ABOUT THIS PROSPECTUS

This Prospectus relates to the offer by Suncorp Group Limited (ABN 66 145 290 124) ("**Suncorp**") of Suncorp Subordinated Notes ("**Notes**") to raise \$700 million with the ability to raise more or less (the "**Offer**").

This Prospectus is dated and was lodged with the Australian Securities and Investments Commission ("**ASIC**") on 18 April 2013 pursuant to section 713(1) of the Corporations Act. This is a replacement prospectus which replaces the prospectus dated 10 April 2013 and lodged with ASIC on that date ("**Original Prospectus**"). This Prospectus expires on the date ("**Expiry Date**") which is 13 months after 10 April 2013 (being the date of the Original Prospectus) and no Notes will be issued on the basis of this Prospectus after the Expiry Date.

Neither ASIC nor the Australian Securities Exchange ("**ASX**") takes any responsibility for the contents of this Prospectus or the merits of the investment to which this Prospectus relates.

This Prospectus also contains information in relation to, amongst other things, an offer by Suncorp to purchase some or all of the CPS of Eligible CPS Holders ("**Reinvestment Offer**"). Neither Suncorp, Suncorp-Metway Limited ("**SML**") nor any other person is providing any investment advice or making any recommendation to Eligible CPS Holders in respect of the Reinvestment Offer.

DEFINED WORDS AND EXPRESSIONS

Certain capitalised words and expressions used in this Prospectus have defined meanings which are explained in the Glossary in Appendix B of this Prospectus and in the terms and conditions of the Notes as set out in Appendix A. If there is any inconsistency in definitions between Appendix A and Appendix B, the definitions in Appendix A prevail.

Unless otherwise stated or implied, references to times in this Prospectus are to Australian Eastern Standard Time.

OFFER AND ISSUER

The Offer contained in this Prospectus is an offering by Suncorp of Notes at \$100 per Note to raise \$700 million with the ability to raise more or less.

The Notes will be issued by Suncorp, an ASX-listed company incorporated in Australia. Suncorp is the ultimate parent company of a group of general insurance, banking and life insurance businesses. References in this Prospectus to Suncorp are to the holding company on a standalone basis and references to the **Suncorp Group** or the **Group** are to Suncorp and its subsidiaries on a consolidated basis.

This Prospectus describes the activities and the financial performance and position of the Suncorp Group.

THE NOTES ARE UNSECURED AND SUBORDINATED

The Notes are subordinated and unsecured. On a winding up of Suncorp, there is a risk that you may lose some or all of the money you invested in the Notes because if there are insufficient assets to satisfy securities and obligations ranking ahead of the Notes, you will not be repaid any or all of the Face Value and will not receive any or all of the Interest payments due and unpaid at that time.

The Notes are unsecured notes for the purposes of section 283BH of the Corporations Act. The Notes are issued by Suncorp under the Trust Deed and Holders have no direct right to claim against Suncorp except as provided in the Trust Deed (which includes the terms of the Notes).

THE NOTES ARE NOT DEPOSIT OR POLICY LIABILITIES OF SUNCORP, OR ANY OTHER MEMBER OF THE SUNCORP GROUP AND ARE NOT PROTECTED ACCOUNTS OR POLICIES AND ARE NOT GUARANTEED

The Notes are not:

- deposits or policy liabilities of Suncorp, or any other member of the Suncorp Group;
- protected accounts for the purposes of the depositor protection provisions in Division 2 of Part II of the Banking Act or of the Financial Claims Scheme established under Division 2AA of Part II of the Banking Act;
- protected policies for the purposes of the policyholder protection provisions of the *Insurance Act 1973* (Cth); and
- guaranteed or insured by any government, government agency or compensation scheme of Australia or any other jurisdiction.

The examination may result in the identification of certain deficiencies in this Prospectus in which case any Application may need to be dealt with in accordance with section 724 of the Corporations Act. Applications received during the Exposure Period will not be processed until after the expiry of that period. No preference will be conferred on Applications received during the Exposure Period.

One Company
Many Brands

Dear Investors,

On behalf of the Directors, I am pleased to present you with an opportunity to invest in Suncorp Subordinated Notes ("**Notes**").

The Notes are unsecured, subordinated and cumulative notes. They will be issued by Suncorp and are intended to be listed on ASX. Subject to the terms and conditions outlined in this Prospectus, Holders will be entitled to receive floating rate, cumulative interest payments, payable quarterly in arrears. The Interest Rate will be equal to the Bank Bill Rate plus a margin of 2.85% per annum.

The Notes will mature on 22 November 2023, except in specified circumstances as set out in the Conditions (and further described in this Prospectus). Suncorp has the right to redeem the Notes from 22 November 2018, but is not obliged to do so. The key features of the Notes are set out in Section 2 of this Prospectus.

Suncorp intends to raise \$700 million through the offer of Notes with the ability to raise more or less. This offer will raise Tier 2 regulatory capital which forms part of our capital management strategy. The proceeds from the offer will be used for general corporate, funding and capital management purposes, including the refinancing in part of the \$735 million of Convertible Preference Shares ("**CPS**") issued by Suncorp-Metway Limited ("**SML**") in 2008. If you currently hold any of the CPS you may be eligible to sell some or all of them to Suncorp and reinvest the proceeds in Notes. SML currently expects to conduct a resale of all remaining CPS to Suncorp on 14 June 2013. Section 6 of this Prospectus outlines the Reinvestment Offer.

On behalf of the Directors, I encourage you to read this Prospectus carefully and consider the risk factors set out in Section 5. If, after reading this Prospectus, you have any questions about the offer or how to apply for Notes under the Reinvestment Offer and Securityholder Offer, please call the Notes Offer Information Line on 1300 882 012 (within Australia) or +61 1300 882 012 (outside Australia) Monday to Friday – 8:00am to 7:30pm (Sydney time). 1. Investment overview

This Section provides a summary of information that is key to a decision whether to invest in Notes. You should read this Prospectus in full before deciding to apply for Notes.

1. Investment overview

1.1 Key features of the Offer

TOPIC	SUMMARY	FURTHER INFORMATION
What is the Offer?	<ul style="list-style-type: none">• The Offer is for the issue of Notes to raise \$700 million with the ability to raise more or less.	Section 7.1
Who is the issuer?	<ul style="list-style-type: none">• The issuer is Suncorp Group Limited ("Suncorp").	Sections 1.2 and 3
What are the Notes?	<ul style="list-style-type: none">• The Notes are unsecured, subordinated, cumulative notes to be issued by Suncorp.• The Notes will mature on 22 November 2023 provided the Solvency Condition is satisfied on that date, unless before that date, the Notes are redeemed or a Non-Viability Trigger Event occurs.• The Face Value and issue price is \$100 per Note.	Section 2
Why is Suncorp issuing the Notes?	<ul style="list-style-type: none">• Suncorp is issuing the Notes to raise funds and to create regulatory capital which satisfies the Australian Prudential Regulation Authority's ("APRA") regulatory capital requirements. The Notes and Suncorp's other equity capital help to protect Suncorp Group's depositors, policyholders and other creditors by providing a loss-absorbing capital buffer which supports losses that may be incurred by the Suncorp Group.• The proceeds from the Offer will be used for general corporate, funding and capital management purposes, including the refinancing in part of CPS.	Section 2.5

