except if it expressly provides otherwise.

Further obligations

Notwithstanding any other provision of the Nominee Deed the Nominee is not required to do or to omit to do anything or to incur any liability unless the Nominee’s liability is limited in a manner satisfactory to the Nominee, the Nominee will not be under any obligation to advance or to use its own funds for the payment of any costs, expenses or liabilities, the Nominee is not required to keep itself generally informed as to the circumstances or activities of the issuer of the Nominee Security, the Issuer or any other person, including their compliance with their obligations in connection with the Nominee Deed, the Capital Series or the Nominee Security and a liability or obligation of the Nominee arising under the Nominee Deed is strictly limited to the extent to which (and can be enforced against the Nominee only to the extent to which) the Nominee is actually indemnified for the liability by the Issuer or the liability or obligation can lawfully be satisfied in accordance with the Nominee Deed out of the Nominee Security in respect of the Trust.

Section 1: Details of the Investment (cont).

Reimbursement of outgoings

All costs, fees, expenses and liabilities reasonably and properly incurred by the Nominee in connection with the Trust or in performing its obligations under the Nominee Deed are payable or reimbursable by the Issuer.

Investors must pay all transfer tax and other charges including a goods and services tax, if any, and any taxes payable by the Nominee in connection with the ownership, transfer, termination and/or maturity of a Capital Series.

Statements, accounts and audit

The Nominee is not required to prepare and lodge consolidated accounts and financial and taxation returns unless it is required by law to do so.

Amendments to deed

The Issuer and the Nominee may together by supplemental deed amend the Nominee Deed if one or more of the following applies:

- (a) the amendment is necessary to rectify any defect, manifest error or ambiguity in the terms of the Nominee Deed where the amendment is not materially prejudicial to the interests of Investors;
- (b) the terms of the amendment are authorised by us; or
- (c) the terms of the amendment are necessary in the opinion of the Nominee and the Issuer to comply with any statutory or other requirement of law (including as modified or applied in any respect to the Capital Series).

1.23 What are the costs?

Initial Adviser Fee	The Initial Adviser Fee may be payable by you at the start of your Investment. If you have been introduced to us by any broker, financial planner or other financial intermediary, and they declare in the Application Form that you have agreed an Initial Adviser Fee with them, we will pay this amount on your behalf to them as an adviser fee.
Brokerage Fee	If you elect to use the Delivery Asset Sale Service at maturity or upon Early Termination, the Brokerage Fee on the sale of the Delivery Asset is up to 0.55% (including GST) of the Maturity Value or the Early Termination Value (whichever is applicable). The Brokerage Fee is payable by you at maturity or at the time of Early Termination (whichever is applicable).
Early Termination Fee	The Early Termination Fee is an amount up to \$500 and is payable by you at the time of Early Termination.

1.24 Who may apply for Capital Series?

Application for Capital Series is open to:

- > Australian residents
- > Companies registered in Australia
- > Australian trust entities
- > Australian superannuation funds

You are bound by the Terms of Sale when you make an Application.

Commonwealth Bank issues Capital Series on the Terms of Sale set out in Section 6 “Terms of Sale” in Part 1 of this PDS. You should make sure that you read and understand the Terms of Sale. Signing and lodging an Application Form will bind you to the Terms of Sale, provided that, where you have signed and lodged an Application Form, you may withdraw your Application at any time prior to the Closing Date. The Terms of Sale include the Schedule of Terms.

1.25 How do I apply?

You should send us your completed Application Form, which must be received by Commonwealth Bank no later than 12.00 pm (noon) Sydney time on the Closing Date, as specified in Part 2 of this PDS. Applications may be made only on the Application Form attached to the back of Part 2 of this PDS.

You may apply for any amount in any Strategy or Strategies in Capital Series, subject to a Minimum Investment Amount and minimum increments as specified in the Schedule of Terms.

The sum you pay is called the Application Amount. We may deduct from this any Initial Adviser Fee as agreed between you and your broker, financial planner or other financial intermediary. The amount invested by you is your Investment Amount. This is the Application Amount, less any Initial Adviser Fee. No stamp duty is payable by you under Capital Series.

You can pay the Application Amount by cheque or direct debit.

If you are paying by cheque, you should attach the cheque to your completed Application Form and the cheque will be processed once your Application has been received. If you are paying by direct debit, you should complete the Direct Debit section in the Application Form and your nominated account will be debited once your Application has been received. Any interest on these funds in the period between the date we receive your funds and the Start Date will be retained by Commonwealth Bank.

If you are paying by cheque, you should ensure that you have sufficient cleared funds in the account against which your cheque will be drawn when you submit your Application Form. If you are paying by direct debit, you should ensure you have sufficient cleared funds in the account you have nominated in your Application Form. If you do not have sufficient cleared funds in the relevant account, your application may not be accepted. If your application is not accepted, any money that you have paid to us will be returned to you. Any interest on these funds will be retained by Commonwealth Bank.

Important: If any Capital Series is approved by an investor directed portfolio service, master trust, wrap platform, nominee or custody service you can also apply for Capital Series through that service, as approved by us. To invest in Capital Series through these services, you will need to complete an application form for the relevant service. You should not complete the Application Form in this PDS.

For the purposes of quotation on any investor directed portfolio service, master trust, wrap platform, nominee or custody service, your Investment may be quoted as a quantity of units. Units do not confer a separate item of property on investors. Rather, each unit will represent \$1.00 of your Investment Amount. Any unit price quoted on these services during the term of the Investment will represent a value for every \$1.00 of your Investment Amount as at the date of quotation.

1.26 Will my application be accepted?

We may, in our absolute discretion, refuse or reject any Application (wholly or in part) without giving you a reason. We also reserve the right at any time to close the invitation early. If an Application is rejected or accepted only in part, we will return all or part of the Application Amount to you, without interest.

If we decide that we will accept an Application, acceptance of your offer will take place on the Start Date, as specified in the Terms of Sale. Within 10 Business Days of the Start Date, we will provide you with a notice acknowledging acceptance.

1.27 Can I withdraw my Application?

You may withdraw your Application for Capital Series any time before the Closing Date. Any money that you have paid will be refunded to you without interest.

