Offer of Tatts Bonds

Tatts is pleased to offer you the opportunity to invest in Tatts Bonds, new seven-year senior and unsecured debt securities which are being issued by Tatts and are to be listed on ASX. Tatts Bonds are different to ordinary shares in Tatts, and Tatts intends to raise approximately \$200 million by issuing Tatts Bonds (although the actual proceeds may be more or less than this amount).

Key risks

You should read Section 3 'Key Risks of Tatts Bonds' in full before deciding to invest.

Key risks associated with Tatts Bonds outlined in that section include:

- The market price of Tatts Bonds may fluctuate up or down due to various factors including many factors relating to markets generally (and is accordingly beyond the control of Tatts). Tatts Bonds may trade below, at or above their Face Value. Holders who sell Tatts Bonds at a market price below the amount paid to acquire those Tatts Bonds will lose some of their money invested in Tatts Bonds. Section 3.1
Section 3.1(a)
- The Interest Rate is a floating rate, equal to the sum of the Bank Bill Rate plus the fixed Margin. The Bank Bill Rate will fluctuate and therefore the Interest Rate will fluctuate. Over the term of the Tatts Bonds, the Interest Rate may be lower or higher than the initial Interest Rate on the Issue Date. Sections 1.3 and 3.1(b)
- The market for Tatts Bonds may not be liquid. If liquidity is low, Holders may be unable to sell their Tatts Bonds at an acceptable price, or at all, and there is a risk that the market price will become more volatile in general. Section 3.1(c)
- Tatts may default on payment of Face Value or Interest in which case Holders may not receive some or all of the money that they invested in Tatts Bonds or Interest that is due to be paid to them. Sections 3.1(d) and 4.6
- Holders of Tatts Bonds are unsecured creditors, which means the claims of Holders will rank after the claims of secured creditors and creditors preferred by law. Further, Tatts may grant security over its assets in favour of certain forms of existing or future debt that would rank ahead of Tatts Bonds on a winding up, which may affect the ability of Holders to be repaid on a winding up of Tatts. Section 3.1(e) and Clause 4 of the Terms
- Tatts may issue further securities including further Tatts Bonds or bonds on similar terms to Tatts Bonds which rank equally with Tatts Bonds. The issue of further securities by Tatts or other Tatts Group entities may have the effect of reducing the amount that Holders would receive on a winding up and may have an adverse effect on the market price or liquidity of Tatts Bonds, although this is difficult to anticipate. Section 3.1(f) and Clause 9.4 of the Terms
- Holders may only request that their Tatts Bonds be Redeemed early in limited circumstances and Tatts may only Redeem Tatts Bonds if a Tax Event or Clean Up Event occurs. Sections 1.4, 3.1(g) and 3.1(h) and Clause 3 of the Terms
- Generally, only the Trustee is able to take action directly against Tatts. Section 3.1(i)

Key risks associated with Tatts' business outlined in that section include:

- Tatts' business operates predominantly in the gambling industry. A number of the key risks associated with Tatts' business relate to the regulated nature of that industry, including the need to hold various licences, approvals and authorisations, changes in the terms of, or the expiry or loss of exclusivity in relation to, those licences, approvals and authorisations, and changes in regulations. These important risks are dealt with in more detail in Section 3.2 generally. Section 3.2
Section 3.2 generally
- Tatts may be adversely affected by increased competition from new products and new competitors in the markets in which Tatts Group's various businesses operate, as well as from other forms of consumer discretionary spending. If Tatts does not adequately respond to an increase in competition, it may result in a material failure to grow, or loss of, market share or revenue. Section 3.2(d)
- Tatts relies on a range of information technology systems. A failure in one or more of those systems could result in a material interruption in the conduct of its business. Section 3.2(f)

Rationale for Guarantee	<p>Material Subsidiaries of Tatts have given guarantees to lenders under Tatts' other existing senior unsecured debt arrangements. The Tatts Bonds are guaranteed in order to ensure that Holders enjoy the benefit of a guarantee similar to those guarantees.</p>	Sections 1.7 and 2.3(d)
Guarantee	<p>The Tatts Bonds are guaranteed on a joint and several basis by the Guarantors subject to and in accordance with the Trust Deed.</p> <p>Under the Guarantee, the Guarantors guarantee (on a senior and unsecured basis) the payment of any amounts which become due and payable on Tatts Bonds. This includes any Interest not paid by Tatts and the amount of \$100 per Tatts Bond payable on a Maturity Date or Redemption Date.</p>	Section 4.6
Guarantors	<p>The Guarantors are wholly-owned Subsidiaries of Tatts and must comprise each member of the Tatts Group which has an outstanding guarantee with respect to Tatts' syndicated multi-currency revolving facility agreement or equivalent agreement (refer to Section 2.3(d) for details).</p> <p>Further, under the Tatts syndicated multi-currency revolving facility agreement, Tatts must ensure that any of its wholly-owned Subsidiaries that are responsible for at least 10% of Tatts' consolidated EBITDA are guarantors under that agreement and that those guarantors must collectively account for not less than 85% of Tatts' consolidated EBITDA. Accordingly, the members of the Tatts Group that comprise the Guarantor group may change prior to the maturity of the Tatts Bonds. In respect of the half-year ended 31 December 2011, the Guarantors collectively accounted for 95.4% of Tatts' consolidated EBITDA.</p>	Section 4.6
Ranking of claims under Guarantee	<p>Claims under the Guarantee are senior and unsecured obligations of each Guarantor. Claims under the Guarantee rank at least equally with all other senior unsecured obligations of the Guarantors and will not be subordinated to any other unsecured obligation of the Guarantors (other than those mandatorily preferred by law).</p> <p>In certain circumstances, a Guarantor may incur obligations that rank ahead of claims under the Guarantee. In particular, a Guarantor could create a security with respect to certain types of indebtedness or could otherwise create a Permitted Security Interest in the circumstances described in the sub-section outlining the 'negative pledge' below.</p>	Section 4.6
Rationale for negative pledge	<p>Holders have the benefit of a negative pledge in order to ensure that Holders will always have the benefit of the same or similar security as any other holders of key debt capital market instruments issued by Tatts.</p> <p>The negative pledge does not restrict Tatts from granting security in relation to bank debt.</p>	Clause 4.2 of the Terms
Details of the negative pledge	<p>The negative pledge provides that Tatts will ensure that members of the Tatts Group will only grant security over their assets for key debt capital market instruments (being indebtedness in the form of bonds, notes, debentures, loan stock or other securities which are, or are intended to be, quoted, listed or traded on any stock exchange, over-the-counter or other established securities market) if Tatts Bonds are secured on an equal basis. Alternatively, Tatts Bonds may be provided with another form of security that is not materially less beneficial to the Holders of Tatts Bonds.</p> <p>The negative pledge does not apply in respect of debt other than key debt capital market instruments. For this reason, the negative pledge does not restrict Tatts from granting security in relation to bank debt.</p>	Clause 4.2 of the Terms

Exceptions to the negative pledge	<p>There are a number of exceptions to the negative pledge, including in relation to such matters as:</p> <ul style="list-style-type: none">• the grant of any security securing indebtedness which in aggregate does not exceed 10% of Tatts Group's Total Assets;• the grant of any security over an asset created to secure the repayment of indebtedness for the purpose of acquiring or developing that asset where the rights of the holder of the security are limited to the asset the subject of the security (it being the intention that the holder of the security does not have recourse to Tatts or the Guarantors personally or any other property of Tatts or the Guarantors); and• any lien that arises by operation of law or in the ordinary course of trading. <p>If Tatts creates security over its assets, in the event of a winding up of Tatts or a Guarantor (as the case may be), Holders would be entitled to receive a repayment of the Face Value and any accrued but unpaid Interest on Tatts Bonds only after such secured creditors (and any claims mandatorily preferred by law) are paid in full.</p>	Section 3.1(e) and Clause 4.2 of the Terms
Existing security	As at the date of this Prospectus, none of Tatts' existing financiers have the benefit of any security granted by Tatts Group.	Section 1.7
1.6 Event of Default		
Event of Default	<p>Each of the following is an event of default in relation to Tatts Bonds:</p> <ul style="list-style-type: none">• Tatts or a Guarantor fails to pay within 10 Business Days after the due date any amount payable by it under any Tatts Bond;• Tatts or a Guarantor fails to comply with any of its other obligations under the Trust Deed and such failure remains unremedied for a period of 30 Business Days after Tatts has received written notice from the Trustee in respect of the failure;• any Financial Indebtedness of any member of the Tatts Group becomes payable or repayable prior to its stated maturity due to the occurrence of a default event (however described) or had not been paid or repaid when due nor within any applicable grace period, and such Financial Indebtedness exceeds \$15,000,000;• an Insolvency Event occurs in respect of Tatts or a Guarantor;• if it is or becomes unlawful for Tatts or the Guarantors to perform any of their payment obligations under the Tatts Bonds;• if a Guarantor (other than Tatts) is not or ceases to be controlled by Tatts and the Guarantor has not first been released from its obligations under the Trust Deed; and• other than as permitted under the Trust Deed, the Guarantee is terminated for any reason or otherwise ceases to be a valid, binding and enforceable obligation of the Guarantors.	Clause 5 of the Terms
Consequence of Event of Default	If an Event of Default occurs, the Trustee may by written notice to Tatts declare the Face Value (together with all accrued but unpaid Interest (if any)) applicable to each Tatts Bond held by the Holders to be due and payable immediately.	Clause 5 of the Terms

1.7 Ranking

No security

Tatts Bonds are not secured by any specific assets of Tatts. This means that they are not secured against any assets of Tatts or any of its Subsidiaries or any other person.

Ranking on winding up

If Tatts becomes unable to meet its obligations or suspends any payments it is required to make, Holders' claims will rank after the claims of any creditors preferred by law, such as employee entitlements, and any secured creditors of Tatts.

Refer to sub-sections outlining the 'negative pledge' in Section 1.5 as well as 'Further issues of securities' in Sections 1.8 and 4.6.

In the event of a winding up of Tatts, Holders will be entitled to receive repayment of the Face Value applicable to each Tatts Bond held by the Holders and any accrued but unpaid Interest only after any debts of Tatts that are mandatorily preferred by law, and any secured creditors of Tatts, are paid in full.