1.2 Key features of the Notes

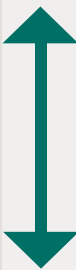

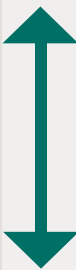

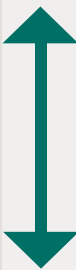

TOPIC	SUMMARY	FURTHER INFORMATION
What are the key features of the Notes which I should be aware of?	<ul style="list-style-type: none">• The key features of the Notes are summarised in this Section 1.2 and explained in more detail in Section 2. The Conditions relating to the Notes are complex and derive from the detailed capital requirements which APRA applies to these instruments.• There are two important concepts which Holders should be aware of which affect whether Holders will receive payments on the Notes. These are as follows:<ul style="list-style-type: none">– Solvency Condition – Suncorp's obligations to make payments in respect of the Notes (including to pay Interest and to repay the Face Value on maturity) are conditional on Suncorp being solvent at the time of the payment and immediately after making the payment.– Non-Viability Trigger Event – broadly occurs where APRA determines that the conversion or write off of Relevant Capital Instruments (and potentially including the Notes) is necessary because without that conversion or write off or a public sector injection of capital, APRA considers that Suncorp would become non-viable.	Section 2

TOPIC	SUMMARY	FURTHER INFORMATION
What Interest is payable on the Notes?	<ul style="list-style-type: none"> Interest in respect of a Note is a floating rate cumulative payment to be paid quarterly in arrears, subject to the Solvency Condition. The Interest Rate is calculated using the Bank Bill Rate plus the Margin. The Margin is 2.85%, as determined under the Bookbuild. Interest payments will be made wholly in cash and will not have any franking credits attached to them. 	Section 2.2
Will Interest always be paid?	<ul style="list-style-type: none"> Interest is not discretionary or deferrable and must be paid if the Solvency Condition is satisfied. However, if a Non-Viability Trigger Event occurs, Suncorp's obligation to pay Interest on the relevant Notes will cease. If the Solvency Condition is not satisfied on a particular Interest Payment Date, Interest will not be paid on that date. A failure to pay Interest because of the Solvency Condition is not an Event of Default. However any unpaid Interest amount will accrue interest until it is paid and will be payable on the first Business Day on which Suncorp meets the Solvency Condition. 	Section 2.2
Will I get my capital back?	<ul style="list-style-type: none"> There is no guarantee that Holders will get their capital back. If the Solvency Condition is satisfied, Suncorp will redeem any Notes still on issue on the Maturity Date, being 22 November 2023. For each Note held by a Holder, that Holder will receive: <ul style="list-style-type: none"> the Face Value; plus any accrued and unpaid Interest to the Maturity Date. If a Non-Viability Trigger Event occurs, Suncorp's obligation to pay the Face Value as well as Interest on the Notes will cease. 	Section 2.3
Can Suncorp redeem the Notes early?	<ul style="list-style-type: none"> Subject to APRA's prior written approval, Suncorp may redeem: <ul style="list-style-type: none"> some or all of the Notes on 22 November 2018 or any subsequent Interest Payment Date; or all (but not some) of the Notes on the occurrence of a Tax Event or a Regulatory Event. Suncorp may only elect to redeem Notes if certain restrictions are complied with. Holders should not expect APRA will give its approval for any redemption. Holders have no right to request Suncorp to redeem the Notes before the Maturity Date. 	Section 2.3

1. Investment overview

(continued)

TOPIC	SUMMARY	FURTHER INFORMATION
Will the Notes Convert to Ordinary Shares?	<ul style="list-style-type: none">• If a Non-Viability Trigger Event occurs, Suncorp must immediately determine to Convert some or all of the Notes into Ordinary Shares in accordance with APRA's determination.• If Conversion occurs in this circumstance, Holders may receive Ordinary Shares that are worth significantly less than the Face Value of the Notes.• In cases where Suncorp is prevented for any reason from Converting Notes into Ordinary Shares within five Business Days after the Non-Viability Conversion Date, the rights of the Holder (including to the payment of Interest and Face Value) in relation to that Holder's Notes are immediately and irrevocably written off and terminated and Holders will suffer loss as a result.• If a Holder has notified Suncorp that it does not wish to receive Ordinary Shares as a result of Conversion, which notice may be given any time on or after the Issue Date and no less than 15 Business Days prior to the Non-Viability Conversion Date then, subject to applicable law, on the Non-Viability Conversion Date, Suncorp will issue the relevant number of Ordinary Shares to the Trustee (or other nominee appointed by Suncorp) who will hold the Ordinary Shares on trust for sale for the benefit of the relevant Holder.• Given the 15 day notice period required and that a Non-Viability Conversion Date could be determined without notice, Holders should notify Suncorp promptly after purchase if they do not wish to receive Ordinary Shares.• Where the Notes held by a Foreign Holder are required to be Converted, the relevant number of Ordinary Shares may also be issued to the Trustee or other nominee to hold on trust for sale for the benefit of those Holders.• If Suncorp is prevented for any reason from issuing the Ordinary Shares to the Trustee or other nominee, the rights in relation to the Notes will be immediately and irrevocably written off and terminated in the same way as described above.	Section 2.4
Are the Notes secured?	<ul style="list-style-type: none">• The Notes are not secured over any of Suncorp Group's assets. They are also not deposit liabilities or policy liabilities of Suncorp or any other member of the Suncorp Group and are not protected accounts under the Banking Act or protected policies under the <i>Insurance Act 1973</i> (Cth).	Section 2.5

TOPIC	SUMMARY	FURTHER INFORMATION															
How would Notes rank in a winding up of Suncorp?	<ul style="list-style-type: none"> In a winding up of Suncorp, Notes rank for payment: <ul style="list-style-type: none"> – ahead of the claims of all Shareholders; – ahead of all unsecured subordinated obligations of Suncorp under instruments issued as Relevant Tier 1 Capital Instruments, including CPS2; – equally among themselves; – equally with all other subordinated and unsecured obligations of Suncorp under instruments issued as Relevant Tier 2 Capital Instruments; – but behind Suncorp's other Unsubordinated Creditors, as shown in the table below. However, any return in a winding up may be adversely affected if APRA determines that a Non-Viability Trigger Event has occurred. If a Non-Viability Trigger Event occurs, a Holder will either become an ordinary shareholder (if their Notes are Converted) or have no claim against Suncorp at all in respect of their Notes (if their Notes are written off and terminated). <table border="1"> <thead> <tr> <th></th><th>TYPE</th><th>ILLUSTRATIVE EXAMPLES</th></tr> </thead> <tbody> <tr> <td rowspan="4">Higher ranking </td><td>Preferred and secured debt</td><td>Liabilities preferred by law including employee entitlements and secured creditors</td></tr> <tr> <td>Unsubordinated and unsecured debt</td><td>Bonds and notes, trade and general creditors</td></tr> <tr> <td>Subordinated and unsecured debt</td><td>The Notes and other subordinated and unsecured debt obligations ranking equally with the Notes</td></tr> <tr> <td>Preference shares</td><td>CPS2 and other preference shares that may be issued</td></tr> <tr> <td>Lower ranking</td><td>Ordinary Shares</td><td>Ordinary Shares</td></tr> </tbody> </table> <ul style="list-style-type: none"> Suncorp will have the right to incur further debt that ranks in priority or equally with the Notes without the consent of Holders. 1.3 Summary of certain events that may affect what Holders receive and when they receive it

The table below summarises certain events that may affect what Holders may receive on the Notes. The events are subject to contingencies such as the solvency and/or non-viability of Suncorp and in some cases election by Suncorp and accordingly may not occur.