Section 2: The Capital Investment Loan

2.1 What is the Capital Investment Loan?

The Commonwealth Bank Capital Investment Loan is an interest only loan designed for investors who want to borrow to invest in Capital Series (the “Product”). You may borrow an amount up to the Total Capital Protection Amount for the Product. If the Total Capital Protection Amount is less than your Investment Amount, you will be required to contribute the difference using your own funds.

You should read the Terms and Conditions of the Loan, and seek professional advice on your rights and obligations under the Terms and Conditions of the Loan. Applications for the Capital Investment Loan are subject to Commonwealth Bank's credit approval process.

Capitalised terms in this section are as defined in the Terms and Conditions of the Loan.

2.2 What are the features of the Capital Investment Loan?

Eligible applicants	Investors who want to borrow to invest in Capital Series.
Loan Limit	The maximum amount we are prepared to lend you under the Capital Investment Loan, which is an amount up to your Total Capital Protection Amount for the Product, subject to Commonwealth Bank's credit approval process.
Loan Term	The period of time from the Capital Investment Loan Start Date to the Capital Investment Loan Maturity Date.
Capital Investment Loan Start Date	The Capital Investment Loan is used to invest in the Product, therefore the Capital Investment Loan Start Date will be the Start Date of the Product. If the Start Date of the Product changes, the Capital Investment Loan Start Date may also change. The Start Date of the Product is determined by Commonwealth Bank.
Capital Investment Loan Maturity Date	The Capital Investment Loan Maturity Date is the Settlement Date as defined in this PDS. Any changes to the Settlement Date of the Product may result in changes to the Capital Investment Loan Maturity Date.
Interest Rate	The Interest Rate is either a fixed rate payable yearly in advance or payable monthly in arrears, or a variable rate payable monthly in arrears. Please contact your financial adviser or, if you do not have a financial adviser, contact us on 13 15 20 to obtain the indicative interest rates.
Interest Payment	You can either pay interest each month in arrears or pay for a year's interest in advance. If you elect to pay interest monthly in arrears, your interest payment will be debited from your Nominated Account on the last day of each month (or if the last day of the month is not a Business Day, the next Business Day). If you elect to pay interest yearly in advance, your first yearly interest payment will be debited from your Nominated Account on the Capital Investment Loan Start Date (unless you have an Interest in Advance Loan, in which case, we will apply the proceeds of the Interest in Advance Loan to pay the interest yearly in advance due and owing under the Capital Investment Loan). For further information on Interest in Advance Loan, please refer to Section 3.1 “What is the Interest in Advance Loan?” in Part 1 of this PDS.
Fees	Fees and charges may include: <ul style="list-style-type: none"> › An establishment fee › A trust deed review fee › A prepayment fee › A direct debit dishonour fee › A statement reissuing fee (the amount and purpose of the above are set out in the Schedule to the Terms and Conditions) › Government charges and stamp duty › Regulatory establishment fees for company and trust applicants <p>These fees are subject to change. Please contact your financial adviser or, if you do not have a financial adviser, call us on 13 15 20 to obtain the current rates for these fees.</p>

It is important that you read all of Section 2 “The Capital Investment Loan” and the attached Terms and Conditions of the Loan. You should also consult your investment adviser before making an application for a Capital Investment Loan.

Section 2: The Capital Investment Loan (cont).

2.3 How does the Capital Investment Loan work?

The Capital Investment Loan is an interest only loan, so you make no repayments of the Capital Investment Loan principal until your Capital Investment Loan matures on the Capital Investment Loan Maturity Date.

You can pay a fixed interest rate either monthly in arrears or annually in advance, or you can pay a variable interest rate monthly in arrears. If you elect to pay interest monthly in arrears (at a fixed or variable rate), your interest payment will be debited from your Nominated Account on the last day of each month. If the last day of the month is not a Business Day, your interest payment will be debited from your Nominated Account on the next Business Day.

If you elect to pay fixed interest yearly in advance, your first yearly interest payment will be debited from your Nominated Account on the Capital Investment Loan Start Date (unless you have an Interest in Advance Loan, in which case, we will apply the proceeds of the Interest in Advance Loan to pay the yearly interest in advance due and owing under the Capital Investment Loan).

For further information in Interest in Advance Loan, please refer to Section 3 “The Interest in Advance Loan” in Part 1 of this PDS.

2.4 What happens at maturity?

Before your Capital Investment Loan matures, you can elect to repay the Capital Investment Loan with:

- › the Sale Proceeds – any amount above the outstanding Loan Balance will be paid to your Nominated Account; or
- › your own capital (and take possession of the Delivery Asset as specified in this PDS) or with other borrowed funds.

We must receive your repayment election at least 10 Business Days prior to the Capital Investment Loan Maturity Date. The notification date will be specified on your Loan Confirmation. If we do not receive any valid notification you will be deemed to have elected to use the Delivery Asset Sale Service and to have authorised us to use the Sale Proceeds to repay all moneys you owe us in connection with the Capital Investment Loan.

If the Capital Investment Loan Maturity Date does not coincide with the anniversary of the Capital Investment Loan Start Date, then the final interest payment of the Capital Investment Loan will cover the remaining period and may be payable on the Capital Investment Loan Maturity Date.

2.5 How do I apply for the Capital Investment Loan?

Once you have decided to apply for the Capital Investment Loan, you need to:

1	Read Section 2 in Part 1 of this PDS and the Terms and Conditions of the Loan carefully.
2	Complete the relevant section of the Application Form and sign the Application Form in Part 2 of this PDS. Attach supporting documentation as required.
3	Forward your completed Application Form to: Capital Series Commonwealth Securities Locked Bag 34 Australia Square NSW 1214
4	Contact your financial adviser or, if you do not have a financial adviser, call us on 13 15 20 if you require further assistance.

If Commonwealth Bank approves your Capital Investment Loan application, the funds will be used on your behalf to make an investment in the Product. You will receive a Loan Confirmation from Commonwealth Bank setting out the details of your Capital Investment Loan.

You can only borrow up to an amount equal to the Total Capital Protection Amount. The Total Capital Protection Amount will be specified in the Schedule of Terms in Part 2 of this PDS.