Except for those preferred and secured claims, Holders' claims will rank equally with Holders of other Tatts Bonds, equally with claims of all other senior and unsecured creditors of Tatts, and ahead of all holders of ordinary shares and subordinated creditors.

Information on the facility limits and amounts currently drawn down on Tatts' existing financing facilities are set out immediately below and in Section 2.3(d).

Tatts may incur more debt than it currently has or issue further securities including further Tatts Bonds or bonds on similar terms to Tatts Bonds which rank equally with Tatts Bonds. In certain circumstances, Tatts may grant security over existing or future debt that would rank ahead of Tatts Bonds on a winding up.

Illustration of ranking of Tatts' obligations in respect of existing debt arrangements and equity

The table below illustrates how Tatts Bonds would rank upon winding up of Tatts against Tatts' obligations in respect of existing debt arrangements and equity. This is a simplified capital structure and does not specifically identify every type of security issued by Tatts or every potential claim against Tatts in a winding up. Tatts has other liabilities, including liabilities such as trade and other payables, which would rank equally with Tatts Bonds in the case of a winding up of Tatts (if then existing). For further information on the amount of these liabilities as at 31 December 2011, see Section 2.3.

	Type	Existing debt arrangements, and equity	Amount*

Overview of Tatts

2.1 Business profile

Company overview

Tatts Group is a leading provider of wide-area networked gambling services in Australia. Tatts Group is comprised of lotteries, wagering and gaming businesses relying on wide-area network technology to deliver services to customers through a diversified network of retail and direct channels. Tatts Group also operates gaming machine monitoring, technical maintenance and network support services businesses. Tatts' origins can be traced back some 130 years and Tatts Group now has operations across every state and territory in Australia, and in the UK. With a market capitalisation of approximately \$3.5 billion (as at 25 May 2012), Tatts is one of Australia's top 100 ASX listed companies by market capitalisation (ASX code: TTS).

The Tatts portfolio

Tatts Group is the largest lottery operator in Australia by revenue, operating in New South Wales, Victoria, Queensland, Tasmania, Australian Capital Territory and Northern Territory, and through online channels. Tatts Group also conducts totalisator wagering and fixed odds betting on racing and fixed odds betting on sports through licences held in Queensland, South Australia, Northern Territory and Tasmania, through retail and other channels including telephone and online. In addition, Tatts Group conducts gaming machine monitoring and value add services in Queensland, New South Wales and the Northern Territory. In New South Wales this includes exclusive licences to operate inter-venue linked jackpots, whilst such jackpot services are also supplied in Queensland and Northern Territory.

Tatts Group provides third party installation, repair and maintenance services for lottery, wagering, gaming, banking, point of sale and other transactional equipment and systems throughout Australia. Tatts Group also owns a gaming business in the UK and a gaming machine operator business in Victoria. Tatts Group's gaming machine operator business in Victoria will cease from 16 August 2012 and accordingly the pro forma financial information in Section 2.3 has been adjusted to remove its historical results.

Since listing in 2005, Tatts has successfully developed a portfolio of diversified income streams. During this time, the Company merged with UNITAB (now TattsBet) in 2006, and acquired the Queensland lottery (Golden Casket) and the New South Wales lottery businesses in 2007 and 2010 respectively. These acquisitions provided corresponding grants of 65-year and 40-year licences to conduct public lotteries in Queensland and New South Wales. In March this year Tatts Group completed the acquisition of Tote Tasmania which included the grant of a Tasmanian gaming licence (which includes totalisator, sports betting and race wagering endorsements) for 50 years, with an option for an additional 49 years, which Tatts Group can exercise, at no additional cost.

Tatts Group's portfolio of businesses is comprised of six key divisions which are detailed in the table below.

In April 2008, the Victorian State Government announced changes to the Victorian gaming, wagering and keno licensing arrangements post 2012. As a consequence of the changes Tatts Pokies' gaming machine operations will cease from 16 August 2012, and Tatts Group will no longer generate earnings from these operations.

Long term licences

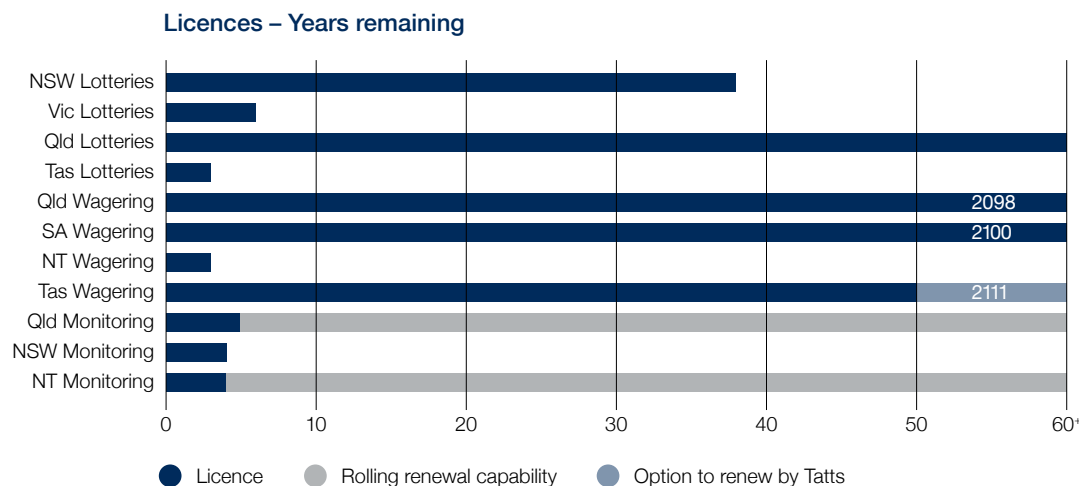

There are significant barriers to entry for new participants in the majority of the highly regulated industries in which Tatts Group operates. The existence of stringent licensing regimes in most of the wagering, lotteries and gaming machine monitoring jurisdictions in which Tatts Group operates, coupled with the long tenor of Tatts Group's key licences, and the cost involved in building a terrestrial network, underpins Tatts Group's leading market share in the jurisdictions in which it is licensed.

Tatts' wagering business is however faced with ongoing changes in the competitive environment for wagering and fixed odds sports betting with the internet and other new distribution methods having allowed new competitors to access customers in Tatts Group's traditional markets without those competitors being licensed in those jurisdictions.

Section 2 (continued)

Overview of Tatts

The graph below illustrates the long term nature of many of Tatts Group's licences. Around 75% of Tatts Group's continuing EBITDA (i.e. excluding EBITDA from the Tatts Pokies gaming machine operations) is generated from licences that run for at least 35 years

Tatts Group's Position within the Australian and UK gambling industries

The licences outlined above together with Tatts Group's growing internet and technology distribution capabilities, positions Tatts Group to compete in the key business sectors of the Australian gambling industry in which it operates.

Within the Australian lottery market, Tatts Group has licences, permits and authorities to sell lotteries in all states and territories other than South Australia and Western Australia (which currently remain in government ownership). The New South Wales licence is an exclusive licence, whilst the operator agreement with the Queensland Government is to operate its lottery licence for it as the current sole lottery operator. In Victoria, Tatts Group has exclusive rights to sell current Lottery Bloc (nationally pooled) games and Tatts Group's operations represent around 95% of Victorian lottery sales. This licence runs to 2018, at which time the Victorian Government will consider a new licence, which may see a tender process conducted (as undertaken for the current licence). Permits and authorities to conduct lotteries are held in other jurisdictions, generally with either sole or major operator status.

Tatts Group's wagering and sports betting licences in Queensland, South Australia, Northern Territory and now Tasmania represent around 23% of total totalisator wagering in Australia. The Victorian and New South Wales totalisator businesses are privately operated, with Western Australia and the Australian Capital Territory under government ownership. Tatts Group also holds a bookmaker licence in the Northern Territory. The Queensland race wagering licence runs to 2098 and the sports wagering licence to 2014. The South Australia racing and sports betting licence runs to 2100 and the Tasmanian wagering and sports betting licence for 50 years with an option for a further 49 years, which Tatts Group can exercise, at no cost. The Northern Territory licences run until 2015. Exclusivity on these licences expires at various stages. However, a barrier to entry to retail competition is the high cost of rolling out the retail infrastructure necessary to provide a comprehensive retail service to customers which includes the provision of:

- totalisator and fixed odds betting;
- cash and account betting;
- race vision, odds displays and other betting information (e.g. form guides); and
- operator presence and support.

The major competition to Tatts Group's wagering business lies in the internet and telephone betting channels of the business (predominantly in fixed odds products), such competition having been a feature of the industry for a number of years. TattsBet's sales in these channels have consistently held up at around 25%-30% of total sales and is an area of ongoing development within Tatts, particularly with the introduction by Tatts of its online single purse which holds funds which can be used to purchase lottery and wagering products via www.tatts.com.

Maxgaming's Queensland monitoring licence and NT TAB's Northern Territory monitoring licence are granted for ten and five year periods respectively and are subject to rolling renewal processes around meeting probity and licence fee payment requirements. Tatts Group is the sole operator in the Northern Territory, and one of two operators in Queensland with a market share (by number of EGMs monitored) of around 81%. The exclusive monitoring and linked-jackpot licences in New South Wales expire between 2016 to 2019, with no direction from the New South Wales Government at this time on future arrangements.

Bytecraft's employees are licensed to enable them to maintain and repair gambling equipment, and Bytecraft is approved, where necessary, as a repair and maintenance operator. Bytecraft competes across various market sectors and has been successfully growing revenue at a compound annual growth rate in excess of 10% for the last five years. In the UK, Talarius operates in the AGC market under venue specific permits and is one of a few entities in the UK AGC market that own more than 100 venues in that market segment.

Contribution to Tatts' revenue and EBITDA

Tatts' portfolio of assets provides a diversified exposure to different segments of the gambling industry and with the high volume and low average value nature of Tatts Group's lottery and wagering transactions this generally delivers stable revenue flows and supports an operating model that exhibits some resilience to economic volatility. Tatts has a diversified earnings base with contributions from each of its divisions and earnings spread across states and territories of Australia and in the UK. This diversity assists to mitigate the business impacts from shocks and incidents, e.g. floods, that may occur from time to time in any one business of Tatts Group, or in any one geographic area.

