Alpha RESULTS Series 6

Introducing a better way to access the share market with the potential to achieve enhanced returns¹ with predictable results. Helping you achieve your investment goals sooner.

Alpha RESULTS: Income, Growth, or a Blend of both

Alpha RESULTS is a unique investment with a convenient term of 18 months with daily liquidity, providing exposure to a range of “blue chip” shares and with enhanced income, enhanced growth potential, and conditional capital protection².

Alpha RESULTS makes accessing the share market easier, in three easy steps:

- Step One:** choose from a range of blue chip investment portfolios³ (more will be coming soon) to tailor make your desired investment portfolio:

Diversified Q	Diversified R
BHP	NCM
ANZ	MQG
QBE	RIO
WES	TOL
WDC	SUN

- Step Two:** select the level of income, growth and protection that you desire. You can invest in your chosen investment portfolio³ with a blend of enhanced income, potential for growth, and conditional capital protection². Or you can select just to receive enhanced income with conditional capital protection²; or just to receive the potential for enhanced growth and conditional capital protection²:

Alpha RESULTS Income Strategy, with high levels of enhanced income of up to 16.75% pa (paid monthly, irrespective of the performance of the shares in the investment portfolio), and with conditional capital protection².

Alpha RESULTS Growth Strategy, with the prospect of preset minimum growth of up to 20.00% pa plus any upside and conditional capital protection².

Alpha RESULTS Blend, you can combine any of the above strategies to suit your investment preferences.

- Step Three:** at maturity you have the flexibility of rolling over your investment into the next series of Alpha RESULTS (if available, you will receive notice prior to

the maturity of your investment), taking a cash payment, or receiving delivery of BHP shares to the value of your Alpha RESULTS investment³.

Enhanced income, growth and conditional capital protection² – a better way to access the share market

Instead of buying shares the traditional way, many investors and advisers are looking for better results for their investment portfolios³. Investors like the comfort of partial protection, the potential for enhanced income and/or enhanced growth, to help overcome continuing share market volatility at the same time as giving exposure to a quality investment portfolio³.

Alpha RESULTS provides advisers and investors with a simple and effective way to achieve these benefits:

- Choose from up to two baskets of listed assets (more available on request).
- Choose to receive a blend of enhanced income payable monthly irrespective of the performance of those shares, plus the potential for growth and conditional capital protection².
- Or – choose to receive only enhanced income payable irrespective of the performance of those shares plus conditional capital protection².

- Or – choose to receive only the potential for enhanced growth plus conditional capital protection².
- At maturity, you receive 100% of the value of your original investment plus any growth entitlement, unless one or more shares in the selected underlying investment portfolio³ has fallen to less than 60% of its initial share price.