If the Total Capital Protection Amount is less than your Investment Amount, you must contribute the difference to make an investment in the Product. The difference between your Investment Amount and the Total Capital Protection Amount will be debited from your nominated account once your Application is received.

2.6 Can I prepay my Capital Investment Loan before maturity or terminate early?

The objective of the Capital Investment Loan is that you invest in the Product and continue that investment until maturity. However, if you wish to prepay your Capital Investment Loan before the Capital Investment Loan Maturity Date, you may do so provided you give us at least five Business Days prior notice. The Capital Investment Loan must be prepaid in full.

If you prepay the Capital Investment Loan and you have an Interest in Advance Loan, you must prepay all Money Owing under the Capital Investment Loan and all Money Owing under the Interest in Advance Loan on the date of prepayment of the Capital Investment Loan.

Prepayment or early termination will result in additional costs, including:

- › A prepayment fee of \$300
- › Break Costs (if they are not in your favour)
- › Any government fees, charges or taxes, including stamp duty
- › Any accrued but unpaid interest and bank fees

This PDS contains an explanation of how the capital protection works. Capital protection will only apply if the Product is held for the full Investment Term (as defined in this PDS).

2.7 What happens to my Capital Investment Loan if my investment in the Product is terminated early?

If your investment in the Product is terminated early, you will be required upon termination to repay the full Capital Investment Loan principal and all other Money Owing under your Capital Investment Loan (including the additional costs referred to above) to Commonwealth Bank. If you choose to accept physical delivery of the Delivery Parcel, subject to clause 3.9, you will need to repay the full Capital Investment Loan principal and all other Money Owing under your Capital Investment Loan (including the additional costs referred to above) with your own capital or with other borrowed funds. If you choose to use the Delivery Asset Sale Service, the Sale Proceeds will be applied against the amounts you owe under the Capital Investment Loan and all other Money Owing under your Capital Investment Loan.

The Terms and Conditions of the Loan provide that Commonwealth Bank is authorised to apply the Sale Proceeds against amounts you owe to Commonwealth Bank under the Capital Investment Loan and all other Money Owing under the Capital Investment Loan. If your investment in the Product is terminated early and the Sale Proceeds are used to repay the Capital Investment Loan and all other Money Owing under the Capital Investment Loan, it may be possible for the Sale Proceeds to be less than the principal of the Capital Investment Loan and other Money Owing to Commonwealth Bank in connection with the Capital Investment Loan. You will still be liable for the full Capital Investment Loan principal and Break Costs (if they are not in your favour) and any other costs associated with early termination, whether or not you are in default under the Capital Investment Loan.

2.8 What happens if I default under the Capital Investment Loan?

If you are in default under the Capital Investment Loan, then under the Terms of Sale in this PDS, Commonwealth Bank can terminate your investment in the Product early. You will not be entitled to receive the Delivery Assets or the Sale Proceeds if you are in default under the Capital Investment Loan. Instead, you may be entitled to receive an amount ("Early Termination Payment") equal to the Early Termination Value, less the Early Termination Fee and less the Brokerage Fee (as those terms are defined in this PDS). The Terms and Conditions of the Loan provide that Commonwealth Bank is authorised to apply the Early Termination Payment against amounts you owe to Commonwealth Bank under the Capital Investment Loan and all other Money Owing under the Capital Investment Loan. If you are in default and are required by Commonwealth Bank to terminate your investment in the Product early and you use the Early Termination Payment to repay the Capital Investment Loan, it may be possible that the Early Termination Payment is less than the principal of the Capital Investment Loan and other Money Owing (if any) that you owe to Commonwealth Bank in connection with the Capital Investment Loan. You will be required to repay any of the principal under the Capital Investment Loan and other Money Owing (if any) that is not covered by the Early Termination Payment.

Section 2: The Capital Investment Loan (cont).

2.9 Are there any taxation implications?

You need to be aware that the interest you pay on the Capital Investment Loan may not be allowable as a tax deduction. This depends on your specific circumstances and you should seek your own independent tax advice. Should the interest not be deductible in your specific circumstances, the interest should generally form part of the cost base of your Investment.

For more information, please refer to Section 4 “Tax Considerations” and “Tax Opinion” in Part 1 of this PDS.

2.10 What paperwork will I receive?

Your Loan Confirmation will contain information on your interest payments. If you have elected to pay interest yearly in advance using your funds (i.e. without using an Interest in Advance Loan) you will also receive an interest payment notification two weeks before interest is due to be debited from your Nominated Account.

Section 3: The Interest in Advance Loan

Section 3: The Interest in Advance Loan (cont).

3.3 How does the Interest in Advance Loan work?

The Interest in Advance Loan is a principal and interest loan with a term of up to 12 months. You will be required to pay back your Interest in Advance Loan in equal monthly instalments (comprising principal and interest) over the period beginning immediately after the Interest in Advance Loan is used to pay the interest in advance on your Capital Investment Loan (Interest in Advance Loan Start Date) until your Interest in Advance Loan matures on the Interest in Advance Loan Maturity Date.

You pay a fixed interest rate monthly in arrears and your interest payment will be debited from your Nominated Account on the last day of each month. If the last day of the month is not a Business Day, your interest payment will be debited from your Nominated Account on the next Business Day.

Your Loan Confirmation will contain information about your interest payments.

3.4 What is the Automatic Redraw Facility?

Provided that no Default Event has occurred, we will notify you at least 1 month prior to the Interest in Advance Loan Maturity Date that, upon repayment of the Interest in Advance Loan in full, we will automatically redraw an amount equal to up to 100% of the yearly interest on the Capital Investment Loan due and owing under the Capital Investment Loan for another Term commencing on the redraw date ("New Interest in Advance Loan").

The indicative interest rate on the New Interest in Advance Loan will be stated in the notice. The interest on the New Interest in Advance Loan must be paid monthly in arrears at a fixed rate.

The proceeds of the New Interest in Advance Loan will be used to prepay in advance the yearly interest on the Capital Investment Loan due and payable by you under the Capital Investment Loan for another Term commencing on the redraw date. Upon automatic redraw, we will send to you the details of your New Interest in Advance Loan in a Loan Confirmation (including the Interest Rate applicable to your New Interest in Advance Loan).