Since listing on ASX, Tatts has been proactive in diversifying its product and geographic offering. Therefore, while Tatts will cease to derive revenue and profits from its Tatts Pokies gaming machine operations from 16 August 2012, it has grown its other business operations, which has resulted in Tatts being in a better position to manage the loss of the Tatts Pokies business. Tatts has changed the composition of its portfolio through a number of successfully integrated acquisitions, including the acquisition of Golden Casket in 2007, Talarius in 2008, NSW Lotteries in 2010 and Tote Tasmania in 2012.

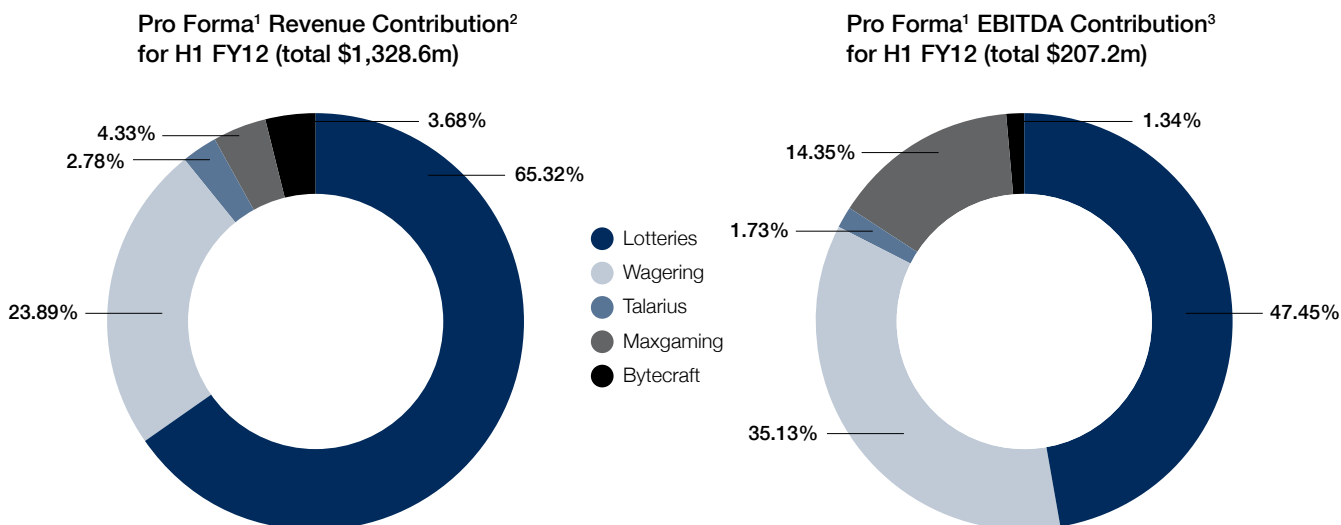

For the six months ended 31 December 2011, Tatts generated revenue of \$1,973.6m and EBITDA of \$335.7m. The charts below show the contribution made by each of Tatts businesses to the revenue and EBITDA generated for the half-year ended 31 December 2011:

As noted above, the Tatts Pokies gaming machine operations in Victoria will cease from 16 August 2012. Accordingly, from 16 August 2012 Tatts will no longer generate earnings and cash flows directly from domestic gaming machine operations. If the contribution of Tatts Pokies' gaming machine operations was ignored, Tatts would have generated revenue of \$1,328.6m and EBITDA of \$207.2m for the six months ended 31 December 2011. The charts below show the contribution made by each business to Tatts' revenue and EBITDA for the half-year ended 31 December 2011, assuming that the Tatts Pokies gaming machine operations made no contribution:

Section 2 (continued)

Overview of Tatts

1 Refer to Section 2.3 for details of Pro Forma adjustments.

2 The Pro Forma Revenue percentage contribution includes inter-business revenue (such as Bytecraft revenue received from internal service provision to other Tatts Group businesses) and excludes unallocated revenue (such as rentals received on properties owned by Tatts Group at the group level).

3 The Pro Forma EBITDA percentage contribution is based on EBITDA before taking into account the impact of unallocated overhead costs.

Accordingly, following the cessation of the Tatts Pokies gaming machine operations, the lotteries business of Tatts Group will represent around half of its profitability.

Corporate Strategy

Tatts Group's core business strategies include:

- optimising the management, operation and term of existing licences (including extending/improving licence terms) and businesses to achieve continued growth and operational efficiencies;
- participating in government processes associated with development and licensing of the gambling industry (in Australia and internationally);
- pursuing strategic acquisitions of state and privately owned gambling assets as and when they become available;
- maintaining a flexible balance sheet to support the existing business and fund other growth opportunities, including opportunities outside the gambling industry, that fit with Tatts Group's core capabilities.

Tatts has stated its interest to pursue the opportunity to acquire the South Australia Lottery business which the South Australian Government has stated is for sale, indicating an end of calendar 2012 completion. Tatts Group has also stated that it will assess its prospects of acquiring the Irish National Lottery which the Irish Government has stated is for sale within potentially a similar timeframe to South Australia.

Tatts will continue to develop and implement changes to tatts.com, its internet portal, and other forms of distribution including smart phone and tablet PC apps and self-service terminals. This will also focus on expanding Tatts Group's online single purse, smart phone and tablet PC offer to current account holders and loyalty card members, whilst also seeking to attract new customers. This will be accompanied by ongoing product development across Tatts Group's broad suite of distribution channels within its business units, particularly wagering and lotteries.

Overview of Tatts

2.3 Financial information

(a) Historical and Pro Forma Financial Information

(i) Overview

This Section contains pro forma historical financial information of Tatts (the **Financial Information**), which is comprised of the following:

- pro forma historical consolidated income statements for the year ended 30 June 2011 and the six month period ended 31 December 2011 (the **Pro Forma Income Statements**) which assumes completion of the Offer; and
- pro forma historical consolidated balance sheet as at 31 December 2011 (the **Pro Forma Balance Sheet**) which assumes completion of the Offer.

Tatts is a disclosing entity for the purposes of the Corporations Act and, as a result, is subject to regular reporting and disclosure obligations under the Corporations Act and the Listing Rules, including an obligation to lodge half-yearly and annual financial reports with ASIC.

Tatts' most recent financial report was for the half-year ended 31 December 2011 (**H1 FY12 Financial Statements**). Tatts' most recent annual financial report was for the year ended 30 June 2011 (**FY11 Financial Statements**).

A copy of the annual FY11 Financial Statements can be obtained from www.tattsbondsoffer.com. Copies of announcements lodged with ASX since the date of the FY11 Financial Statements including the H1 FY12 Financial Statements and announcements to be lodged during the term of the Tatts Bonds can also be obtained from www.asx.com.au.

The Financial Information should be read in conjunction with the risks described in Section 3 and other information contained in this Prospectus.

The Tatts' Directors are responsible for the preparation and presentation of Financial Information.

The Financial Information has been reviewed by the Investigating Accountant. The Investigating Accountant's Report is included in Section 2.3(e). The comments made in relation to the scope and limitations of the Investigating Accountant's Report should be noted.

(ii) Basis of preparation

The Financial Information in this Section 2.3(a) has been prepared in accordance with the recognition and measurement principles prescribed in Australian Accounting Standards and other mandatory professional reporting requirements in Australia. The Financial Information is presented in an abbreviated form and does not contain all of the disclosures required by Australian Accounting Standards in an annual financial report prepared in accordance with the Corporations Act.

The Financial Information has been derived from Tatts' FY11 Financial Statements and H1 FY12 Financial Statements. Tatts' FY11 Financial Statements were audited by PricewaterhouseCoopers in accordance with Australian Auditing Standards. The auditor's opinion issued to Tatts in relation to the FY11 Financial Statements was unmodified. Tatts' H1 FY12 Financial Statements were reviewed by PricewaterhouseCoopers in accordance with Australian Auditing Standards. The auditor's review report issued to Tatts in relation to the half-year financial report was unmodified.

The Financial Information has been prepared by the Directors and assumes completion of the Offer. The accounting policies used in preparation of the Financial Information are consistent with those set out in Tatts' FY11 Financial Statements.

(iii) Pro Forma Adjustments

The following adjustments have been made to the Financial Information to reflect:

1. cessation of the Tatts Pokies gaming machine operations from 16 August 2012:
 - i) Tatts has signed commitments to sell Tatts Pokies' gaming machines for \$63.8 million when its gaming operator licence ceases from 16 August 2012. The Pro Forma Balance Sheet has been adjusted as if the gaming machine operations ceased and the sale of the gaming machines took place as at 31 December 2011. The \$4.5 million adjustment to net assets at 31 December 2011 removes the net assets of Tatts Pokies and assumes the gaming machines will be sold for cash proceeds of \$63.8 million;
 - ii) the Pro Forma Income Statements have been adjusted to remove the historical results of the Tatts Pokies business, as if the gaming machine operations ceased on 1 July 2010. The contribution of the Tatts Pokies business does not include the allocation of Group information technology overhead costs and accordingly differs to the contribution presented in the segment notes for the H1 FY12 Financial Statements and FY11 Financial Statements. The gain on the future sale of gaming machines as well as any potential shared service cost savings resulting from the cessation of the gaming machine operations have not been reflected in the Pro Forma Income Statements. Net finance costs have not been adjusted to reflect additional interest generated from the cash that will be derived from the sale of the gaming machines;

2. the impact of the Offer

- i) the historical consolidated balance sheet at 31 December 2011 (**Balance Sheet**) has been adjusted as if the Offer was completed at 31 December 2011. The adjustment reflects the issue of \$200 million of Tatts Bonds, net of transaction costs. The bond issue will have no impact on net assets as the net cash raised (after transaction costs) from the issuance of the Tatts Bonds will be used to repay existing debt;
- ii) the historical consolidated income statements for the year ended 30 June 2011 and the six month period to 31 December 2011 (**Income Statements**) have been adjusted as if the Offer was completed at 1 July 2010 and 1 July 2011. The net finance costs adjustment assumes the subscription level of \$200 million (adjusted for transaction costs) is used to repay existing debt. The incremental interest reflects that Tatts Bonds have a higher interest margin than the existing debt that will be repaid.