EVENT	WHEN?	ARE THERE PRE-CONDITIONS TO THE EVENT?	WHAT VALUE WILL A HOLDER RECEIVE?	IN WHAT FORM WILL THAT VALUE BE PROVIDED TO HOLDERS?	WHERE TO FIND FURTHER INFORMATION?
Optional Redemption at Suncorp's discretion	On 22 November 2018 or any subsequent Interest Payment Date	Yes. APRA approval ¹ , Suncorp Group adequately capitalised and Suncorp being solvent	\$100 plus the value of any accrued and unpaid Interest	Cash	Section 2.3

Redemption in other circumstances at Suncorp's discretion	If a Tax Event or Regulatory Event occurs	Yes. APRA approval ¹ , Suncorp Group adequately capitalised and Suncorp being solvent	\$100 plus the value of any accrued and unpaid Interest	Cash	Section 2.3
Conversion upon Non-Viability Trigger Event	The date a Non-Viability Trigger Event occurs	Yes, APRA determination of non-viability	Between \$101 (and possibly significantly less) and zero	Variable number of Ordinary Shares up to a maximum number ² However, if Suncorp is unable to Convert the Notes they will be written off in which case Holders will receive zero ³	Section 2.4

1.5 Key differences between term deposits, Notes, CPS2 and CPS

The Notes are different from term deposits. In particular, the Notes are issued by Suncorp which is the non-operating holding company of the Suncorp Group, including Suncorp Bank, General Insurance and Suncorp Life. Suncorp is not an Authorised Deposit-taking Institution (ADI) or an APRA regulated insurer. The return on the Notes is not guaranteed by Suncorp, Suncorp Bank, General Insurance, Suncorp Life or any other member of the Suncorp Group.

The Notes are also different from Suncorp's convertible preference shares (CPS2), issued by Suncorp in 2012. You should consider these differences in light of your investment objectives, financial situation and particular needs (including financial and taxation issues) before deciding to apply for Notes.

The key differences are summarised in the table below.

2. About Notes

(continued)

2.4 Consequences of a Non-Viability Trigger Event

The Conditions contain certain features which may be triggered where Suncorp encounters severe financial difficulty. These features are required to be included in the Conditions in order for the Notes to be eligible for inclusion within Suncorp Group's Tier 2 capital for prudential regulatory purposes. The occurrence of a "Non-Viability Trigger Event" requires the Conversion of some or all of the Notes into Ordinary Shares. The number of Ordinary Shares a Holder will receive on Conversion will not be greater than the Maximum Conversion Number.

As a Conversion in these circumstances is likely to occur during a time of financial difficulty for Suncorp, depending on the market price of Ordinary Shares at the relevant time, Holders may receive less, or significantly less, than the Face Value of the Notes and a Holder may suffer a loss as a consequence. The calculations set out on page 26 are illustrative only and designed to demonstrate the potential number and value of Ordinary Shares that a Holder would receive on a Conversion where there is a Non-Viability Trigger Event.

If a Holder's Notes cannot be Converted for any reason, the Holder's rights (including to the payment of Interest and Face Value) in relation to the Notes will be immediately and irrevocably written off and terminated and the Holder will lose all of the money invested in the Notes.

TOPIC	SUMMARY	FURTHER INFORMATION
Non-Viability Trigger Event	<ul style="list-style-type: none"> A Non-Viability Trigger Event occurs when APRA provides a written determination to Suncorp that the conversion or write off of Relevant Capital Instruments is necessary because: <ul style="list-style-type: none"> without that conversion or write off; or without a public sector injection of capital into, or equivalent capital support in respect to, Suncorp, APRA considers that Suncorp would become non-viable. A determination by APRA may specify that the conversion or write off is of: <ul style="list-style-type: none"> all Relevant Capital Instruments (including the Notes); or an amount of the Relevant Capital Instruments, determined by Suncorp, to satisfy APRA that conversion or write off of that amount will be sufficient to ensure that Suncorp does not become non-viable. 	Clause 5.1
Definition of "Non-Viability"	<ul style="list-style-type: none"> APRA has not provided guidance as to how it would determine non-viability. Non-viability would be expected to include serious impairment of Suncorp's financial position and insolvency. However it is possible that APRA's definition of non-viable may not necessarily be confined to solvency measures or capital ratios. As at the date of this Prospectus, APRA has indicated that it will not publish further guidance on the parameters used to determine non-viability. 	
Conversion following a Non-Viability Trigger Event	<ul style="list-style-type: none"> If a Non-Viability Trigger Event occurs, Suncorp must immediately Convert some or all of the Notes into Ordinary Shares in accordance with APRA's determination. If on the occurrence of a Non-Viability Trigger Event Suncorp is required to convert only an amount of Relevant Capital Instruments, Suncorp will first convert or write off all Relevant Tier 1 Capital Instruments before Conversion of the Notes. At the date of this Prospectus, Suncorp has on issue \$560 million of Relevant Tier 1 instruments (CPS2) and accordingly, so long as that remains the case, if a Non-Viability Trigger Event occurred Suncorp would not be required to convert the Notes unless the amount of Relevant Capital Instruments required by APRA to be converted or written off exceeds \$560 million. Suncorp has no obligation to maintain any Relevant Tier 1 Capital Instruments on issue and gives no assurance that it will do so. If conversion or write off of Relevant Tier 1 Capital Instruments is less than the amount sufficient to satisfy APRA that Suncorp would not become non-viable, Suncorp will Convert Notes and convert or write off other Relevant Tier 2 Capital Instruments in an aggregate amount which when added to the amount of Relevant Tier 1 Capital Instruments converted or written off will satisfy APRA that Suncorp would not become non-viable. 	Clause 5.2