If you notify us at least 10 Business Days prior to the Interest in Advance Loan Maturity Date that you do not want us to make an automatic redraw, then we will not redraw any amounts and the yearly interest on the Capital Investment Loan will be direct debited to your Nominated Account.

3.6 How do I apply for the Interest in Advance Loan?

3.10 Are there any taxation implications?

You need to be aware that the interest you pay on the Interest in Advance Loan may not be allowable as a tax deduction. Your Loan Confirmation will contain information about your interest payments.

Upon automatic redraw, we will send to you the details of your New Interest in Advance Loan in a Loan Confirmation (including the Interest Rate applicable to your New Interest in Advance Loan).

Section 4: Tax Considerations

Commonwealth Bank does not provide taxation advice. Taxation law is complex and its application will depend on your circumstances.

Commonwealth Bank has obtained an opinion (the Tax Opinion) from Greenwood & Freehills Pty Limited, which discusses the indicative tax treatment for Capital Series investors, including the ATO's determinations on deferred purchase agreements. You should read the Tax Opinion carefully and seek independent taxation advice when determining whether an investment in Capital Series is suitable for you. You should also visit the ATO website www.ato.gov.au to view any changes to the tax law and the ATO's interpretation of the tax law. You should then consider the tax consequences and whether these make Capital Series suitable for you in light of any possible changes.

Part 2 of this PDS may also contain additional comments on the indicative tax treatment referable to a particular Capital Series in the event that it differs from the indicative tax treatment contained in the Tax Opinion.

Tax Opinion

The Directors
Commonwealth Bank of Australia
Ground Floor, Tower 1
201 Sussex Street
SYDNEY NSW 2000

23 August 2010

Dear Directors

Capital Series Australian taxation opinion

We have been instructed by the Commonwealth Bank of Australia (**Commonwealth Bank**) to prepare a taxation opinion for inclusion in Part 1 of a Product Disclosure Statement (**PDS**) to be dated on or about 23 August 2010, in relation to the issue of interests in the Capital Series investment product.

All references in this letter to legislative provisions are references to provisions of the *Income Tax Assessment Act 1936* or the *Income Tax Assessment Act 1997* (each the **Act**), as applicable. Capitalised terms not defined in this letter have the same meanings as in the PDS.

1 Scope

This letter provides an indicative analysis of the principal Australian income tax and goods and services tax (**GST**) implications arising for persons who invest in a Strategy or Strategies in Capital Series in accordance with the terms of the PDS.

Unless indicated otherwise, the comments in this letter apply generally to each Strategy within Capital Series that may be issued from time to time by Commonwealth Bank.

It is important that potential investors check the tax section in Part 2 of the PDS for any additional tax comments that may be applicable to their particular Strategy or Strategies in Capital Series.

This letter only examines the indicative tax position of investors (**Investors**) who:

- (a) are residents of Australia for tax purposes including individuals, companies and complying superannuation entities;
- (b) do not carry on the business of trading or dealing in securities;
- (c) are not subject to the regime for the taxation of financial arrangements (**TOFA regime**) – this would be expected to be the case for most potential Investors, but see further the discussion in section 6.6; and
- (d) hold their Capital Series investment on capital account for tax purposes. In this regard, the Commissioner of Taxation (**Commissioner**) expresses the view in Taxation Determination TD 2008/22 that, in relation to deferred purchase agreements (**DPA**s):

“While it is expected that a gain or loss on a DPA warrant as defined in this Determination would generally be on capital account, in some

cases the particular terms of the DPA warrant and/or the circumstances of the investor may mean that the gain or loss is on revenue account. A gain or loss will be on revenue account and assessable income under either section 6-5 or 15-15 of the ITAA 1997 or deductible under either section 8-1 or 25-40 of the ITAA 1997 where the transaction is entered into as an ordinary incident of carrying on a business or in a business operation or commercial transaction with a purpose of profit-making."

This opinion is based on Australian tax laws and practices applicable as at the date of this letter. Investors should be aware that such laws and practices may change during the term of Capital Series. Again, Investors should check the tax section in Part 2 of the PDS for any updated tax comments.

2 Tax treatment of coupons

Any coupons paid to Investors will be assessable in the income year in which they are received. Coupons are not frankable distributions and so no franking credits will be attached to them.

3 Tax treatment of gains arising from an investment in Capital Series

3.1 Introduction

Under Capital Series, an Investor agrees to purchase the Delivery Assets. On the Settlement Date, Commonwealth Bank will be required to deliver the Delivery Assets to the Investor, with the total number of Delivery Assets to be determined by the price performance (over the life of Capital Series) of the Underlying Portfolio relevant to the Strategy or Strategies selected by the Investor.

Having regard to the comments above as to the scope of this letter, i.e. it has been assumed that an Investor holds their investment in Capital Series and the Delivery Assets on capital account for tax purposes, any gains made by an Investor in relation to Capital Series and the Delivery Assets should be subject to taxation under the capital gains tax (CGT) rules of the Act.

3.2 Application of the Commissioner's views on DPAs to Capital Series

In TD 2008/22, the Commissioner expresses the contentious view that two taxing points for CGT purposes will arise in a typical DPA.

Commonwealth Bank anticipates that each Strategy to be issued in Capital Series will be structured as a DPA that will fall within the scope of TD 2008/22, and also TD 2008/21 referred to below. Should any particular Strategy be thought not to be within the scope of these Taxation Determinations, this will be noted in the tax section in Part 2 of the PDS for the relevant Strategy.

First taxing point – delivery of the Delivery Assets

Under the approach in TD 2008/22, a "CGT event" (known as CGT event C2) will happen when the Delivery Assets are delivered to an Investor in Capital Series on the Settlement Date, even if the Investor continues to hold the Delivery Assets beyond that date. In other words, under this approach, CGT will apply to an unrealised gain at the time of the delivery of the relevant Delivery Assets, on the basis that the Investor's contractual rights under the DPA are separate and distinct assets for tax purposes to the actual Delivery Assets.