The Financial Statements have not been adjusted for the full impact of the Tote Tasmania acquisition. On 1 December 2011, Tatts Group (via TattsBet) entered into binding agreements to purchase Tote Tasmania for \$103 million subject to regulatory approvals, and paid a deposit of \$10.3 million at that date which is reflected in the reported Balance Sheet at 31 December 2011. The acquisition was settled on 26 March 2012 with the payment of a further \$92.7 million to the Tasmanian Government. These payments were funded from a mixture of cash reserves and existing loan facilities. The impact of this acquisition has not been incorporated by adjustment to the EBITDA for the 12 months to 30 June 2011 and the six months to 31 December 2011 due to the fundamental change in the operations of Tote Tasmania since acquisition (in particular, the inclusion of Tote Tasmania into TattsBet's totalisator and fixed odds pools, changed customer benefit arrangements which when combined with the change to the pooling arrangements has significantly reduced the size of the wholesale business, and its integration into Tatts Group's corporate structure reducing the number of staff required to operate the business). As a result the actual historical financial performance does not provide a meaningful basis for the purpose of deriving the Pro Forma Income Statements. On the basis that the Pro Forma Income Statements have not been adjusted, the Pro Forma Balance Sheet has not been adjusted so as to avoid distorting the ratios disclosed in Section 2.3(b). Whilst net debt increased by \$103 million to finance the acquisition, operating cashflow received between 31 December 2011 and acquisition date has resulted in minimal net debt movement relative to the 31 December 2011 Pro Forma Balance Sheet. The acquisition has no impact on net assets.

(b) Relevant financial ratios

The ratios included below have been calculated based on financial information for the six months to 31 December 2011.

Leverage Ratio

Tatts has a Leverage Ratio of 1.8 based on statutory financial information sourced from the H1 FY12 Financial Statements and calculated using the following formula:

$$\text{Leverage Ratio} = \frac{\text{Net Debt}^1 \div 2^2}{\text{EBITDA}}$$

1. The calculation of net debt includes Tatts Group's interest bearing liabilities and other liabilities less cash held by Tatts Group (cash excludes prize reserves).
2. Net Debt is divided by 2 to annualise the ratio (as the EBITDA included above is for the six month period to 31 December 2011).

The Leverage Ratio is calculated as Net Debt (divided by two) to EBITDA for the relevant six month period. The Leverage Ratio provides an indication of the number of years it would take Tatts to pay off all its existing Net Debt if Net Debt and EBITDA were held constant (ignoring factors of interest and taxes).

It therefore provides important information about Tatts' ability to repay its existing Net Debt and capacity to take on additional debt obligations. A high Leverage Ratio may indicate that Tatts may not be able to service its debt and could place downward pressure on Tatts' credit profile.

Taking into account the impact of the cessation of the Tatts Pokies gaming machine operations, Tatts would have a pro forma Leverage Ratio of 2.7 as at 31 December 2011. The Offer will have no impact on the Leverage Ratio as the proceeds from the Offer are being used to repay existing debt.

In considering the pro forma Leverage Ratio, which takes the FY11 Financial Statements and adjusts for the cessation of the Tatts Pokies gaming machine operations by simply removing the contribution and financial position of the business from the Financial Statements, it should be noted that this calculation does not attempt to portray the likely level of this ratio in FY13 when the Tatts Pokies gaming machine operations actually cease. Factors that the calculation above does not take into account that would improve this ratio are:

- The Tatts Pokies business will operate for approximately six weeks in FY13, which could represent up to \$30 million of EBITDA.
- The calculation assumes no group information technology savings from the cessation of Tatts Pokies' gaming machine operations. There are expected to be savings from rationalising data centres, the extent of which has not yet been determined.
- The Net Debt figure is not adjusted for cash flow to be generated by the group since December 2011.
- The EBITDA figure does not reflect the efficiency benefits expected to be received in the lotteries business from the replacement of the externally provided lottery system in NSW Lotteries with Tatts Group's in-house system in late FY12.

Gearing Ratio

Tatts has a Gearing Ratio of 84.1% based on statutory financial information sourced from the H1 FY12 Financial Statements and calculated using the following formula:

$$\text{Gearing Ratio} = \frac{\text{Total liabilities}}{\text{Total equity}}$$

The Gearing Ratio is required to be included in this document by the Corporations Act (as modified by ASIC Class Order CO 10/321, as amended). It indicates the extent to which the assets of Tatts are funded by debt. Generally, a higher ratio indicates greater use of borrowings to fund a business.

Taking into account the impact of the cessation of the Tatts Pokies gaming machine operations, Tatts would have a pro forma Gearing Ratio of 82.9% as at 31 December 2011. The Offer will have no impact on the Gearing Ratio as the proceeds from the Offer are being used to repay existing debt.

Balance Sheet Gearing Ratio

The Balance Sheet Gearing Ratio is a ratio that has been disclosed historically by Tatts to indicate the extent to which the assets of Tatts are funded by debt. This ratio is an alternative to the Gearing Ratio described above which may assist you in deciding whether or not to invest in Tatts Bonds. Generally, a higher Balance Sheet Gearing Ratio indicates greater use of borrowings to fund a business.

Tatts has a Balance Sheet Gearing Ratio of 31.2% based on statutory financial information sourced from the H1 FY12 Financial Statements and calculated using the following formula:

$$\text{Balance Sheet Gearing Ratio} = \frac{\text{Net Debt}}{\text{Net Debt} + \text{Total equity}}$$

Section 2 (continued)

Overview of Tatts

Taking into account the impact of the cessation of the Tatts Pokies gaming machine operations, Tatts would have a pro forma Balance Sheet Gearing Ratio of 30.2% as at 31 December 2011. The Offer will have no impact on the Balance Sheet Gearing Ratio as the proceeds from the Offer are being used to repay existing debt.

Interest Cover

Tatts has an Interest Cover of 6.7 times based on statutory financial information sourced from the H1 FY12 Financial Statements and calculated using the following formula:

$$\text{Interest Cover} = \frac{\text{EBITDA}}{\text{Net interest expense}}$$

Interest Cover gives an indication of Tatts' ability to meet its interest payments from earnings. It therefore provides important information about Tatts' financial sustainability and the risks associated with Tatts' level of borrowings. A low Interest Cover may indicate that Tatts could face difficulties in servicing its debt if earnings decrease or interest rates increase.

Taking into account the impact of the cessation of the Tatts Pokies gaming machine operations, Tatts would have a pro forma Interest Cover of 4.2 times as at 31 December 2011. After adjusting for the impact of the Offer on Tatts' net interest expense the pro forma Interest Cover is 4.1 times as at 31 December 2011.

Working Capital Ratio

Tatts has a Working Capital Ratio of 87.1% based on statutory financial information sourced from the H1 FY12 Financial Statements and calculated using the following formula:

$$\text{Working Capital Ratio} = \frac{\text{Current assets}}{\text{Current liabilities}}$$

Taking into account the impact of the cessation of the Tatts Pokies gaming machine operations, Tatts would have a pro forma Working Capital Ratio of 89.1%. The Offer will have no impact on the Working Capital Ratio as the proceeds from the Offer are being used to repay existing debt.

A Working Capital Ratio indicates whether an issuer has sufficient short term assets to meet its short term liabilities. Generally, a higher ratio indicates a greater ability to meet liabilities over the short term (including unexpected liabilities).

In Tatts' case, with its regular and consistent cash flow profile and an EBITDA that largely represents cash inflow from operations, the Working Capital Ratio needs to be considered in the context of its overall funding as outlined in Section (d) below.

(c) Approach to capital management

Tatts' capital risk management approach is to maintain a capital structure for the business which ensures sufficient liquidity and support for the business operations, maintains shareholder and market confidence, provides stakeholder returns, and positions the business for future growth. Tatts believes it has maintained an appropriately positioned balance sheet and a disciplined approach in ensuring strong credit metrics with further capacity for expansion. In implementing this approach, Tatts Group has sought to generally maintain its gearing ratio metrics at levels that allow scope to absorb acquisitions and/or events such as the cessation of the Tatts Pokies gaming machine operations whilst ensuring these ratios stay at appropriate levels for the business. This was reflected during FY10 when Tatts Group acquired NSW Lotteries for \$850 million using debt and cash reserves and the increase in funding levels increased the Balance Sheet Gearing and Leverage Ratios. These ratios reduced the following year as a result of the enhanced EBITDA and the cash generated within the business being used to repay debt.

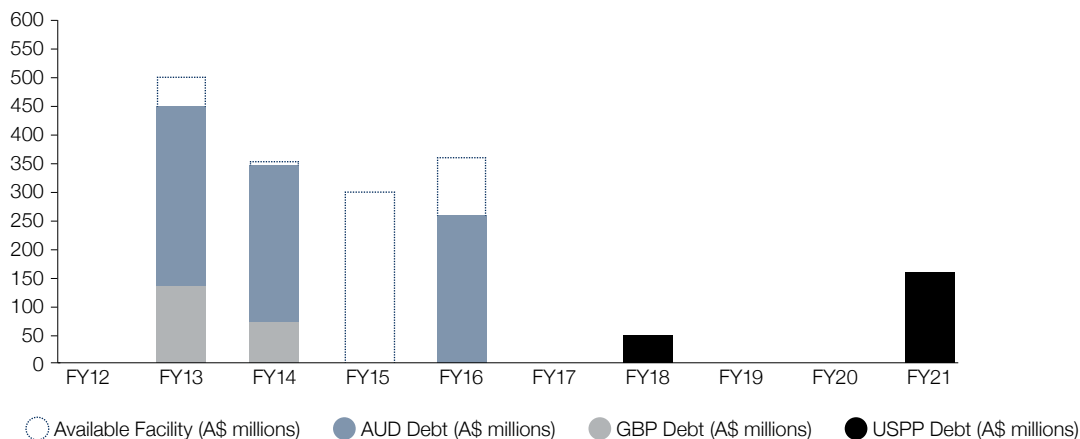

(d) Tatts' existing debt facilities and debt maturity

Tatts Group seeks to maintain a diversified debt portfolio that enables it to access a range of debt markets and instruments to meet its ongoing business requirements and investment opportunities. Tatts Group has accessed a range of sources of funding in previous years. The issue of the Tatts Bonds will add a new source of funding to, and thereby further diversify, Tatts Group's debt portfolio. This means that Tatts Group will be less reliant on its existing funding sources.