TOPIC	SUMMARY	FURTHER INFORMATION
Conversion following a Non-Viability Trigger Event (continued)	<ul style="list-style-type: none"> • In Converting Notes or converting or writing off other Relevant Tier 2 Capital Instruments, Suncorp will endeavour to treat Holders and holders of other Relevant Tier 2 Capital Instruments on an approximately proportionate basis, but may discriminate to take account of the effect on marketable parcels of Notes and other logistical considerations. • From the date the Non-Viability Trigger Event Occurs, Suncorp will treat Holders as having been issued the Conversion Number of Ordinary Shares. Suncorp expects any ASX trades in Notes that have not settled on the date a Non-Viability Trigger Event occurs will continue to settle in accordance with the normal ASX T+3 settlement, although Suncorp expects the seller will be treated as having delivered, and the buyer will be treated as having acquired, the Conversion Number of Ordinary Shares into which Notes have been Converted as a result of the occurrence of the Non-Viability Trigger Event. • Further, Suncorp may make such decisions with respect to the identity of Holders as at the Non-Viability Conversion Date as may be necessary or desirable to ensure that the Conversion occurs in an orderly manner, including disregarding any transfers of Notes that have not been settled or registered at that time. • Suncorp must give Holders notice as soon as practicable after a Non-Viability Trigger Event has occurred, including details of the number of Notes Converted. <p>If the Holder is a Foreign Holder</p> <ul style="list-style-type: none"> • Where Notes held by a Foreign Holder are required to be Converted, Suncorp may in certain circumstances issue the Ordinary Shares which the Foreign Holder is obliged to accept to the Trustee (or other nominee) who will sell those Ordinary Shares and pay the proceeds net of selling costs. <p>If a Holder does not wish to receive Ordinary Shares upon Conversion</p> <ul style="list-style-type: none"> • A Holder may notify Suncorp that it does not wish to receive Ordinary Shares as a result of Conversion, but to do so it must give the notice at least 15 Business Days prior to the Non-Viability Conversion Date. At the first opportunity to sell the Ordinary Shares, the Trustee or nominee will arrange for the sale of the Ordinary Shares on behalf of the relevant Holder and pay the proceeds net of selling costs to the Holder. If Suncorp is prevented for any reason from issuing the Ordinary Shares to the Trustee or other nominee, the rights in relation to the Notes will be immediately and irrevocably written off and terminated. • Suncorp and the Trustee do not owe any obligations or duties to the Holders in relation to the price at which Ordinary Shares are sold and have no liability for any loss suffered by a Holder as a result of the sale of Ordinary Shares.

Conversion Number	<ul style="list-style-type: none"> The number of Ordinary Shares a Holder will receive per Note on account of a Non-Viability Trigger Event is the Conversion Number (calculated as described below) but cannot be more than the Maximum Conversion Number. The Ordinary Shares a Holder may receive on account of a Non-Viability Trigger Event may be worth significantly less than the Face Value of the Notes and a Holder may suffer a loss as a consequence. The Conversion Number in the event of a Conversion following a Non-Viability Trigger Event is calculated in accordance with the following formula, subject to the Conversion Number being no greater than the Maximum Conversion Number: $\text{Conversion Number} = \frac{\$100}{99\% \times \text{VWAP}}$ <p>where:</p> <ul style="list-style-type: none"> VWAP is the volume weighted average price of Ordinary Shares during the period of five Business Days on which trading in Ordinary Shares took place immediately preceding (but not including) the Non-Viability Conversion Date. Conversion Number (continued)	<p>On the basis of the assumptions made in Step 1 above, and an Issue Date VWAP of \$11.00 and a Relevant Fraction of 0.2, the Maximum Conversion Number would be 45.45 (being $\\$100/(\\$11.00 \times 0.2)$).</p> <p>Step 3 – calculate the number of shares to be received</p> <p>Since the Conversion Number of 101.01 is greater than the Maximum Conversion Number, the number of Ordinary Shares which the holder of 100 Notes would receive, would be 4,545.</p> <p>The market value of the Ordinary Shares received based on the Maximum Conversion Number is likely to be approximately \$4,545 which is considerably less than \$10,000 (which is the aggregate issue price of 100 Notes of \$100 each).</p>	
Adjustments to the Issue Date VWAP	<ul style="list-style-type: none"> • The Issue Date VWAP, and consequently the Maximum Conversion Number, will be adjusted to reflect a consolidation, division or reclassification of Suncorp's share capital and pro rata bonus issues of Ordinary Shares, as set out in the Conditions (but not other transactions, including rights issues, which may affect the capital of Suncorp). • However, no adjustment shall be made to the Issue Date VWAP where such adjustment (rounded if applicable) would be less than one per cent of the Issue Date VWAP then in effect. An Inability Event occurs if the Notes cannot be Converted	<ul style="list-style-type: none"> • If, following a Non-Viability Trigger Event, Suncorp is prevented by applicable law or any other reason from Converting Notes (within five Business Days after the Non-Viability Conversion Date) which would otherwise be Converted (an "Inability Event"), the Notes will not be Converted but instead, Holders' rights (including to the payment of Interest and Face Value) in relation to the Notes will be immediately and irrevocably written off and terminated. • The laws under which an Inability Event may arise include laws relating to the insolvency, winding up or other external administration of Suncorp. Complete customer growth of **35%**

Note: Branch, business centre and ATM data as at 28 February 2013. New branch openings and customer growth data since 1 January 2010.

Suncorp Bank's non-core banking portfolio was formed in 2009 as a result of a strategic review of its Banking operations. The Bank's former corporate banking, property investment and development finance divisions were placed into an \$18 billion run-off portfolio. At the time the Bank considered the strategic options available, given the prevailing market conditions, that aimed to maximise shareholder value. As a result the Bank embarked on an orderly run-off strategy. The portfolio is closed to new business and is now in advanced stages of run-off with outstanding balances of \$3.4 billion at 31 December 2012, including an impaired portfolio of \$1.6 billion as at 31 December 2012. The orderly run-off strategy, focusing on maximising shareholder value continues to be executed. The Bank has previously set a strategic target for the outstanding portfolio balance to be approximately \$3.0 billion by 30 June 2013. The Bank remains confident that the current strategy will ensure it exceeds this target, and now expects the outstanding balance to be \$2.7 billion or below by 30 June 2013. Given the continued improvements in market conditions occurring recently, along with the Bank achieving its original strategic 30 June target for the portfolio, the Suncorp Group recently announced that it will consider its strategic options for the remaining non-core portfolio. The focus will continue to be on executing strategies designed to maximise shareholder value.

3. About Suncorp

(continued)

3.6 Reinsurance program

The Suncorp Group enters into a number of reinsurance arrangements. These arrangements allow the Suncorp Group to limit its risk from particular lines of business or from specific events, such as natural catastrophes, and to increase its capacity to write new policies. Under these arrangements, other insurers and reinsurers assume a portion of the Suncorp Group's exposure to reported and unreported losses in exchange for a premium.

Suncorp Group's General Insurance business has a significant reinsurance program. Reinsurance security has been renewed for the financial year to 30 June 2013 to provide similar levels of protection to the 2012 financial year program.

Suncorp Group has a significant share of the Queensland home insurance market and, to reduce its geographical concentration, the Suncorp Group has entered into a 30%, multi-year, sharing arrangement (known as proportional quota share reinsurance) covering this portfolio from 30 June 2012.

As a result, the upper limit on Suncorp Group's main catastrophe program, which covers the Suncorp Group's home, motor and commercial property portfolios for major events such as earthquakes, cyclones, storms, floods and bushfires, has reduced to \$5.3 billion from \$5.8 billion.

The maximum event retention is \$250 million. Additional cover has been purchased to reduce this retention to \$200 million for a second Australian event.

Additional multi-year cover has also been purchased to reduce the first event retention for New Zealand risks to NZ\$50 million and the second and third event retentions to NZ\$25 million.

The Group is exposed to the risk that its reinsurers default on, or dispute, their obligation to pay valid claims. To manage this risk, the Group purchases reinsurance from counterparties with high credit ratings. The overall credit quality of the 2013 financial year program is high, with over 85% of long tail and short tail business protected by reinsurers rated 'A+' or better.