Accordingly, a capital gain would arise on the Settlement Date equal to any excess of the then market value of the Delivery Assets over the Investor's CGT cost base upon entering into their relevant Strategy of Capital Series. The cost base will include the initial Investment Amount (plus any Initial Adviser Fee and any applicable brokerage costs and non-deductible professional advisory fees) paid by an Investor upon entry into Capital Series.

Tax Opinion (cont).

CGT discount concession applicable to the first taxing point

An Investor who is a natural person, a trust, or a complying superannuation entity may be entitled to the CGT discount concession on any capital gain arising at the first taxing point, i.e. on the delivery of the Delivery Assets (after first offsetting any capital losses). Individuals and trustees are entitled to a discount of 50%, while complying superannuation entities are entitled to a discount of 33.33% of the net gain. The Commissioner acknowledges in TD 2008/22 that the CGT discount concession may be available where the relevant conditions (see below) are met.

Investors should note that the CGT discount concession only applies to reduce capital gains made in relation to CGT assets (i.e. the Investor's rights under Capital Series) which are held for a continuous period of not less than 12 months. In relation to any gain arising upon the delivery of the Delivery Assets, the 12 month period should generally be met, as it will be measured from the inception of the Investment (i.e. upon entry into Capital Series) to the Settlement Date.

As a practical matter, where an Investor intends to retain their Delivery Assets beyond the Settlement Date, they will need to fund the tax liability in relation to any capital gain at the first taxing point from other sources, given that they will have no realised gain/cash from their Investment at that time.

Second taxing point – sale of the Delivery Assets

A separate/additional CGT gain or loss would arise when the Investor sells their Delivery Assets.

In accordance with TD 2008/22, the cost base and reduced cost base of the Delivery Assets in Capital Series should be an amount equal to their market value on the Settlement Date. Accordingly, no question of "double tax" in relation to the overall gain from an investment in Capital Series should arise. That is, any gain on disposal of the Delivery Assets would only reflect any increase in value of the Delivery Assets from the Settlement Date to the date of disposal.

In accordance with TD 2008/22, the Delivery Assets themselves would need to be held for at least 12 months (not including the Settlement Date and the date of disposal) in order to benefit from any available CGT discount concession as regards any capital gain upon their subsequent disposal. That is, for the purposes of the second taxing point, the 12 months will run from the Settlement Date and not from the inception of Capital Series.

Loss on disposal of the Delivery Assets

Any capital loss realised by an Investor upon the disposal of Delivery Assets (i.e. where the disposal proceeds are less than the market value of the Delivery Assets on the Settlement Date) may be applied to offset capital gains realised in the same year of income or may be carried forward to future years. Capital losses are not able to be applied against ordinary income.

Alternative analysis

As noted earlier, the Commissioner's view in TD 2008/22 to the effect that there are two taxing points for CGT purposes arising from a typical DPA, is contentious and has not been the subject of any consideration by a Court.

In the Compendium to TD 2008/22, the Commissioner explains why he rejected submissions (on the previous draft determination) that there should be only a single CGT taxing point, i.e. upon the actual sale of delivery assets under a DPA, and not also on the maturity date.

Investors should seek their own taxation advice if they wish to take a position contrary to that set out in TD 2008/22 (whether as set out in the Compendium or otherwise).

4 Distributions on Delivery Assets

4.1 Where Delivery Assets are shares in a company

After delivery of the Delivery Assets, an Investor may thereafter receive dividends.

An Investor's assessable income will include the amount of any dividends, as well as the amount of franking credits, if any, attached to the dividends. The Investor will generally be entitled to a tax offset (rebate) corresponding to the amount of the franking credits.

Where franking credits are attached to dividends paid on the shares comprising the Delivery Assets, to be eligible for the franking credit and tax offset, the Investor must generally have held the shares comprising the Delivery Assets "at risk" for a period of at least 45 days (not including the date of acquisition or the date of disposal). For these purposes an Investor is taken to acquire the shares comprising the Delivery Assets on Settlement Date, so that the period before the Settlement Date does not count towards the holding period.

In addition, Investors who are under an obligation to pass on to other persons the benefit of dividends paid on the shares comprising the Delivery Assets must, in order to be eligible for the franking credit and tax offset in respect of a particular dividend, have held the shares comprising the Delivery Assets "at risk" for a continuous period of at least 45 days during the period commencing 45 days before the "ex-dividend" date and ending 45 days after that date.

The above rules should not apply to an Investor if the Investor is an individual whose tax offset entitlement (on all shares and interests in shares held) does not exceed \$5,000 for the income year in which the franked dividend is paid. If an Investor enters into put or call options (or other derivatives) in relation to the shares comprising the Delivery Parcel, this may affect whether the shares are sufficiently held "at risk" for the purposes of the franking rules.

Although certain changes to the tax law have affected the applicability of the abovementioned rules, the previous Government indicated in a press release dated 27 September 2002 that it intended to amend the law to ensure that these rules continue to apply without substantive change. As at the date of this letter, no legislation has been enacted in this regard. The ATO has indicated that it will continue to apply the rules as a matter of administrative practice.

Where the Investor is an individual, a complying superannuation entity or a registered charity (in certain circumstances), the Investor will generally be entitled to a refund to the extent that the franking credits attached to the Investor's dividends exceed the Investor's tax liability for the income year.

Where the Investor is a company, any franked dividends the Investor receives will generally give rise to a franking credit in the Investor's franking account, with an offset available against the Investor's tax liability in respect of the dividends.

4.2 Where Delivery Assets are units in a trust

After delivery of the Delivery Assets, an Investor may thereafter receive distributions on their units in the relevant unit trust.

Distributions from unit trusts may contain amounts which are assessable income. Where the assessable income reflects amounts of franked dividends received by the responsible entity of the relevant trust, in very broad terms the comments in section 5.1 above will generally have similar application to Investors.

Distributions from unit trusts may also contain amounts which are not assessable income upon receipt, but which may reduce the Investor's CGT cost base of the relevant units.

Investors can generally expect to receive statements from the responsible entity of the relevant trust which will explain the tax implications of the distributions made by the trust.

5 Investors should seek their own advice before gearing an investment in Capital Series

This section does not apply to Investors who are complying superannuation entities. These entities will be subject to additional regulation regarding borrowing transactions and should seek appropriate advice in this regard.