As at 31 December 2011, Tatts had drawn down debt (interest bearing liabilities) of \$1,269.6 million, and \$568.0 million of available liquidity from undrawn debt facilities and corporate cash and cash equivalents.

The chart on page 29 (Debt maturity profile (prior to issue of Tatts Bonds)) sets out the maturity profile of Tatts' drawn and undrawn committed facilities as at 31 December 2011 and does not include any adjustment for the issue of Tatts Bonds.

Debt maturity profile (prior to issue of Tatts Bonds)

Note: applies a USD/AUD exchange rate of 1.0209 and a GBP/AUD exchange rate of 0.6570 (as at 31 December 2011).

Tatts existing debt facilities and their maturities are as follows:

- US\$225.0 million from a US Private Placement (**USPP**) raised in December 2010 which comprised of two tranches;
 - US\$55.0 million maturing in December 2017; and
 - US\$170.0 million maturing in December 2020.
- A\$1,489.0 million syndicated multi-currency revolving facility which is comprised of:
 - A\$189.0 million maturing in June 2013;
 - A\$300.0 million maturing in March 2013;
 - A\$350.0 million maturing in March 2014;
 - A\$300.0 million maturing in March 2015; and
 - A\$350.0 million maturing in March 2016.

It is the intention that the funds raised under the Offer of Tatts Bonds will be used to repay part of Tatts Group’s syndicated multi-currency revolving facility. Following the Offer, Tatts Group’s debt maturity profile would include an additional amount in the FY20 period in respect of the total funds raised under the Offer with a reduction in the drawn balance equal to the amount of net proceeds, in earlier years. The chart below sets out the debt maturity profile of Tatts Group’s drawn and undrawn committed facilities after the Offer, assuming that the debt maturing in March 2013 (which is in AUD) is partly paid down by the proceeds of the Offer. Tatts Group intends to maintain the capacity to redraw this facility up until its maturity date. This means that the issue of Tatts Bonds will assist Tatts Group to maintain its capacity to access bank funding via this existing facility and thereby assist it to pursue potential future strategic growth initiatives.

Repaying existing bank debt with the net proceeds of the Offer will also have the effect of lengthening the debt maturity profile of Tatts Group. The resulting broader and longer debt maturity profile will reduce Tatts Group’s exposure to refinancing risk, including the associated exposure to market volatility, by increasing the number of the time periods in which debt may need to be refinanced in the future.

Debt maturity profile (following issue of Tatts Bonds)

Note: applies a USD/AUD exchange rate of 1.0209 and a GBP/AUD exchange rate of 0.6570 (as at 31 December 2011).

Section 3

Key risks of Tatts Bonds

Section 3

Key risks of Tatts Bonds

Introduction

By investing in Tatts Bonds you will be lending money to Tatts and may be exposed to a number of risks which can be broadly classified as risks associated with Tatts Bonds and risks associated with Tatts Group's business that may affect Tatts Bonds.

This Section describes potential risks associated with Tatts' business and risks associated with an investment in Tatts Bonds and Tatts. It does not purport to list every risk that may be associated with an investment in Tatts Bonds now or in the future, and the occurrence or consequences of some of the risks described in this Section of the Prospectus are partially or completely outside the control of Tatts, its Directors and senior management team. The selection of risks has been based on an assessment of a combination of the probability of the risk occurring and impact of the risk if it did occur. This assessment is based on the knowledge of the Directors as at the date of this Prospectus but there is no guarantee or assurance that the importance of different risks will not change or other risks emerge.

There can be no guarantee that Tatts will meet trading performance or financial results guidance that it may provide to the market, or that any forward looking statements contained in this Prospectus will be realised or otherwise eventuate. Investors should note that past performance is not always a reliable indicator of future performance.

Before applying for Tatts Bonds, you should satisfy yourself that you have a sufficient understanding of these matters and should consider whether Tatts Bonds are a suitable investment for you, having regard to your own investment objectives, financial circumstances and taxation position. If you do not understand any part of this Prospectus or are in any doubt as to whether to invest in Tatts Bonds or not, it is recommended that you seek professional guidance from your solicitor, accountant or other independent and qualified professional adviser before deciding whether to invest.

3.1 Risks associated with Tatts Bonds

(a) The market price of Tatts Bonds may fluctuate

Tatts will apply for quotation of Tatts Bonds on ASX. The market price of Tatts Bonds on ASX may fluctuate due to various factors, including:

- changes in Australian and international economic conditions, interest rates, credit margins, inflation rates and foreign exchange rates;
- the performance or financial position of Tatts;
- movements in the market price of equity and/or other debt issued by Tatts or by other issuers;
- changes in investor perceptions and sentiment in relation to Tatts or the gambling industry; and
- other major Australian and international events such as hostilities and tensions, and acts of terrorism.

The market price for Tatts Bonds may also be negatively impacted by interest rate fluctuations and low liquidity as described in Sections 3.1(b) and (c) below.

It is possible that Tatts Bonds may trade at a market price below the Face Value and that the market price of Tatts Bonds may be more sensitive than that of ordinary shares to changes in interest rates, credit margins and other market prices.

If Tatts Bonds trade at a market price below the amount at which you acquired them, there is a risk that if you sell them prior to the Maturity Date, you may lose some of the money you invested.

Tatts does not guarantee the market price of Tatts Bonds.

(b) The Interest Rate will fluctuate

The Interest Rate is a floating rate, equal to the sum of the Bank Bill Rate plus the fixed Margin. The Bank Bill Rate will fluctuate and therefore the Interest Rate will fluctuate. Over the term of the Tatts Bonds, the Interest Rate may be lower or higher than the initial Interest Rate on the Issue Date.

If the Interest Rate decreases, there is a risk that the return on the Tatts Bonds may become less attractive compared to returns on other investments, including investments which carry fixed interest rates.

Tatts does not guarantee any particular rate of return on Tatts Bonds.

(c) The liquidity of Tatts Bonds may be low

The market for Tatts Bonds may not be liquid. Although Tatts is seeking to raise \$200 million it does have the ability to raise less (subject to a minimum subscription level of \$50 million). A smaller issue size is likely to result in lower liquidity.

If liquidity is low, there is a risk that, if you wish to sell your Tatts Bonds prior to the Maturity Date, you may not be able to do so at a price acceptable to you, or at all, and there is a risk that the market price will become more volatile in general.

Tatts does not guarantee that you will be able to sell your Tatts Bonds.

(d) Tatts may default on payment of Face Value or Interest

Depending upon its performance and financial position, Tatts may default on payment of some or all of the Face Value or Interest on Tatts Bonds.

If Tatts and the Guarantors do not pay some or all of the Face Value or Interest as and when payable under the Terms, then you may not receive some or all of the money you invested in Tatts Bonds or Interest that is due to be paid to you

(e) Holders of Tatts Bonds are unsecured creditors

If Tatts becomes unable to meet its obligations or suspends any payments it is required to make, Holders' claims will rank after any secured creditors of Tatts as well as the claims of any creditors preferred by law, such as employee entitlements.

Under Tatts' current funding arrangements, Holders of Tatts Bonds rank equally with Tatts existing bank debt and USPP notes. Under clause 4.2 of the Terms, Tatts is restricted from issuing further prior ranking securities, or granting security over its assets in favour of certain of its other lenders, without providing similar security to holders of Tatts Bonds.

Those restrictions principally operate in respect of key debt capital market instruments (broadly, debt instruments that are publicly offered and trade on a market). The restrictions do not operate in respect of bank debt and there are exceptions to the restrictions, (refer to Section 1.5 and Clauses 4.2 and 10 of the Terms). In the event of a winding up of Tatts or a Guarantor (as the case may be), Holders' claims would rank behind the claims of such other creditors.

If there are insufficient assets to satisfy Holder claims after the claims of secured creditors and creditors preferred by law are satisfied, then there is a risk that you may lose some or all of the money you invested in Tatts Bonds and any Interest that has accrued but remains unpaid.

(f) Tatts may issue further securities

Tatts has the right to issue further Tatts Bonds.

Tatts has the right to issue further securities (including additional series of Tatts Bonds) that may:

- have the same or different dividend, interest or distribution rates as Tatts Bonds;
- have the same or different maturities as Tatts Bonds;
- have the same or different terms and conditions as Tatts Bonds; and
- rank for payment of the principal or interest (including on winding up of Tatts) after, equally with, or ahead of Tatts Bonds subject to the negative pledge.

A holding of Tatts Bonds does not confer any right to participate in further issues of securities by Tatts, whether equity, debt, or some other security. In addition, other entities in the Tatts Group may issue securities with the same or different dividend, interest or distribution rates, maturities, or terms and conditions to Tatts Bonds.

The issue of further securities by Tatts or other Tatts Group entities may have the effect of reducing the amount that Holders would receive on a winding up and may have an adverse effect on the market price or liquidity of Tatts Bonds, although this is difficult to anticipate.

(g) Holders may only request that their Tatts Bonds be Redeemed early in limited circumstances

Holders of Tatts Bonds may only request Redemption of their Tatts Bonds prior to the Maturity Date where there is a Change of Control Event or a Delisting Event. Alternatively, to realise your investment, you may be able to sell your Tatts Bonds on ASX at the prevailing market price but, depending on market conditions at the time, it is possible that Tatts Bonds may be trading at a market price below the Face Value and/or the market for Tatts Bonds may not be liquid.

(h) Tatts may Redeem Tatts Bonds if a Tax Event or a Clean Up Event occurs

Tatts has the right to Redeem Tatts Bonds if a Tax Event or a Clean Up Event occurs.

Depending on market conditions at the time, you may not be able to reinvest the amount you receive on Redemption at a similar rate of return to the rate of return you expected on your Tatts Bonds if you had held them until the Maturity Date.

Section 3 (continued)

Key risks of Tatts Bonds

(i) Limited Holder rights

In the event that Tatts defaults on the payment of Face Value or Interest, only the Trustee is able to take action directly against Tatts; Holders rights are limited to voting in meetings of Holders to request the Trustee to take action. Refer to Section 4.6 for more information.

