

MACQUARIE FLEXI 100 TRUST
PRODUCT INFORMATION
JUNE 2012

MACQUARIE

Flexibility. Choice. Control.

The Macquarie Flexi 100 Trust (Flexi 100) is a capital protected, leveraged investment offering indirect exposure to a range of potential growth investments. While Flexi 100 is designed to be held until maturity, the 'Walk-Away' feature allows investors to leave the investment early with no additional costs, irrespective of market movements (except where an Interest Loan is taken out).¹

Potential benefits

- Exposure to Australian, Asian and US market investments
- Exposure to the Macquarie Asian Alpha Fund and a Best-of Basket
- Capital protected throughout the investment term
- Fixed Distributions over the investment term²
- Access to a 100 per cent borrowing facility with no margin calls
- An eligible investment for Self Managed Super Funds (SMSFs³).

Please see overleaf for key risks.

Walk-Away feature

The 'Walk-Away' feature provides investors with the flexibility to withdraw on a quarterly basis without paying any further costs such as investment shortfalls and loan break costs (except where an Interest Loan is taken out).¹

This feature ensures that the investment is liquid and investors are not locked in for the entire term.

Loan options

To invest in Flexi 100, investors need to apply for a 100 per cent Limited Recourse Investment Loan from Macquarie Specialist Investments Lending Limited.

This Loan provides 100 per cent gearing, allowing investors to benefit from a low initial capital outlay and no margin calls. Investors must prepay their interest annually in advance. In addition, to help manage cashflow, Investors can also apply for an optional Interest Loan to fund their annual in advance interest pre-payment. Interest Loans are full recourse and are not available to SMSF investors.

Interest rates

Investment Loan: The indicative Investment Loan interest rates for the year ending 29 June 2013 is 7.95% pa. Once set, this rate will not increase throughout the term.

Interest Loan: The indicative interest rate for the optional Interest Loan for the year ending 29 June 2013 is 10.95% pa.

Product Ruling

The Australian Taxation Office has issued a Product Ruling covering the investment opportunities offered in the Product Disclosure Statement (PR 2011/19). An addendum to the Product Ruling will be sought for the additional investment opportunity on offer in the Supplementary Product Disclosure Statement. If an addendum is issued, details will be available on our website macquarie.com.au/flexi.

The Product Ruling addresses certain tax consequences for investors using the Limited Recourse Investment Loan to invest in Flexi 100.⁴

Specifically, for investors who meet the requirements outlined in the Product Ruling:

- Interest on the Limited Recourse Investment Loan (up to the applicable benchmark interest rate in the capital protected borrowing rules) is deductible
- Interest on the Interest Loan (if applicable) should be fully deductible, as the capital protected borrowing rules do not apply to the Interest Loan.

Investors should refer to the Product Ruling on our website for more information and seek their own tax advice on the application of the Product Ruling to their own specific circumstances.

How to apply

Step 1

Download and read the Flexi 100 Supplementary Product Disclosure Statement, Product Disclosure Statement (PDS) and Offer Document from the website macquarie.com.au/flexi.

Step 2

Complete the Application Form and any required accompanying documents which are referred to in the Application Form and in Section 7 of Part II of the PDS.

Step 3

Submit the completed Application Form and the additional required documents before 3.00pm (Sydney time) on Friday 29 June 2012.

¹ Prepaid interest on an Investment Loan will not be refunded. Investors will be required to pay any amount owing on their Interest Loan (if applicable).

² Fixed Distributions will be less than interest payments.

³ Trustees of superannuation funds who propose to invest in Flexi 100 should be aware of their obligation to formulate and implement an appropriate investment strategy that has regard to the whole of the circumstances of their fund and to act in the best interests of the members of the fund.

⁴ Product Ruling PR 2011/19 is only ruling on the application of taxation laws and in no way expresses or implies a guarantee or endorsement of the commercial viability of the Macquarie Flexi 100 Trust, of the soundness or otherwise of the Macquarie Flexi 100 Trust as an investment, or of the reasonableness or commerciality of any fees charged in connection with the Macquarie Flexi 100 Trust. The Product Ruling is only binding on the Commissioner of Taxation if the investments in the Macquarie Flexi 100 Trust are implemented in the specific manner provided in the Product Ruling.

Investment choices

Designed to meet investors' needs in the current market, this offer of Flexi 100 features a range of investment opportunities.