Where an Investor borrows money for the purpose of funding an investment in Capital Series (whether via a Capital Investment Loan, Interest in Advance Loan or otherwise), they should seek their own advice as to whether interest expenses and any other borrowing costs will be deductible having regard to their own facts and circumstances.

Interest costs are generally deductible only where an Investor has a purpose of deriving assessable income from an investment acquired with borrowed funds, however there are a number of provisions in the Act that can operate to deny or defer a deduction for interest costs in various situations.

Investors should note that coupons payments or other items of assessable income may or may not be payable during the term of Capital Series – depending on the Strategy or Strategies they have selected.

Investors will need to consider, in conjunction with their own adviser, whether a deduction for some or all of any interest funding costs is available in their particular circumstances, and their particular Strategy or Strategies, having regard to any coupon payments and their intentions to hold their Delivery Assets after the Settlement Date so as to derive assessable dividend income or assessable trust distributions.

In considering whether interest funding costs are deductible in their situation, Investors and their advisers should have regard to tax rules in relation to prepayments (including the tax shelter rules) and capital protected borrowings.

Where interest costs are not deductible, they should generally be capable of inclusion in the cost base of the relevant CGT asset when calculating a gain (but not when calculating a loss).

6 Application of other income tax rules

The CGT implications of entering into Capital Series have been considered above. Our comments as to the applicability or otherwise of other provisions in the Act to an investment in Capital Series are as follows.

6.1 Traditional securities

Sections 26BB and 70B of the Act contain rules which, in broad terms, seek to recognise gains and losses upon the disposal in most instances of “traditional securities”, as effectively ordinary income and expense for tax purposes. That is, where such rules apply, any gains effectively would not be subject to the CGT rules, including discounting, and any losses would not be quarantined.

An investment in Capital Series should not be regarded as comprising a “traditional security”, and accordingly these rules should not apply to an Investor. This opinion accords with the view of the Commissioner in TD 2008/21 that a typical DPA will not be a “traditional security”.

6.2 Qualifying securities

Division 16E of Part III of the Act contains provisions that impose tax on an accruals basis on holders of certain debt-like securities in relation to income that is deferred under the security. For example, securities issued at a large discount to face value often bring those rules into operation; the discount is taxed to the holder over the term of the security so as to prevent the deferral of tax.

Division 16E applies only to a “qualifying security”, as that term is defined in the Act. In our opinion, an investment in Capital Series should not be regarded as comprising a “qualifying security” for this purpose, and accordingly we believe the Division should not

apply. This conclusion is supported by the approach taken by the Commissioner in TD 2008/21.

6.3 Foreign Investment Fund rules

The Foreign Investment Fund (FIF) regime has been repealed in respect of the 2010-11 and later income years. Accordingly, this regime will not apply to an investment in Capital Series.

6.4 The general anti-avoidance rule: Part IVA

The general anti-avoidance rule, contained in Part IVA of the Act, gives the Commissioner the power to issue a determination which, generally speaking, cancels a "tax benefit" obtained by a taxpayer in connection with a scheme entered into or carried out by a person where a party to the scheme has a sole or dominant purpose, objectively determined, of obtaining the tax benefit for the taxpayer. An example of a tax benefit is an amount that is not included in the assessable income of a taxpayer, which would have been, or could reasonably be expected to have been, included if the scheme did not take place.

Whether Part IVA is capable of applying to a given Investor in relation to their acquisition, ownership and disposal of an investment in Capital Series will depend to a significant extent on the particular circumstances surrounding the Investor. However, given that the terms of Capital Series are consistent with the DPA features set out in TD 2008/21 and TD 2008/22, in our view it is unlikely that Part IVA would have any application.

6.5 Investors on revenue account

If an Investor holds their investment on revenue account (rather than on capital account) for tax purposes, then the Australian taxation position of such an Investor will be different to that described in the foregoing analysis.

More specifically:

- any net profit realised through investing in Capital Series would be assessable as ordinary income (i.e. without the benefit of the CGT discount concession); and
- any net loss would be deductible (i.e. without having to be quarantined against capital gains).

6.6 The TOFA regime

Where the TOFA regime applies, it may impact upon the tax character and tax timing of gains and losses arising from certain financial arrangements.

By way of overview, the TOFA regime only applies to certain investors – and, even then, only in respect of certain DPAs.

The TOFA regime would not be expected to automatically apply to many Investors. This is because a number of exceptions may be available to retail investors. For example, the TOFA regime does not generally apply to investments in DPAs made by:

- individuals; and
- superannuation entities with assets of less than \$100 million.

However, even if an Investor would otherwise be excluded from the TOFA regime, they may elect for the TOFA regime to apply to their financial arrangements.

Where a DPA is acquired by an Investor who has elected into the TOFA regime, or who is not otherwise subject to a general exception from the TOFA regime, the issue then becomes whether their Capital Series investment is a financial arrangement to which the TOFA regime applies. The TOFA regime will not necessarily apply to all DPAs. In this regard:

Tax Opinion (cont).

**Greenwoods
& Freehills**

- changes contained in a bill (that has now lapsed with the calling of the recent Federal election) would, if reintroduced and enacted as currently drafted, ensure that the TOFA regime will apply to an investment in fully capital protected DPAs; and
- doubts remain about whether the TOFA regime will apply to an investment in DPAs that are not fully capital protected.

Investors who are subject to the TOFA regime, or who are considering electing into the TOFA regime, are advised to obtain independent tax advice as to its potential impact upon the taxation consequences discussed in this letter.

7 Pay-As-You-Go withholding obligations

Where an Investor accepts physical delivery of Delivery Assets on the Settlement Date, the Investor may receive dividends or trust distributions thereafter, depending on whether the Delivery Assets are shares in a company or units in a unit trust.

Investors may, if they choose, notify the relevant company or the responsible entity of the relevant unit trust of their tax file number (**TFN**), Australian business number (**ABN**) or a relevant exemption from the disclosure regulations. Unless an Investor provides a TFN, ABN or exemption details, tax will be automatically deducted by the relevant company or trust from the unfranked component of any dividends or assessable trust distributions, currently at the rate of 46.5%. Investors will be entitled to claim an income tax credit or refund (as applicable) in their income tax returns for any tax withheld by the company.