(j) Guarantors

On the Issue Date, the Guarantors will comprise the initial Guarantors. Holders should note that the entities comprising the Guarantors may change from time to time. Therefore, the members of the Tatts Group that comprise the Guarantors on the Issue Date may change prior to the maturity of the Tatts Bonds (as described in Section 1.5). Consequently, Holders may not in the future have the benefit of a Guarantee from each initial guarantor.

(k) Taxation considerations

A summary of potential Australian taxation implications for Holders is set out in Section 4.3. This is a general summary and is not intended to provide specific advice in relation to the circumstances of any particular investor. Accordingly, Holders should seek independent advice in relation to their own individual taxation circumstances.

(l) Corporate actions

The Terms do not provide Holders with any rights in the event that Tatts undertakes any transactions that may involve the restructure of the Tatts Group – such as asset disposals or acquisitions or other corporate transactions. Any such transactions would only give rise to rights for Holders if they constitute a Change of Control Event or a Delisting Event (see Sections 1.4 and 3.1(g)).

3.2 Risks associated with Tatts Group's business that may affect Tatts Bonds

(a) Licences and other approvals

The conduct of wagering and lotteries in Australia and the operation of gaming machines in Australia and the UK are governed by regulations and through the granting of licences, permits or other approvals to participants by the relevant state, territory and UK Governments.

Tatts Group must comply with relevant regulations and the terms of its respective wagering, lotteries, monitoring and gaming licences, permits or other approvals. Any non-compliance could lead to a range of disciplinary actions, including a letter of censure, reprimand, fines, amended or additional terms or, ultimately, the suspension or cancellation of a licence, permit or approval. In the event that a licence, permit or approval was cancelled by a state or territory government or the UK Government, Tatts Group would not be permitted to operate the relevant business.

Any material non-compliance by Tatts Group with the relevant regulations or terms of its licences, permits or approvals may result in financial penalties, or the suspension or loss of certain licences, permits or approvals which may have a material adverse impact on the financial performance of Tatts Group or result in the loss of a business unit and corresponding revenues from that business unit.

(b) Regulation and changes to regulation

The regulation of gambling activities in Australia is primarily the responsibility of state and territory governments. The Federal Government also has jurisdiction over areas of regulation which may affect the gambling industry. Regulation at the state, territory and federal government levels is subject to change and Tatts Group has no control over the regulations that apply to its current or proposed activities.

The gambling activities which Tatts Group conducts, and will conduct, and the level of competition those businesses experience, and will experience, depend to a significant extent on:

- the licences, permits and other approvals granted to Tatts Group (Authorisations); and
- government policy and the manner in which the relevant governments exercise their broad powers in relation to the conduct of the relevant businesses.

Pending and/or future changes in legislation, regulation or government policy and decisions by courts and/or governments concerning the interpretation of such legislation, regulation or government policy may result in the imposition of additional taxes or other financial or operational imposts on Tatts Group's businesses which impact the way Tatts Group conducts its businesses. Such changes may reduce Tatts Group's margins, turnover, or both.

(c) Authorisation exclusivity

The exclusivity periods for the following Authorisations held by Tatts Group will expire during the term of the Tatts Bonds:

Authorisation	Expiry of Exclusivity
Queensland Race Wagering Licence (Totalisator and fixed odds betting on racing)	June 2014
South Australian Authorised Betting Operations Licence (Totalisator and fixed odds betting on racing and sports)	January 2017

Neither the Queensland nor South Australian Governments have yet foreshadowed what will occur after the expiry of the respective exclusivity periods, but the potential licensing of additional totalisator operators in either Queensland or South Australia or both could result in the introduction of one or more new entrants in those jurisdictions which would adversely affect Tatts Group's earnings.

(d) Competition

Tatts Group's lotteries businesses in Victoria and Tasmania, its gaming machine monitoring business in Queensland, its UK gaming business and Bytecraft's non-Tatts Group related operations are subject to direct competition from existing competitors. Even if Tatts Group's gaming, wagering and lotteries Authorisations are renewed, its businesses may also be subject to competition from new entrants from the time of renewal.

Technological developments (including online gaming and lottery products) have and will continue to increase competition to Tatts Group's businesses, regardless of Authorisations. Tatts Group's wagering businesses currently and have for some time competed with bookmakers in Queensland, South Australia, Tasmania and the Northern Territory and other interstate and international wagering operators who accept bets over the telephone or internet, predominantly in respect of fixed odds products. The internet and other new forms of distribution have allowed new competitors to enter Tatts Group's traditional markets of Queensland, South Australia and Tasmania without those competitors being licensed in those states. There is a possibility that competition from interstate and international operators may extend to Tatts Group's retail network in the future. This would undermine the retail exclusivity of the licences that are presently held by TattsBet in Queensland, South Australia, Northern Territory and Tasmania. State governments may be unable or unwilling to take action to preserve retail exclusivity.

Gambling also competes with other forms of consumer discretionary spending.

If Tatts Group does not adequately respond to the competition which it faces, there may be a change in consumer spending patterns which may have an adverse effect on the operational and financial performance of Tatts Group. A sustained increase in competition from new entrants may result in a material failure to grow or loss of market share or revenues.

(e) Authorisation expiry

The following Authorisations held by Tatts Group will expire during the term of the Tatts Bonds:

Authorisation	Expiry Date
Queensland Sports Wagering Licence (Totalisator and fixed odds betting on sports)	June 2014
Northern Territory Totalisator and Sports Betting Licences (Totalisator and fixed odds betting on racing and sports)	June 2015
New South Wales Centralised Gaming Machine Monitoring Licence	November 2016
Victorian Lotteries Licence	June 2018

Section 3 (continued)

Key risks of Tatts Bonds

Tatts Group cannot be certain:

- whether any of these Authorisations will be renewed or new licences, permits or authorisations will be granted to Tatts Group when these Authorisations expire;
- whether such renewal or grant process will be the subject of a competitive tender;
- if any of the Authorisations are renewed or new licences, permits or authorisations are granted to Tatts Group:
 - when they will be renewed or granted (as applicable);
 - the terms on which they will be renewed or granted by the respective state and territory governments, including amounts which might be required to be paid by way of licence fees; and
- that additional licences, permits or authorisations will not be issued to third parties.

If these Authorisations are not renewed or new Authorisations granted on terms not acceptable to or less favourable to Tatts Group, there is a possibility that this would result in Tatts Group being unable to conduct the specific businesses which operate pursuant to these Authorisations or being unable to generate revenues equal to those currently being generated by these businesses.

(f) Systems

Tatts Group operates a range of proprietary and non-proprietary information technology systems, including hardware and software, for existing and new infrastructure to conduct its wagering, lotteries and gaming businesses. Tatts Group is exposed to the risk of failure of, or significant interruption to, its information technology systems or infrastructure which may have a material adverse impact on the financial performance of Tatts Group.

Tatts Group manages this risk by having system redundancy and other back-up measures in place. However, there can be no assurance that Tatts Group's mitigation arrangements will be sufficient to entirely prevent the risk of a significant systems failure. A prolonged failure of the computer systems operated by Tatts Group which support its wagering, lotteries and gaming businesses would result in a significant loss of revenue and profit to Tatts Group as it would be unable to process bets, lottery tickets and other revenue generating transactions and this may have an adverse effect on the operational and financial performance of Tatts Group.

(g) Reliance on third parties

Tatts Group is reliant on a number of third parties for the operation of its businesses. The areas in which Tatts Group has significant reliance on third parties include:

- provision and maintenance of telecommunications infrastructure between Tatts Group's data centres and its networks of gaming venues and wagering and lottery outlets;
- provision of racing product from racing industries;
- provision of racing vision to Tatts Group's network of wagering outlets;
- maintenance services for critical hardware infrastructure;
- banking services for the collection of funds from gaming venues and wagering and lottery outlets, and the remittance of funds to governments; and
- insurance for the cover of insured losses and damage.

Failure of, or significant interruption to, third party products and services upon which Tatts Group relies for a sustained period of time may result in Tatts Group being unable to provide certain services during that period, which may have a material adverse impact on the financial performance of Tatts Group.

(h) Reputation

Tatts considers its reputation for trust and integrity as important in maintaining customer goodwill and regulatory confidence for its wagering, lotteries, gaming and other operations. A range of events, including a material non-compliance with regulations or Authorisation terms or a breach of Tatts Group's information systems leading to the occurrence of fraudulent activity such as identity theft or credit card fraud, or other disclosure of customers' personal information, could have a material adverse impact on Tatts Group's reputation and the value of its brands and increased expenditure due to additional security costs and/or potential claims for compensatory damages.

Significant disciplinary actions, the imposition of monetary fines or the loss of an Authorisation in one jurisdiction could affect Tatts Group's reputation and adversely affect its current Authorisations or future opportunities for licences, permits or approvals in other jurisdictions. The consequences of such events could be very significant for Tatts Group, including reduced revenues, increased expenses, loss of consumer trust in the relevant brand or products, and loss of a business unit.

(i) Gaming operator's licence compensation payment

Tatts Group conducts gaming operations in Victoria under a gaming operator's licence which is due to expire at midnight on 15 August 2012. When this licence expires, Tatts Group will no longer generate earnings and cash flows from the activities which are currently conducted under this licence. Bytecraft may also lose some of the revenues it currently earns from providing maintenance services to Tatts Group's gaming venues.

Tatts considers that it is entitled to receive a compensation payment of up to \$598 million from the Victorian Government upon the expiry of its gaming operator's licence in certain circumstances. The previous Victorian Government has stated that it considers that its decision to move to a new structure for the gambling industry represents an entirely new regulatory model for the operation of wagering, gaming and Keno in Victoria after the expiration of the current licences in 2012. In announcing that decision, the Victorian Government stated that it had formed the view that Tatts is not entitled to compensation. Tatts intends to pursue all of its rights and to take all appropriate action in respect of the payment, however, there is a risk that the amount claimed may be less than \$598 million and that Tatts will be unsuccessful in its claim and receive none or only some of the amount claimed.

As a result of the Victorian Government's decision, Tatts decided to fully write down the value of its gaming operator's licence and brand on its balance sheet in FY08. The accounting treatments adopted by Tatts in writing down the value of the licence and brand are in accordance with Australian Accounting Standards, particularly in relation to the gaming operator's licence, and do not reflect any assessment by Tatts of its entitlement to compensation.