3.7 Regulation

As a provider of general insurance, banking, life insurance and superannuation products, the Group is subject to ongoing oversight by financial services regulators in the markets in which it operates.

3.7.1 AUSTRALIA

APRA

APRA regulates companies operating in the Australian financial services industry. APRA has established prudential standards for all general insurers, banks and life insurance companies and, as at the date of this Prospectus, is in the process of developing standards for conglomerate groups (due for implementation in January 2014).

From 1 January 2013, the Suncorp Group was required to comply with the Basel III framework (for Australian authorised deposit taking institutions) and APRA's revised capital standards for general insurers and life insurers, referred to as LAGIC (for regulated general and life insurance entities).

The Basel III reforms included stricter eligibility criteria for capital instruments, introduction of capital conservation and countercyclical buffers. The LAGIC reforms are aimed at improving the risk sensitivity of capital standards.

3.7.2 NEW ZEALAND

Reserve Bank of New Zealand

The Reserve Bank of New Zealand ("**RBNZ**") regulates Suncorp Group's general and life insurance businesses in New Zealand. Regulations in relation to these businesses have been significantly revised in recent years including new licensing requirements, required capital methodologies and reinsurance purchase requirements (up to a 1-in-1,000 year event).

The new regulatory regime is expected to have limited impact on the Group's New Zealand business as existing governance frameworks are consistent with the new regulatory requirements and expected to be fully compliant within the transitional timeframe.

The cost of acquiring Ordinary Shares on market for the DRP is included in the cash disbursement amount.
- 2 Assumes \$735 million CPS issued by SML which have a mandatory conversion date of 14 June 2013 were purchased by Suncorp on 31 December 2012 and SML effectively cancels the CPS held by Suncorp on 31 December 2012. This results in a decrease in the CPS liability carried at amortised cost of \$733 million and a decrease in retained profits of \$2 million in respect of the amortisation of transaction costs. Actual carrying amounts and impact on retained profits on the mandatory conversion date may be different to the amounts at 31 December 2012.
- 3 Assumes \$700 million of Notes were issued on 31 December 2012, net of issue transaction costs of \$14 million. The actual issue amount may be more or less than \$700 million.

4.4 Capital management

The capital management strategy of the Suncorp Group is to optimise shareholder value by managing the level, mix and use of capital resources both at a Group level and at the regulated entity level. The main objectives are to ensure there are sufficient capital resources to maintain the business and operational requirements of the Suncorp Group, retain sufficient capital to exceed externally imposed capital requirements, and ensure the Suncorp Group's ability to continue as a going concern. The Suncorp Group's capital policy is that each regulated entity is separately capitalised to meet internal and external requirements. Additional capital to meet General Insurance and Suncorp Life target capital is also held in the NOHC, together with any surplus capital.

The Suncorp Group uses a range of instruments and methodologies to effectively manage capital including share issues, dividend policies and Tier 1 hybrid and Tier 2 subordinated note issues.

The Suncorp Group's capital policy is reviewed regularly and where appropriate, adjustments are made to internal capital targets to reflect changes in economic conditions and risk characteristics of the Suncorp Group's activities. The Suncorp Group's capital position is monitored on a continual basis.

The Suncorp Group and its insurance and banking entities are subject to, and are in compliance with, externally imposed capital requirements set and monitored by APRA, the prudential regulator of the Australian financial services industry.

For regulatory purposes, capital is classified as follows:

- Common Equity Tier 1 Capital ("**CET1**") comprises accounting equity plus adjustments for intangible assets and regulatory reserves;
- Tier 1 Capital comprises CET1 plus Additional Tier 1 Capital such as certain hybrid securities with equity like quality (such as CPS and CPS2);
- Tier 2 Capital comprises certain securities (such as the Notes) recognised as Tier 2 Capital; and
- the sum of Tier 1 Capital and Tier 2 Capital is called Total Capital.

The strongest and most loss absorbent form of capital is CET1, followed by Additional Tier 1 Capital and then followed by Tier 2 Capital.

On 1 January 2013, APRA implemented the Life and General Insurance Capital (LAGIC) and Basel III capital regulatory changes. The changes altered the prudential minimum capital requirements for Suncorp's businesses. Under LAGIC, there are new definitions and minimum levels for CET1, Tier 1 Capital and Tier 2 Capital for Suncorp Life and for General Insurance.

Under Basel III, APRA requires Australian authorised deposit-taking institutions to maintain a minimum ratio of capital to risk adjusted assets for each of CET1, Tier 1 Capital and Total Capital.

APRA may also require Australian regulated institutions including Suncorp to maintain prudential ratios above the regulatory minimum. This must not be disclosed.

Under the new regulatory regimes, APRA also requires regulated entities to maintain internal capital targets. It is the Suncorp Group's policy to set target regulatory capital levels in excess of minimum APRA requirements for Total Capital. The targets are based on:

- **General Insurance** – the Minimum Capital Requirement ("**MCR**") was the minimum level of capital that, until 31 December 2012, the regulator deemed must be held to meet policyholder obligations having regard to the risks inherent in the business. Following the implementation of LAGIC on 1 January 2013, APRA introduced the Prescribed Capital Requirement ("**PCR**") as the minimum level of capital required, comprising a Prescribed Capital Amount ("**PCA**") plus any supervisory adjustments;
- **Bank** – the capital target is a ratio representing total capital as a percentage of total risk-weighted assets referred to as the Capital Adequacy Ratio ("**CAR**"). The CET1 ratio represents CET1 as a percentage of total risk weighted assets;
- **Life** – the minimum level of capital that the regulator deemed must be held to meet policyholder obligations having regard to the risks inherent in the business. As noted above, following the implementation of LAGIC on 1 January 2013, APRA introduced the PCR as the minimum level of capital that is required. The Life business also maintains an additional buffer level of capital appropriate for the ongoing risks of its distribution network; and
- Suncorp and other Group entities – agreed capital amounts for Group holding and other company requirements.

As at 31 December 2012:

- The General Insurance capital was 1.70 times the MCR;
- The Bank's CAR was 12.52% with a CET1 ratio of 7.53%; and
- The Life business' excess capital position was \$134 million.

Following the introduction of LAGIC and Basel III capital regulatory changes on 1 January 2013:

- The General Insurance capital was 2.01 times the PCA;
- The Bank's CAR was 12.11% with a CET1 ratio of 7.39%; and
- The Life business' excess capital position increases to \$286 million.

4.5 Pro forma capital adequacy position

The following table sets out the Suncorp Group's pro forma capital adequacy position based on the Suncorp Group's financial position as at 31 December 2012, prior to the implementation of Basel III and LAGIC. The position is compared to the internal capital targets incorporating the adjustments detailed below.

- Notes:
- The Suncorp Group's interim dividend on Ordinary Shares, paid on 2 April 2013, are not included in the pro forma adjustments as the \$322 million dividend accrual has been deducted from Tier 1 Capital at 31 December 2012 in accordance with APRA prudential standards in place at that time.
 - Assumes \$735 million CPS issued by SML, due to convert into Ordinary Shares on 14 June 2013, are repurchased for cash and cancelled, on 31 December 2012.
 - Assumes \$700 million of Notes were issued on 31 December 2012. Issue transaction costs of \$14 million are classified as a Tier 1 Capital deduction. The actual issue amount may be more or less than \$700 million.