8 GST

Investors should not be liable to GST by reason of their acquisition, ownership and disposal of an investment in Capital Series and the Delivery Assets.

 - We charge interest on unpaid interest, fees and charges to your Nominated Account. We can do this at any time without informing you.
- (d) Interest on an Interest in Advance Loan:
 - (i) Begins to accrue from the date we first debit the IAL Loan Account
 - (ii) Must be paid monthly in arrears at a fixed rate and is calculated daily by applying the fixed interest rate to the outstanding balance of the IAL Loan Account at the end of that day and is charged to the IAL Loan Account monthly and on the day the IAL Loan Account is repaid in full and the account is closed. The interest charged to the IAL Loan Account is then debited from your Nominated Account on the last day of each month. If the last day of the month is not a Business Day, the interest will be debited from your Nominated Account on the next Business Day. We charge interest on unpaid interest, fees and charges to your Nominated Account. We can do this at any time without informing you.

Section 7: Terms and Conditions of the Loan (cont).

9. Where we agree that interest can be prepaid on the Capital Investment Loan

We may consent to your request to prepay interest on the Capital Investment Loan (for the avoidance of doubt, without using an Interest in Advance Loan). If we consent to your request, we will debit your Nominated Account with the interest we charge for the whole of that period on the date the period starts.

10. Default interest

You must pay us default interest on any amount you fail to pay on the due date in relation to the Loan.

Default interest:

- is charged at an interest rate equal to our monthly index rate for overdraft accounts plus a margin which we set from time to time and which reflects our reasonable costs incurred as a result of your failure to pay;
- is calculated daily on the overdue amount from the due date of payment of the amount until the amount is paid, is debited to your Nominated Account monthly (and on the date the Loan Account is repaid in full and the account is closed) and is due for payment on the date it is debited to your Nominated Account.

11. No deduction or withholding

All monies payable by you shall be paid in full without set-off or counter-claim of any kind and free and clear of and without any deduction or withholding of any kind.

12. Repayment

- (a) Subject to clause 13 of the Loan Agreement, you must repay or arrange repayment of the Capital Investment Loan and all other Money Owing under the Capital Investment Loan to us in one amount on the Capital Investment Loan Maturity Date;
- (b) Subject to clause 13 of the Loan Agreement, you must repay or arrange repayment of the Interest in Advance Loan and all other Money Owing under the Interest in Advance Loan by the Interest in Advance Loan Maturity Date.
- (c) You must, at least ten (10) Business Days prior to the Capital Investment Loan Maturity Date and no later than the date specified in the Loan Confirmation, by irrevocable notice in writing to us, inform us that:
 - (i) you will repay the Capital Investment Loan, all other Money Owing under the Capital Investment Loan and all Money Owing under the Interest in Advance Loan on the Capital Investment Loan Maturity Date with your own capital or with other borrowed funds; or
 - (ii) you will repay the Capital Investment Loan, all other Money Owing under the Capital Investment Loan and all Money Owing under the Interest in Advance Loan on the Capital Investment Loan Maturity Date with the Sale Proceeds and authorise us to apply the Sale Proceeds in repayment of the Capital Investment Loan, all other Money Owing under the Capital Investment Loan and all Money Owing under the Interest in Advance Loan in accordance with clause 20 of the Loan Agreement.

If you do not provide a notice to us under this clause 12(c), you will be taken to have elected to use the Delivery Asset Sale Service under the Terms of Sale and to have authorised us to apply the Sale Proceeds to repay the Capital Investment Loan, all other Money Owing under the Capital Investment Loan and all Money Owing under the Interest in Advance Loan in accordance with clause 20 of the Loan Agreement.

- (d) If we are authorised or taken to be authorised to apply the Sale Proceeds under clause 12(c) of the Loan Agreement, you irrevocably authorise us to apply the Sale Proceeds in repayment of the Capital Investment Loan, all other Money Owing under the Capital Investment Loan and all Money Owing under the Interest in Advance Loan in accordance with clause 12(c) and in addition to draw under any periodical debit or payment authority to ensure that, on the Capital Investment Loan Maturity Date, we receive the full loan principal and any interest owing under the Capital Investment Loan and the Interest in Advance Loan and all other costs, charges and expenses for which we are entitled to reimbursement under the Terms and Conditions.

13. Prepayment and Termination

- (a) You may prepay the Loan provided you give us not less than 5 Business Days notice.
- (b) If you provide a notice under paragraph (a), you must prepay the Loan in full. Partial prepayment of the Loan is not permitted.
- (c) If you prepay the Capital Investment Loan, you agree to prepay the Interest in Advance Loan and all Money Owing under the Capital Investment Loan and the Interest in Advance Loan on the date of repayment of the Capital Investment Loan.
- (d) You must prepay the Capital Investment Loan, all other Money Owing under the Capital Investment Loan and all Money Owing under the Interest in Advance Loan if your investment in the Product is terminated early under the Terms of Sale. Notwithstanding clause 12(c) of the Loan Agreement and irrespective of the date of the Interest in Advance Loan Maturity Date, you agree that we may apply the Sale Proceeds in repayment of the Capital Investment Loan and the Interest in Advance Loan and all other Money Owing in accordance with clauses 12(d) and 20 of the Loan Agreement, unless, subject to clause 3.9 of the Terms of Sale, you inform us in writing that you will be repaying the Capital Investment Loan and the Interest in Advance Loan with your own capital or with other borrowed funds.
- (e) If you prepay the Loan pursuant to paragraph (a) or (d), you must pay any interest, fees, Break Costs and other costs losses or damages which we may incur as a result of the Loan being repaid before the Capital Investment Loan Maturity Date or Interest in Advance Loan Maturity Date, together with any other moneys then accrued under this Loan Agreement to the date of prepayment (whether or not payable).
- (f) On or before the date of any optional prepayment pursuant to paragraph (a) or any mandatory prepayment pursuant to paragraph (d), you must pay to us the Prepayment Fee.
- (g) Amounts prepaid may not be re-borrowed under this Loan Agreement.
- (h) If there occurs any change in law or interpretation which makes it unlawful for us to give effect to the Loan Agreement, we may, in our absolute discretion, exercised with due care and skill, terminate the Loan upon giving you thirty (30) days prior written notice to you.