(j) Taxes and levies

Taxes and levies relating to the wagering, lotteries and gaming segments of the gambling industry are currently determined by the relevant governments. A material increase in the taxes and levies payable by Tatts Group in respect of its wagering, lotteries or gaming businesses may reduce margins and have a material adverse impact on the financial performance of Tatts Group.

In addition to gambling taxes and levies, the rate of GST and corporate taxation is determined in Australia by the Federal Government. In the UK, VAT and corporate taxation is determined by the UK Government. A material increase in the taxes imposed by these governments may increase Tatts Group's expenses and have a material adverse impact on the financial performance of Tatts Group.

(k) Industry and economic conditions

The performance of Tatts Group depends to a large extent on the level of discretionary consumer spending along with other economic factors in Australia and the UK such as economic growth, interest rates, inflation, household disposable income, taxation, employment levels, consumer and business sentiment and market volatility. There can be no guarantee that the current economic environment and gambling industry conditions will remain the same and there is a risk that material adverse changes to general economic or industry conditions may have a material adverse impact on the financial performance of Tatts Group, as a consequence of the potential for customer numbers and/or spend per customer to reduce leading to a loss of revenues. Changes in government fiscal, monetary and regulatory policies could also affect the performance of Tatts Group.

(l) Race fields fees

Each state and most territories have implemented race fields fee arrangements, under which each state or territory's racing industry charges wagering operators fees for the use of that industry's race fields information. Consequently, Tatts Group is required to pay additional product fees.

Following the High Court's recent decisions in *Sportsbet v New South Wales and Betfair v Racing New South Wales*, which confirmed the validity of the New South Wales race fields regime and the approvals issued by the relevant racing control bodies and clarified the constitutionality of the New South Wales race fields regime, some states and territories have indicated that they will seek to amend the race fields arrangements to charge a fee based on a percentage of turnover rather than gross margin.

While TattsBet's Queensland, South Australian and Northern Territory businesses have contracts that allow them to offset some or all of these fees or obtain damages under contract, if all race fields fees were to be charged on a percentage of turnover, or otherwise materially increased, this could result in an increase in expenses and a corresponding reduction in margin for parts of the wagering business.

Section 3 (continued)

Key risks of Tatts Bonds

(m) Lottery Blocs

The major lotteries operated by Tatts Group in Victoria, Queensland, New South Wales, Tasmania, the Australian Capital Territory and the Northern Territory currently operate as part of national Lottery Blocs. The collation of prize funds under national Lottery Blocs provides larger prize pools which assists with the sales of certain of Tatts Group's lottery products. Discontinuation of, or significant variation to, one or more of the Lottery Blocs may reduce the size of prize pools or the size of jackpots. There is a possibility that such outcomes may affect the desirability of these products which in turn may lead to a reduction in revenues generated by these products.

(n) Impairment risk

Tatts Group assesses whether there is any indication that an asset may be impaired on an ongoing basis. When an indicator of impairment exists, Tatts Group makes a formal estimate of the recoverable amount. When the carrying amount of an asset exceeds its recoverable amount the asset is considered impaired and is written down to the recoverable amount. Adverse outcomes of some of the risk factors listed above, as well as new developments that are not currently apparent, could trigger an impairment and have a negative impact on the reported financial results of Tatts Group. While such impairments would not immediately impact on the Company's ability to pay the interest due on the Tatts Bonds, they could adversely impact Tatts Group's ability to refinance its debt obligations.

(o) Acquisition and divestment activities

From time to time, Tatts Group examines new acquisition opportunities, including the opportunity to bid for new licences, permits or approvals both domestically and internationally, which may relate to existing businesses or to new areas of operation for Tatts Group. There is a risk that Tatts Group may incur substantial costs, delays or other problems in implementing its strategy for any acquired businesses, or be unsuccessful in bidding for new businesses or licences, permits or approvals which could negatively impact Tatts Group's operations, profitability or reputation.

Tatts Group also pursues divestment strategies from time to time. There is a risk that the divestment of an existing business may be costly and may result in variability in earnings over time.

In addition, there could be liabilities that arise in connection with the businesses that Tatts Group may sell or acquire in the future, which could adversely affect Tatts Group's earnings.

(p) Other risks

There are a number of other general commercial risk factors that could adversely affect Tatts Group's financial performance, position and prospects (and therefore Tatts' ability to meet its obligations under the Tatts Bonds) including, but not limited to, the following:

- Access to funding and capital – to meet its financial obligations, Tatts Group is required to maintain sufficient cash and available funding through an adequate amount of committed credit facilities. If Tatts Group fails to appropriately manage its liquidity position, or if markets are not available generally or to Tatts Group specifically, at the time of any financing or refinancing that Tatts Group requires, there is a risk that Tatts Group's business, prospects and financial flexibility may be adversely affected.
- Key personnel – Tatts Group's businesses are dependent upon the continued performance, expertise and, where required, regulatory approval of key personnel. While efforts are made to retain key personnel, the loss of such personnel may have a material adverse impact on the financial performance of Tatts Group.
- Litigation – from time to time, members of Tatts Group may become involved in litigation and disputes. While the Company believes it has made appropriate provisions in respect of such litigation and disputes, there is a risk that the resolution of such litigation and disputes may result in those provisions being exceeded. There is also the risk that Tatts Group's reputation may suffer due to the profile of, and public scrutiny surrounding, any such litigation and disputes regardless of the outcome.

The above risks should not be taken as a complete list of the risks associated with an investment in Tatts Bonds. The risks outlined above and other risks not specifically referred to may in the future materially adversely affect the value of Tatts Bonds and their performance. Accordingly, no assurance or guarantee of future performance or profitability is given by Tatts in respect of the Tatts Bonds.

Other Holders may have different taxation consequences not addressed in this Taxation Summary.

This summary has been prepared based on the Australian income tax laws as at the date of this Prospectus. Holders should note that the law and administrative practice may change at any time. Any such change may adversely affect Holders. All references to legislative provisions are to provisions of the 1997 Act and the 1936 Act unless otherwise indicated.

(a) Character of Tatts Bonds and Division 230

The Tatts Bonds should be debt interests (not equity interests) for tax purposes. As such:

- Interest on the Tatts Bonds will not be frankable; and
- the interest withholding tax rules will apply to Interest paid to Non-resident Holders.

Division 230 contains comprehensive rules for the taxation of financial arrangements. Broadly, where Division 230 applies, the gain from a financial arrangement will be assessable, the loss from a financial arrangement may be deductible, and the recognition of the gain or loss will be determined in accordance with one of the timing methods set out in Division 230.

The Tatts Bonds should be financial arrangements and, as the Tatts Bonds will not be equity interests, they will not otherwise be generally excluded from the operation of Division 230. Where a Holder is subject to Division 230 these rules will operate to tax gains from the Tatts Bonds on an accruals or realisation basis unless an alternative timing method is chosen.

Division 230 can apply to both Australian Holders and Non-resident Holders. Division 230 should not apply to Holders who are:

- individuals;
- complying superannuation funds with a turnover and assets of less than \$100m; or
- companies with a turnover and financial assets of less than \$100m and total assets of less than \$300m, unless the Holder elects for the provisions of Division 230 to apply.

As the operation of the rules in Division 230 is complex and the application of Division 230 will depend upon the facts and circumstances of each Holder, Holders should obtain independent tax advice applicable to their personal circumstances.

(b) Interest and Guarantee Payments

(i) Australian Holders

Australian Holders will be required to include Interest on the Tatts Bonds, and any payments received under the Guarantee in respect of Interest, in their assessable income.

Where Division 230 applies, an Australian Holder will be required to recognise the Interest or Guarantee payments in accordance with the appropriate rules and timing methods in Division 230.

If Division 230 does not apply, the Interest and any Guarantee payment should generally be recognised on a cash receipts basis.

(ii) Non-resident Holders

Generally, Non-resident Holders will be subject to interest withholding tax at a rate of 10% on any Interest received.

However, Tatts intends to issue the Tatts Bonds in a manner which will satisfy the provisions of section 128F. Where the issue of Tatts Bonds does satisfy the provisions of section 128F, Interest paid to Non-resident Holders will not be subject to interest withholding tax.

The interest withholding tax exemption in section 128F will not apply to Interest paid to Non-resident Holders who are associates of Tatts.

Whilst the position is not clear, the better view is that payments made to Non-resident Holders under the Guarantee in respect of Interest should not be subject to interest withholding tax. This is especially the case if the payment under the Guarantee relates to Interest which would have been exempt from interest withholding tax under section 128F.

A Non-resident Holder will not otherwise be subject to tax on Interest which is subject to interest withholding tax or exempt from interest withholding tax under section 128F. In addition, a Non-resident Holder will not be subject to tax on payments made to Non-resident Holders under the Guarantee where those payments are not Australian sourced income.

(c) Disposal of Tatts Bonds

(i) Australian Holders

Broadly, Australian Holders will be required to include any gain on the disposal of the Tatts Bonds in their assessable income and should be entitled to a deduction for any loss realised on the disposal of the Tatts Bonds.

Where Division 230 applies, an Australian Holder will be required to calculate the gain or loss having regard to the Interest received, the disposal proceeds and the cost to the Australian Holder of the Tatts Bonds. Any gain or loss will be recognised in accordance with the appropriate rules and timing and adjustment methods in Division 230.

If Division 230 does not apply, the Tatts Bonds should be traditional securities and the gain or loss should equal the difference between the disposal proceeds and the cost to the Australian Holder of the Tatts Bonds. The gain or loss should generally be recognised in the income year in which the disposal occurs.

Although the disposal will also result in a capital gains tax (CGT) event, any capital gain or loss should be disregarded to the extent it is recognised in the manner described above.

Section 4 (continued)

Other information

(ii) Non-resident Holders

Non-resident Holders should only be subject to tax on a gain realised on the disposal of the Tatts Bonds if that gain is Australian sourced income. Whether a gain is Australian sourced income will depend on the precise facts and circumstances.

Where a gain on disposal is Australian sourced income, the calculation and recognition of the gain or loss will be determined under Division 230 or the rules relating to traditional securities.