The pro forma capital adequacy position based on the estimated post-Basel III and LAGIC position is set out below.

Target capital base	3,007	4,085	499	167	7,758		7,758	

- Notes:
- Under Basel III/LAGIC rules, dividends are no longer an automatic capital deduction. The Suncorp Group's interim dividend on Ordinary Shares of \$322 million, declared on 20 February 2013 and paid on 2 April 2013, has therefore been included as an additional pro forma adjustment to CET1 capital, to reflect a more accurate pro forma capital position following the completion of the issue of Notes and ultimate cancellation of CPS.
 - Assumes \$735 million CPS issued by SML, due to convert into Ordinary Shares on 14 June 2013, are repurchased for cash and cancelled, on 31 December 2012, net of \$76 million regulatory transitional arrangements.
 - Assumes \$700 million of Notes were issued on 31 December 2012. Issue transaction costs of \$14 million are classified as a CET1 deduction. The actual issue amount may be more or less than \$700 million.
 - The bank's capital base falls slightly under Basel III, however the deficit capital to target of \$101 million remains comfortably within the Board approved tolerance range.

Both the total capital base and the target capital base decline under the new methodologies, primarily as a result of changes in the basis of calculation in Suncorp Life. However the Suncorp Group's capital targets continue to be set above regulatory minimums and the total capital base is estimated to continue to exceed these targets.

5. Investment risks

This Section describes some of the risks associated with an investment in Notes and in Suncorp.

5. Investment risks

The selection of risks has been based on an assessment of a combination of the probability of the risk occurring and the impact of the risk if it did occur.

There is no guarantee or assurance that the importance of different risks will not change or that other risks will not emerge.

Before applying for Notes, you should consider whether Notes are a suitable investment for you. There are risks associated with an investment in Notes and in Suncorp, many of which are outside the control of Suncorp and its Directors. These risks include those referred to in this Section and other matters referred to in this Prospectus.

5.1 Risks associated with investing in Notes

5.1.1 NOTES ARE UNSECURED, SUBORDINATED OBLIGATIONS

Notes are unsecured, subordinated obligations of Suncorp.

Notes are not deposit liabilities or a protected account of Suncorp or any other member of the Suncorp Group for the purposes of the Banking Act and the payment of Interest and Face Value is not guaranteed by Suncorp Bank or any other member of the Suncorp Group. Notes are not guaranteed by the Australian Government.

On a winding up of Suncorp, Notes rank for payment behind Unsubordinated Creditors.

On a winding up of Suncorp, Holders will lose the money invested in Notes, and any Interest due and unpaid at that time, if there are insufficient assets to satisfy Unsubordinated Creditors.

As the claim of Holders is only against Suncorp, it is only recoverable out of the assets of Suncorp, being predominantly Suncorp's investments in its subsidiary companies (which include Suncorp Bank and its general insurance and life insurance subsidiaries). Accordingly, any liabilities of these subsidiaries will most likely rank ahead of any Holders' claim in relation to the ability to recover claims from the assets of those subsidiaries.

Holders have no claim whatsoever on any other member of the Suncorp Group for payment of any amount in respect of Notes. Notes are unsecured.

5.1.2 ALL PAYMENTS ON THE NOTES ARE SUBJECT TO THE SOLVENCY CONDITION BEING SATISFIED

All of Suncorp's obligations to make payments in respect of the Notes are subject to the Solvency Condition being satisfied.

If the Solvency Condition is not satisfied, that is, if Suncorp is not able to pay its debts as they become due and payable, or Suncorp's assets do not exceed its liabilities at the time the payment is due or immediately after making the payment, no payment will be made. Suncorp's failure to pay will not be an Event of Default and any unpaid amount will accrue interest until it is paid and will be payable on the first Business Day on which Suncorp meets

the Solvency Condition. However, if a Non-Viability Trigger Event does occur, all of Suncorp's obligations to make payments in respect of the Notes will cease and Holders will have no rights to recover any unpaid amounts.

5.1.3 MARKET PRICE OF NOTES

The market price of Notes may fluctuate due to various factors, including investor perceptions, Australian and worldwide economic conditions, interest rates, movements in foreign exchange rates, movements in the market price of Ordinary Shares or senior or subordinated debt, and factors that may affect Suncorp's financial performance and position. Notes may trade at a market price below the Face Value.

There is a risk that one or more of these factors may cause the market value of the Notes to decline and trade at a market price below their Face Value. The market price of Notes may be more sensitive to changes in interest rates and credit spreads than the price of Ordinary Shares or comparable securities issued by Suncorp or other entities.

As a result, Holders who wish to sell their Notes before the Maturity Date may incur loss if the Notes trade at a market price below the amount at which the Notes were acquired. Suncorp does not guarantee the market price of Notes. Unlike Ordinary Shares, Notes do not provide a material exposure to growth in the Group's business.

5.1.4 LIQUIDITY

Although Suncorp intends to have the Notes quoted on ASX, there is no guarantee that a liquid market will develop for Notes. The market for Notes may be less liquid than the market for Ordinary Shares or comparable securities issued by Suncorp or other entities and may be volatile. The market price of Notes is likely to fluctuate and, if Holders wish to sell or otherwise transfer their Notes, they may be unable to do so at a price acceptable to them, or at all, if insufficient liquidity exists in the market for Notes.

5.1.5 CHANGES IN INTEREST RATE

The Interest Rate is calculated for each Interest Period by reference to the Bank Bill Rate, which is influenced by a number of factors and varies over time. The Interest Rate will fluctuate (both increasing and decreasing) over time as a result of movements in the Bank Bill Rate – see Section 2.2.

As the Interest Rate fluctuates, there is a risk that it may become less attractive when compared to the rates of return available on comparable securities issued by Suncorp or other entities.

5.1.6 SUNCORP MAY REDEEM NOTES EARLY UNDER CERTAIN CIRCUMSTANCES

Suncorp may (subject to APRA's prior written approval) elect to redeem:

- some or all of the Notes on 22 November 2018 or any subsequent Interest Payment Date; or
- all (but not some) of the Notes upon the occurrence of a Tax Event or a Regulatory Event.

Notes will be redeemed at their Face Value of \$100 per Note (plus any accrued and unpaid Interest on the Note). There is a risk that the amount received on redemption may be less than the current market value of Notes or the timing of such redemption may not accord with a Holder's individual financial circumstances or tax position.

5.1.7 NO RIGHTS FOR HOLDERS TO REQUEST OR REQUIRE REDEMPTION OR ACCELERATE REPAYMENT

Holders have no right to request or require redemption or accelerate repayment of their Notes prior to the Maturity Date. Therefore, prior to the Maturity Date, unless Suncorp elects to redeem the Notes (subject to APRA's approval) at the price obtained on the ASX, Holders can only realise their investment in Notes by a sale on ASX. There is a risk that the sale price on ASX will be less than the Face Value of Notes. Brokerage fees may also be payable if Notes are sold through a broker.