Description of underlying exposure

Australian Equity	<ul style="list-style-type: none"> ■ S&P/ASX 200 Index, 200 leading companies by market capitalisation listed on the ASX. ■ Also available with the benefit of No Hurdle.
US Equity	<ul style="list-style-type: none"> ■ S&P 500 Index, 500 leading companies by market capitalisation listed on either the New York Stock Exchange or NASDAQ.
Australian Equity Focus	<ul style="list-style-type: none"> ■ A fixed basket of 20 equally-weighted shares with large market capitalisation listed on the ASX. ■ Also available with the benefit of No Hurdle.
Asian Equity	<ul style="list-style-type: none"> ■ An equally weighted basket of indices and index tracking funds with exposure to China, Hong Kong, Taiwan, Korea and Singapore.
Asian Alpha	<ul style="list-style-type: none"> ■ The Macquarie Asia Alpha Fund won Hedge Fund of the Year 2011 in the Asia Risk Awards. The fund implements a quantitative long short strategy in pan-Asian equity markets.
Best-of Basket	<ul style="list-style-type: none"> ■ This strategy delivers upside exposure to the best performing of two baskets: an ASX Tilt basket and a PIMCO Tilt basket.

Investment categories

Fixed Distribution Classes - 5.5 year term

At Maturity, investors are entitled to any gain on the Reference Asset above the Hurdle (if applicable), subject to the Term Performance Cap (if any). A Hurdle of 116.5 per cent applies for Classes BF and BH. The total amount paid to investors in fixed Distributions throughout the term is equal to 16.5 per cent of their Investment Amount.

Unit Class	Investment Opportunity	Reference Asset	Indicative Term Performance Cap ⁵	Participation Rate	Gain Currency ⁶	Distribution Rate
Class BF	Australian Equity	S&P/ASX 200	Uncapped	100%	AUD	For all unit classes: Years 1-5: 3.0% Year 5.5: 1.5%
Class BG	Australian Equity (No Hurdle)	S&P/ASX 200	50%	100%	AUD	
Class BH	US Equity	S&P 500	Uncapped	100%	USD	

Fixed Distribution Class - 3.5 year term

At Maturity, investors are entitled to any gain on the Reference Asset above the Hurdle (if applicable), subject to the Share Performance Cap. A Hurdle of 112.5 per cent applies for Classes BI, BK, BL and BM. The total amount paid to investors in fixed Distributions throughout the term is equal to 12.5 per cent of their Investment Amount.

Unit Class	Investment Opportunity	Reference Asset	Indicative Term/Share Performance Cap ⁵	Participation Rate	Gain Currency ⁶	Distribution Rate
Class BI	Australian Equity Focus	Australian Equity Focus Basket	65% ⁷	140%	AUD	For all unit classes:
Class BJ	Australian Equity Focus (No Hurdle)	Australian Equity Focus Basket	30% ⁷	115%	AUD	
Class BK	Asian Equity	A basket of indices and index tracking funds	65%	100%	USD	Years 1-2: 5.0%
Class BL	Asian Alpha	Macquarie Asian Alpha Fund	Uncapped	100%	USD	Year 3: 2.5%
Class BM	Best-of Basket	Best-of Basket	Uncapped	100%	AUD	

⁵ Actual Term and Share Performance Caps will be determined on or before the Swap Start Date. See Section 3.2 (for Fixed Distribution Classes) of Part I of the PDS for more information.

⁶ The Reference Asset Gain will be determined in this currency, and if it is in USD, then this will be converted to AUD at the time of payment.

⁷ The Share Performance Cap applies to the individual performance of each constituent share of the Reference Asset in the Australian Equity Focus Class and Australian Equity Focus (No Hurdle) Class, and not the performance of the Reference Asset itself. See section 3.2 of Part I of the PDS for more information.

Worked examples

Example 1: Market increase

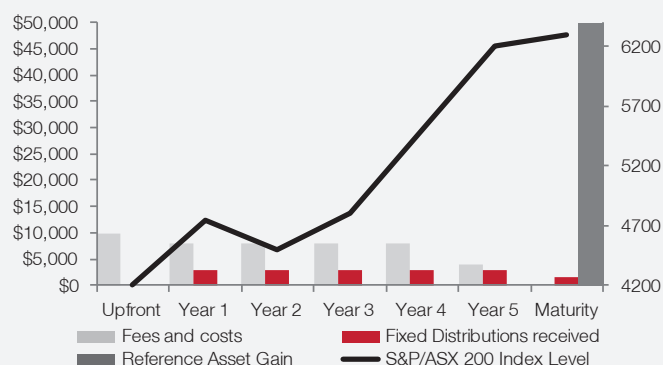

An investor invests in a Fixed Distribution (5.5 Year) Australian Equity (No Hurdle) Class and holds the investment to Maturity.