A Non-resident Holder may nonetheless be eligible for relief from Australian tax if the Non-resident Holder is a resident of a country which has a double tax agreement with Australia.

Although the disposal will also result in a CGT event, any capital gain should be disregarded.

(d) TFN/ABN Withholding

A Holder may provide Tatts with their Tax File Number (TFN) or, in certain circumstances, their Australian Business Number (ABN) or notify Tatts of an exemption. A Holder is not required to provide Tatts with their TFN, ABN or exemption details.

If a TFN or ABN or exemption details are not provided, Tatts will be required to withhold an amount on account of tax from any Interest payments at a rate of 46.5%.

Tatts will not be required to withhold an amount on account of tax from Interest paid to Non-resident Holders where the Interest is subject to interest withholding tax or exempt from interest withholding tax under section 128F.

(e) GST

GST is not payable on the issue, receipt, disposal or Redemption of Tatts Bonds.

GST is not payable in relation to the payment of Face Value or Interest by Tatts.

(f) Stamp Duty

No stamp duty should be payable on the issue, receipt, disposal or Redemption of Tatts Bonds.

4.5 Rights and liabilities of the securities being offered

The rights and liabilities attaching to Tatts Bonds are contained in the Terms and the Trust Deed. The Terms are set out in the Appendix to this Prospectus and a summary is provided in Section 1. A summary of the Trust Deed is set out below.

Rights and liabilities attaching to Tatts Bonds may also arise under the Corporations Act, Listing Rules and other applicable laws.

4.6 Trust Deed

Tatts and the initial Guarantors entered into a Trust Deed constituted under Victorian law, with Australian Executor Trustees Limited as the trustee, on or about the date of this Prospectus. The Terms and the Tatts Bond Guarantee are set out as schedules to the Trust Deed. The Terms are also set out in the Appendix to this Prospectus.

Tatts will provide a copy of the Trust Deed upon request free of charge to potential investors during the period until the Issue Date and thereafter to Holders of Tatts Bonds. A copy of the Trust Deed can be obtained free of charge by any person who requests it during the Offer Period, by calling the Tatts Bonds Information Line on 1300 367 346 (within Australia) or +61 3 9415 4199 (international) (Monday to Friday – 9.00am to 5.00pm).

The Trustee has agreed to act as the trustee of the assets and rights held on trust for Holders (as described below) pursuant to the terms of the Trust Deed. Tatts Bonds are issued subject to the terms and conditions contained in the Trust Deed.

The Trustee is not responsible for monitoring compliance by Tatts or the Guarantors with their respective covenants and obligations under the Trust Deed or any other activities or status of the Issuer or the Guarantors except as required by law. In this regard, the Trustee is subject to certain statutory duties imposed on it under Chapter 2L of the Corporations Act including to:

- exercise reasonable diligence to ascertain whether:
 - the property of Tatts or the Guarantors that is or should be available will be sufficient to repay the amounts lent by Holders in respect of Tatts Bonds; and
 - Tatts or the Guarantors have breached the Terms, the Trust Deed or the provisions of Chapter 2L of the Corporations Act
- and unless the Trustee is satisfied the breach is not material, it must do everything in its power to ensure Tatts or the relevant Guarantor remedies such a breach.

The following is a summary only of the principal provisions of the Trust Deed.

(a) Tatts Bond Guarantee and the Guarantors

Under the terms of the Tatts Bond Guarantee, each Guarantor irrevocably and unconditionally guarantees to each Holder the performance by Tatts of all of Tatts' obligations under the Terms of the Tatts Bond and the Trust Deed and undertakes to each Holder to pay any amount accrued but unpaid under any Tatts Bonds immediately on demand.

In addition, each Guarantor indemnifies each Holder immediately on demand against any cost, loss or liability suffered by that Holder if any obligation guaranteed by it under the Tatts Bond Guarantee (or anything which would have been an obligation guaranteed by it if not unenforceable, invalid or illegal) is or becomes unenforceable, invalid or illegal.

The obligations of each Guarantor under the Tatts Bond Guarantee constitute direct, unconditional, unsubordinated and (subject to clause 4.2 of the Terms) unsecured obligations of that Guarantor and rank at least equally with all present and future unsubordinated and unsecured debt obligations of the Guarantor (subject to laws and principles of equity generally affecting creditors' rights or as provided by operation of law).

In certain circumstances, a Guarantor may incur obligations that rank ahead of the Guarantee. In particular, they could create a security with respect to certain types of indebtedness (being indebtedness which is not Relevant Indebtedness) or could otherwise create a Permitted Security Interest in the circumstances described in Section 1.5. In the event of a winding up of a Guarantor, Holders would be entitled to receive a payment under the Guarantee in respect to Tatts Bonds only after such secured creditors of the Guarantor (and claims mandatorily preferred by law) are paid in full.

Section 4 (continued)

Other information

Under the Trust Deed, Tatts must ensure that each member of the Tatts Group which has an outstanding guarantee with respect to Tatts' syndicated multi-currency revolving facility agreement or equivalent agreement is a Guarantor under the Tatts Bond Guarantee in respect of the Tatts Bonds. Accordingly, the members of the Tatts Group that comprise the Guarantors may change prior to the maturity of the Tatts Bonds.

Similarly, if at any time a member of the Tatts Group is released from its guarantee obligations under Tatts' syndicated multi-currency revolving facility agreement or equivalent agreement (which might occur if Tatts obtained the consent of certain of its other existing financiers), Tatts will be able to automatically release that member of the Tatts Group from its obligations under the Tatts Bond Guarantee in respect of the Tatts Bonds and it would therefore cease to be a Guarantor in respect of the Tatts Bonds.

(b) Priority of the Trustee

All moneys that are received by the Trustee under the Trust Deed will be applied first in payment of any amounts owing to the Trustee in connection with the Trust Deed, secondly in or towards payment of all amounts of Interest due but unpaid under the Tatts Bonds to the relevant Holders and third in or towards payment of all amounts of principal due but unpaid under the Tatts Bonds to the relevant Holders. The balance (if any) of the money remaining after those payments will be returned to Tatts.

(c) Appointment of Trustee and declaration

The Trustee holds on trust for Holders:

- a trust settlement sum of \$10.00;
- the right to enforce Tatts' duty to repay under the Tatts Bonds;
- the right to enforce Tatts' obligation to pay all other amounts payable under the Tatts Bonds;
- the right to enforce any other duty or obligation that Tatts or any Guarantor has under the Terms, the Trust Deed or Chapter 2L of the Corporations Act;
- any other property held by the Trustee on trust under the Trust Deed (including, without limitation, the benefit of any covenants, undertakings, representations, warranties, rights, powers, benefits or remedies in favour of the Trustee under the Trust Deed).

(d) Tatts undertakings

- pay the amount due and payable in respect of the Tatts Bonds under and in accordance with the Trust Deed;
- comply with its obligations under the Terms;
- comply with all statutory and regulatory requirements applicable to it (including under Chapter 2L of the Corporations Act) to the extent they relate to obligations under the Trust Deed, where failure to do so would be likely to have a material adverse effect on the business, property, condition or operations of Tatts and the Guarantors (taken as a whole), or the ability of Tatts and the Guarantors (taken as a whole) to perform their obligations under the Trust Deed, or the validity or enforceability of the whole or any material part of the Trust Deed or any rights or remedies of the Holders (or the Trustee on behalf of the Holders) under this Deed.

(e) Trustee Limitation of Liability

The Trustee is not liable to Tatts, any Guarantor, the Holders or any other person in any capacity other than as Trustee of the Trust Deed, except where the Trustee acts fraudulently, negligently or wilfully defaults under the Trust Deed.

(f) Action by Trustee

The Trustee is required at all times, to act in accordance with its obligations under the Terms, the Trust Deed, the Corporations Act and applicable law.

Subject to the Trust Deed, the Trustee need not take any action to enforce the Trust Deed in accordance with its terms unless all of the following conditions are met:

- the Trustee is requested to take action by Holders who hold in aggregate one fifth or more of the Face Value of all Tatts Bonds then outstanding or by a Special Resolution; and
- the Trustee is indemnified to its reasonable satisfaction against:
 - all actions, proceedings, claims and demands to which the Trustee may render itself liable by taking such action;
 - all costs, charges, fees and expenses which the Trustee may incur in taking the action; and
 - all management time spent by employees or officers of the Trustee in relation to such action; and
- the action is not prohibited under the Trust Deed and the Trustee is not restricted or prohibited by any order of any competent court or any applicable law.

(g) Direct action by Holder

No Holder is entitled to proceed directly against Tatts or a Guarantor to enforce any right or remedy under or in respect of any Tatts Bond, unless the Trustee, having become bound to proceed, fails to do so within a reasonable period and such failure is continuing.

(h) Fees and expenses

Under the Trust Deed, Tatts will pay the Trustee by way of a fee for its services such amounts as may be agreed between Tatts and the Trustee. The agreed fees are an initial establishment fee of \$6,000 (exclusive of GST) and an annual fee of up to \$25,000 (exclusive of GST). Tatts and the Guarantors will also pay the Trustee's costs and expenses arising out of, among other things, the Trustee acting as trustee under the Trust Deed (including reasonable legal fees, costs and disbursements) as well as additional fees for any enforcement action that the Trustee takes in relation to the Trust Deed following the occurrence of an Event of Default or any duties agreed by Tatts to be outside the scope of the normal duties of the Trustee.

(i) Retirement and removal

The Trustee may retire by giving written notice to Tatts, which will not be effective until 60 days after the date of the notice has passed and provided that the appointment of a new trustee is effective. The Trustee may be removed by Tatts if, among other things:

- the Trustee cannot be a trustee under section 283AC of the Corporations Act;
- the Trustee has acted fraudulently, negligently or is in wilful default, or is in breach of trust or in breach of section 283DA of the Corporations Act, and where such breach is capable of rectification, the Trustee has not rectified the breach within seven Business Days of receiving a notice from Tatts of its occurrence;
- any licence, consent, authorisation or similar thing the Trustee is required to hold to carry out its obligations under the Trust Deed is revoked or not renewed;
- Tatts is requested to do so by a meeting of Holders called under the Trust Deed;
- the Trustee becomes subject to an Insolvency Event.

Tatts must appoint a new trustee following the retirement or removal of the Trustee.