5.1.8 RESTRICTION ON HOLDER RIGHTS

Enforcement of Holders' rights requires the taking of action by the Trustee as directed by a majority of Holders (by Ordinary Resolution or Special Resolution, as provided in the Trust Deed and subject to the other conditions in the Trust Deed). A Holder has no direct right of claim against Suncorp in respect of Notes except in limited circumstances as provided in the Trust Deed (which includes the Conditions).

5.1.9 CONVERSION ON ACCOUNT OF A NON-VIABILITY TRIGGER EVENT

If a Non-Viability Trigger Event occurs, Suncorp must immediately determine to Convert some or all of the Notes into Ordinary Shares in accordance with APRA's determination. This could be at any time. Accordingly, any such Conversion on account of a Non-Viability Trigger Event may occur on dates not previously contemplated by Holders, which may be disadvantageous in light of market conditions or their individual circumstances and may not coincide with their individual preference in terms of timing.

Non-Viability Trigger Event

A Non-Viability Trigger Event occurs if APRA provides a written determination to Suncorp that the conversion or write off of Relevant Capital Instruments in accordance with their terms or by operation of law is necessary because either:

- without the conversion or write off; or
- without a public sector injection of capital into, or equivalent capital support with respect to, Suncorp,

APRA considers that Suncorp would become non-viable.

APRA has indicated that at this time it will not provide guidance as to how it would determine non-viability. Non-viability could be expected to include serious impairment of Suncorp's financial position and insolvency. However, it is possible that APRA's definition of non-viable may not necessarily be confined to solvency or capital measures and APRA's position on these matters may change over time. As the occurrence of a Non-Viability Trigger Event is at the discretion of APRA, there can be no assurance given as to the factors and circumstances that might give rise to this event.

5. Investment risks

(continued)

Non-viability may be significantly impacted by a number of factors, including factors which affect the business, operation and financial condition of Suncorp. For instance, systemic and non-systemic macro-economic, environmental and operational factors, globally and in Australia and New Zealand may affect the viability of Suncorp.

If Suncorp is required to convert only an amount of Relevant Capital Instruments, Suncorp will determine the amount of Notes which will Convert and other Relevant Capital Instruments which will convert or be written off as follows:

- first, Suncorp will convert or write off all Relevant Tier 1 Capital Instruments before Conversion of the Notes;
- second, if conversion or write off of Relevant Tier 1 Capital Instruments is less than the amount sufficient to satisfy APRA that Suncorp would not become non-viable, Suncorp will Convert the Notes and convert or write off other Relevant Tier 2 Capital Instruments in an aggregate amount which when added to the amount of Relevant Tier 1 Capital Instruments converted or written off will satisfy APRA that Suncorp would not become non-viable.

However, Suncorp has no obligation to have or maintain on issue Relevant Tier 1 Capital Instruments which are liable to be converted or written off ahead of Notes and gives no assurance that there will be any such instruments on issue at any time.

Further, in Converting Notes or converting or writing off other Relevant Capital Instruments, Suncorp will endeavour to treat Holders and holders of other Relevant Tier 2 instruments on an approximately proportionate basis, Suncorp may discriminate to take account of the effect on marketable

parcels of Notes and other logistical considerations. Accordingly, should a Non-Viability Trigger Event occur and only some Notes must be Converted not all Holders may have their Notes Converted into Ordinary Shares.

Effect of a Non-Viability Trigger Event

If a Non-Viability Trigger Event occurs:

- Suncorp must immediately Convert some or all of the Notes on issue (as required) into the Conversion Number of Ordinary Shares;
- From the date the Non-Viability Trigger Event occurs, Suncorp will recognise Holders as having been issued the Conversion Number of Ordinary Shares. Suncorp expects any ASX trades in Notes that have not settled on the date a Non-Viability Trigger Event occurs will continue to settle in accordance with the normal ASX T+3 settlement, although Suncorp expects the seller will be treated as having delivered, and the buyer will be treated as having acquired, the Conversion Number of Ordinary Shares into which Notes have been Converted as a result of the occurrence of the Non-Viability Trigger Event;
- Alternatively, Suncorp may immediately seek a trading halt to prevent further trading in Notes on ASX, and if ASX permits, may refuse to register transfers of Notes that have not settled – this may result in disruption or failures in trading or dealings in Notes (which may cause a Holder to suffer loss);
- Suncorp may make such decisions with respect to the identity of Holders as at the Non-Viability Conversion Date as may be necessary or desirable to ensure Conversion occurs in an orderly manner, including disregarding any transfers of Notes that have not been settled or registered at that time;

- Holders will not receive prior notice of the Conversion or have any rights to vote in respect of any Conversion; and
- the Ordinary Shares issued on Conversion following a Non-Viability Trigger Event may not be quoted at the time of issue, or at all.

Conversion following a Non-Viability Trigger Event

The number of Ordinary Shares that a Holder will receive on Conversion following a Non-Viability Trigger Event is calculated in accordance with the Conversion Number formula which provides for a calculation based on a discounted five Business Day VWAP but cannot be more than the Maximum Conversion Number. Accordingly, this may result in a Holder receiving Ordinary Shares that are worth significantly less than the Face Value of the Notes and suffering loss as a result. This is because:

- the number of Ordinary Shares is limited to the Maximum Conversion Number and this number of Ordinary Shares may have a value of less than the Face Value;
- the number of Ordinary Shares is calculated by reference to the price of Ordinary Shares in the five Business Days on which trading in Ordinary Shares took place immediately preceding (but not including) the Non-Viability Conversion Date which may differ from the Ordinary Share price on or after that date. The Ordinary Shares may not be listed. They may not have been listed for some period of time, for example, if Suncorp is acquired by another entity and delisted (see Section 5.1.18). The Ordinary Shares may not be able to be sold at prices representing their value based on the VWAP. In particular, VWAP prices will be based wholly or partly on trading days which occurred before the Non-Viability Trigger Event; and

- as noted in Section 2.4, the Maximum Conversion Number may be adjusted to reflect a consolidation, division or reclassification, or pro rata bonus issues, of Ordinary Shares. However, no adjustment will be made to it on account of other transactions which may affect the price of Ordinary Shares, including for example rights issues, returns of capital, buy-backs or special dividends. The Conditions do not limit the transactions that Suncorp may undertake with respect to its share capital and any such action may increase the risk that Holders receive only the Maximum Conversion Number and so may adversely affect the position of Holders.

Inability Event

If, following a Non-Viability Trigger Event, Suncorp is prevented by applicable law or order of any court or action of any government authority (including regarding the insolvency, winding up or other external administration of Suncorp) or by any other reason from Converting Notes (within five Business Days after the Non-Viability Conversion Date) which would otherwise be Converted (an “**Inability Event**”), Notes will not be Converted, but instead, the rights of the Holder (including to the payment of Interest and Face Value) in relation to such Notes will be immediately and irrevocably written off and terminated and Holders will suffer loss as a result.

The laws under which an Inability Event may arise include laws relating to the insolvency, winding up or other external administration of Suncorp. Those laws and the grounds on which a court or government authority may make orders preventing the Conversion of Notes may change and the change may be adverse to the interests of Holders.