14. Automatic Redraw Facility

- (a) Provided that no Default Event has occurred, we will notify you at least 1 month prior to the Interest in Advance Loan Maturity Date that, upon your repayment of the principal outstanding and accrued interest in respect of the Interest in Advance Loan in full, we will automatically redraw, in respect of an Interest in Advance Loan, an amount equal to 100% of the yearly interest on the Capital Investment Loan due and owing under the Capital Investment Loan for another Term commencing on the redraw date ("New Interest in Advance Loan").
- (b) You irrevocably authorise, instruct and direct us, upon any redraw, in respect of the New Interest in Advance Loan, to apply the proceeds of the redraw in prepayment of the yearly interest on the Capital Investment Loan in advance due and owing by you under the Capital Investment Loan for another Term commencing on the redraw date.
- (c) The indicative interest rate on the New Interest in Advance Loan will be stated in the notice provided to you under paragraph (a).
- (d) The interest on the New Interest in Advance Loan must be paid in accordance with clause 8(d) of the Loan Agreement.
- (e) Upon automatic redraw in accordance with paragraphs (a) and (b) above, we will advise particulars of your New Interest in Advance Loan in a Loan Confirmation (including the Interest Rate applicable to your New Interest in Advance Loan)
- (f) If you notify us at least 10 Business Days prior to the Interest in Advance Loan Maturity Date that you do not want us to make an automatic redraw in accordance with this clause 14, then we will not redraw any amounts and the yearly interest on the Capital Investment Loan must be paid by you in full in accordance with clause 8 of the Loan Agreement.

Section 7: Terms and Conditions of the Loan (cont).

 - a judgment of any court or any order of an authority is executed against any or all of your assets;
 - you fail to immediately comply with any direction by us to you;
 - you, without our prior written consent, create or purport or attempt to create any Security Interest over all or part of your rights in respect of the Product in favour of any person;
 - in our opinion a Materially Adverse Change occurs in respect to you or any Guarantor;
 - you, or the Guarantor make any representation or warranty to us in relation to the Terms and Conditions that, in our reasonable opinion, is misleading or incorrect in any material respect when made (whether the lack of correctness is apparent at the time or becomes apparent subsequently);
 - you or a signatory becomes a Proscribed Person; or

 - (ii) if we make a declaration under clause 15(b)(i) of the Loan Agreement, you will be in breach of the Terms of Sale and your investment in the Product will be terminated in accordance with the terms of the Terms of Sale. You agree that we may apply any amounts that you are entitled to under the Terms of Sale as a consequence of your investment in the Product being terminated against any amounts which you owe to us under or in connection with the Loan, in accordance with clause 20 of the Loan Agreement.
- (c) We may exercise our right to make the declaration referred to in clause 15(b)(i) of the Loan Agreement despite any delay in our exercising the right or our having waived the right previously.
- (d) In addition to any other amount you must pay, after we make a declaration under clause 15(b)(i) of the Loan Agreement and on our demand, you must pay our estimate of the loss we will incur due to the Loan not being conducted for the whole of the then current period for which the Interest Rate is fixed (if any).

16. Refusal of service

- (a) Further to any right in clause 15(a), if you or an individual signatory appears to be a Proscribed Person, then we may, acting reasonably, immediately refuse to process or complete any transaction or dealing of yours; suspend the provision of a product or service to you; refuse to allow or to facilitate any of your assets held by us to be used or dealt with; refuse to make any asset available to you to any other proscribed person or entity; or terminate these arrangements with you. Provided we act in good faith and in compliance, or purported compliance, with any legal requirement in relation to a Proscribed Person, we will be under no liability to you if we do any or all of these things. Our rights under this clause are in addition to all other rights we may have.
- (b) If we exercise our rights under this clause you must pay us any damages, losses, costs or expenses that we reasonably incur in relation to any action taken under this clause, including without limitation our refusal of service under this clause, administrative costs and/or costs of sale or purchase of any transaction or deal put in place for the purposes of meeting our obligations under these Terms and Conditions.

17. Fees and Charges

- (a) You must pay us:
- our fees and charges (as varied from time to time), including any establishment fee, as soon as they are due and payable, whether or not you draw on the Loan Account. We set out particulars of the fees and charges you must pay, and the purpose of the fees and charges, in the schedule of fees and charges to the Terms and Conditions. On your request, we will supply you with a copy of our current fees and charges for the Loan.
 - government stamp duty and any other government tax or duty payable in relation to the Terms and Conditions, or any Guarantee provided to us or any transaction on the Loan Account.

- (b) We may debit the Loan Account with all unpaid fees and charges you must pay us under the Terms and Conditions. Any amounts we receive from you for crediting to the Loan Account are applied to pay unpaid fees and charges on the Loan Account first.

18. Disclaimers

- (b) In so far that they act on our behalf and not as your broker or financial advisor, our officers and agents do not have our authority to recommend an investment in the Product, make any predictions about what might happen to Interest Rates or the value of your investment in the Product or to make any other representation, prediction or statement of opinion about any other matter or thing affecting the Terms and Conditions.

19. Indemnity

- (a) You agree to indemnify us in an amount reasonably determined by us from and against all actions, suits, claims, demands, losses, liabilities, damages, costs and expenses which may be made or brought against or suffered or incurred by us arising out of or in connection with:
- any Default Event;
 - the exercise or non-exercise of any right, power or remedy contained, referred to or implied in the Terms and Conditions;

- increases the cost to us of providing, funding or maintaining the Loan Account; or
 - reduces any amount received or receivable by us, or its effective return, in connection with the Loan Account; or
 - reduces our return on capital allocated to the Loan Account, or its overall return on capital.

Section 7: Terms and Conditions of the Loan (cont).

20. Set off

You authorise us (but without imposing any obligation on us) to apply:

- (a) any credit balance, whether or not matured, in any of your accounts (each an "Account") with any branch of ours; and