Assumptions

- Investor borrows \$100,000 to invest
- Interest rate is 7.95% pa
- Fixed Hurdle of 100%
- Fixed Term Performance Cap of 50%⁸
- S&P/ASX 200 Initial Investment Level of 4,200
- S&P/ASX 200 Hurdle level of 4,200 (100% x 4,200)
- S&P/ASX 200 Closing Level of 6,400
- S&P/ASX 200 Final Investment Level is the lesser of:
 - S&P/ASX 200 Closing Level of 6,400
 - S&P/ASX 200 capped level of 6,300 (4,200 + 4,200 x 50%)
- Therefore the Final Investment Level is equal to the capped level of 6,300

Potential returns

Total Distributions received over the term	\$16,500	$\$100,000 \times (3\% \times 5 + 1.5\%)$
Reference Asset Gain at Maturity	\$50,000	$\left(\frac{6,300 - 4,200}{4,200} \right) \times \$100,000$
Total received over the term of the investment	\$66,500	Total Distributions over the term and Reference Asset Gain paid at Maturity
Total costs over the term (Loan Establishment Fee plus annual interest payments)	(\$45,725)	$\$2,000 + (\$7,950 \times 5.5)$
Net Return over the term of the investment	\$20,775	Total received less total costs

Example 2: Market decrease

An investor invests in a Fixed Distribution (5.5 Year) Australian Equity (No Hurdle) Class and holds the investment to Maturity.

Assumptions

- Investor borrows \$100,000 to invest
- Interest rate is 7.95% pa
- Fixed Hurdle of 100%
- Fixed Term Performance Cap is 50%⁸
- S&P/ASX 200 Initial Investment Level of 4,200
- S&P/ASX 200 Hurdle level of 4,200 (100% x 4,200)
- S&P/ASX 200 Closing Level of 3,900
- S&P/ASX 200 Final Investment Level is the lesser of:
 - S&P/ASX 200 Closing Level of 3,900
 - S&P/ASX 200 capped level of 6,300 (4,200 + 4,200 x 50%)
- Therefore the Final Investment Level is 3,900

Potential returns

Total Distributions received over the term	\$16,500	$\$100,000 \times (3\% \times 5 + 1.5\%)$
Reference Asset Gain at Maturity	\$0	Closing Level of the S&P/ASX 200 is below Hurdle level. Therefore no gain at Maturity
Total received over the term of the investment	\$16,500	Total distributions paid over the term and Reference Asset Gain paid at Maturity
Total costs over the term (Loan Establishment Fee plus annual interest payments)	(\$45,725)	$\$2,000 + (\$7,950 \times 5.5)$
Net Return over the term of the investment	(\$29,225)	Total received less total costs

These examples are provided for illustrative purposes only, and are not intended to be indicative of the performance of any class of Flexi 100.

⁸ The actual Term Performance Caps will be determined as at the Swap Start Date and published at macquarie.com.au/flexi and could be lower than the indicative Performance Cap depending on market conditions at the time, in particular the level and volatility of the Reference Asset.

Risks

As with most investments, there are some key risks which investors should be aware of including:

- **Poor performance risk:** your investment in Flexi 100 will be adversely affected if the Reference Asset performs poorly. The current global economic downturn and high levels of volatility in equity and other markets increase the risk that the relevant Reference Asset will not perform well enough for you to make a gain on your investment
- **Borrowing to invest:** there is a material risk that if, at Maturity, the total value of returns is less than the total interest payments and other costs, then the Investor will have incurred a loss on their investment
- **Creditworthiness of the Counterparties:** the risk that the Counterparties which provide Flexi 100 with exposure to Reference Assets do not meet their obligations
- **Foreign Exchange risk:** for the US Equity, Asian Equity and Asian Alpha Classes there is a risk that AUD:USD foreign exchange rate movements may negatively affect returns from the Units during the investment term
- **Early termination risk:** your exposure to the Reference Asset may be terminated early in a number of circumstances outlined in the PDS. In such circumstances, the Swap Counterparty may seek to terminate the Swap Agreement early. If this occurs investors will be required to repay the Investment Loan and any Interest Loan (with any break costs), investors' units will be redeemed, investors will no longer have exposure to the Reference Asset or an entitlement to any further Distributions and investors will not receive a refund of any prepaid interest
- **Interest deductibility:** the Australian Tax Office may adopt a position leading to the denial of part or all of your tax deductions for some or all of your interest expenses in relation to your investment.

An investor's investment may be subject to any additional risks that arise. Accordingly, before an investor invests they should carefully consider the risks outlined in the Risks Section of the PDS and consult their financial adviser.

At a glance

Offer opens	10 April 2012
Offer closes	3:00pm (Sydney time) 29 June 2012
Unit Issue Date	30 June 2012
Type of investment	A flexible, capital protected investment with 100 per cent leveraged exposure to potential growth markets