Consequences of holding Ordinary Shares

Ordinary Shares are a different type of investment to Notes. Dividends are payable at the absolute discretion of Suncorp and the amount of each dividend is discretionary (not subject to a formula). In a winding up, claims of holders of Ordinary Shares rank behind claims of holders of all other securities and debts of Suncorp. The market price of Ordinary Shares may be more sensitive than that of Notes to changes in Suncorp’s performance, operational issues and other business issues.

5.1.10 SUNCORP MAY FAIL TO PAY FACE VALUE, INTEREST OR OTHER AMOUNTS

There is a risk that Suncorp may defer or default on payment of some or all of the Face Value, Interest or other amounts payable on the Notes. If Suncorp does not pay some or all of the Face Value, Interest or other amounts payable on the Notes, Holders may lose some or all of the money invested in Notes.

The remedies of the Holders in the event of non-payment are limited. Failure to pay because the Solvency Condition is not satisfied is not an Event of Default.

If an amount is not paid when the Solvency Condition is satisfied, that is an Event of Default and the Trustee may institute proceedings:

- to have Suncorp wound up;
- for the recovery of the amount then due and payable but unpaid (subject to Suncorp being able to make the payment and remain able to pay its debts as they fall due); or
- to obtain an order for specific performance of any other obligation in respect of the Notes.

The Trustee and Holders are not entitled to accelerate payment on account of such non-payment or other breach by Suncorp of its obligations.

There is a risk that the entire amount owed may not be recovered even if the Trustee institutes proceedings

against Suncorp. Further, although the Conditions may specify certain remedies (for example, seeking an order for the winding up of Suncorp), the grant of those remedies may be in the discretion of the court, and as such may not be granted.

5.1.11 FUTURE ISSUES OR REDEMPTIONS OF SECURITIES BY SUNCORP

Notes do not in any way restrict Suncorp from issuing further securities or from incurring further indebtedness. Suncorp’s obligations under Notes rank subordinate and junior in a winding up to Suncorp’s obligations to holders of senior ranking securities and instruments, and all Unsubordinated Creditors. Accordingly, Suncorp’s obligations under Notes will not be satisfied unless it can satisfy in full all of its other obligations ranking senior to Notes.

Suncorp may in the future issue securities that:

- rank for payments of principal or interest (including on the winding up of Suncorp) equal with, behind or ahead of Notes;
- have the same or different maturities as Notes;
- have the same or different dividend, interest or distribution rates as those for Notes; and
- have the same or different terms and conditions as Notes.

Suncorp may incur further indebtedness and may issue further securities including further Tier 2 Capital securities before, during or after the issue of Notes.

An investment in Notes carries no right to participate in any future issue of securities (whether equity, Tier 2 Capital, subordinated or senior debt or otherwise) by Suncorp.

No prediction can be made as to the effect, if any, which the future issue of securities by Suncorp may have on the market price or liquidity of Notes or the likelihood of Suncorp making payments on Notes.

5. Investment risks

(continued)

Similarly, Notes do not restrict any member of the Suncorp Group from redeeming, buying back or undertaking a reduction of capital or otherwise repaying its other securities (whether existing securities or those that may be issued in the future). Additionally, Suncorp may redeem Notes on the occurrence of a Tax Event or a Regulatory Event or on 22 November 2018 or any subsequent Interest Payment Date.

An investment in Notes carries no right to be redeemed or otherwise repaid at the same time as Suncorp redeems, or otherwise repays, holders of other securities (whether equity, Tier 2 Capital, subordinated or senior debt or otherwise).

5.1.12 EXPOSURE TO THE GROUP'S FINANCIAL PERFORMANCE AND POSITION

If the Group's financial performance or position declines, or if market participants anticipate that it may decline, an investment in Notes could decline in value. Accordingly, when you evaluate whether to invest in Notes you should carefully evaluate the investment risks associated with an investment in Suncorp – see Section 5.2.

5.1.13 CHANGES TO CREDIT RATINGS

Suncorp's cost of funds, margins, access to capital markets and competitive position and other aspects of its performance may be affected by its credit ratings (including any long-term credit ratings or the ratings assigned to any class of its securities). Credit rating agencies may withdraw, revise or suspend credit ratings or change the methodology by which securities are rated. Such changes could adversely affect the market price, liquidity and performance of Notes.

5.1.14 REGULATORY CLASSIFICATION AND PRUDENTIAL SUPERVISION

Notes are eligible Tier 2 Capital which qualifies as regulatory capital within the Suncorp Group for APRA purposes.

However, in certain circumstances, if APRA subsequently determines that some or all Notes do not qualify as Tier 2 Capital, Suncorp may decide that a Regulatory Event has occurred. Suncorp may then elect, at its option to redeem all (but not some) Notes on issue (subject to APRA's prior written approval where required).

Any such redemption at Suncorp's option may occur on dates not previously contemplated by Holders, which may be disadvantageous in light of market conditions or their individual circumstances and may not coincide with their individual preference in terms of timing. This also means that the period for which Holders will be entitled to the benefit of the rights attaching to Notes (such as Interest) is unknown.

As a prudentially regulated entity Suncorp is subject to the requirements of, among other things the *Insurance Act 1973* (Cth) and prudential standards set by APRA. The *Insurance Act 1973* (Cth) includes certain powers which APRA may exercise in a manner that may be adverse to Holders, including powers to direct Suncorp not to pay or transfer any amount to any person or to conduct its business in a particular way.

5.1.15 AUSTRALIAN TAX CONSEQUENCES

A general outline of the tax consequences of investing in Notes for certain potential investors who are Australian residents for tax purposes is set out in the Australian taxation summary in Section 8. This discussion is in general terms and is not intended to provide specific advice addressing the circumstances of any particular potential investor.

Accordingly, potential investors should seek independent advice concerning their own individual tax position.

If a change is made in Australian law (including any announced prospective change) on or after the Issue Date (and which Suncorp did not expect on the Issue Date) and that change leads to a more than insubstantial risk that:

- Suncorp will be liable to pay additional amounts of withholding or tax deductions;
- any Interest payable in respect of the Notes will not be deductible to a material extent; or
- Suncorp would be exposed to an increase in costs in relation to Notes,

Suncorp may elect to redeem all (but not some) of the Notes (subject to APRA's prior written approval) – see Section 2.3.

5.1.16 VARIATION OF CONDITIONS

Suncorp may in certain circumstances, subject to the Conditions and complying with the Corporations Act and all applicable laws, vary the Conditions without the approval of Holders. The circumstances include where the variation is not materially prejudicial to the interests of Holders. Suncorp may also vary the Conditions if the variation has been approved by the Holders by a Special Resolution and by the Trustee. Variations under these powers are binding on all Holders despite the fact that a Holder may not agree with the variation.

APRA's prior written approval to vary the Conditions is required where the variation may affect the eligibility of Notes as Tier 2 Capital.

5.1.17 HOLDERS MAY BE SUBJECT TO FATCA WITHHOLDING AND INFORMATION REPORTING

It is possible that, in order to comply with FATCA, Suncorp (or if Notes are held through another financial institution, such other financial institution) may be required (pursuant to an agreement with the United States Internal Revenue Service ("IRS") or under applicable law) to request certain information from Holders or beneficial owners of Notes, which information may be provided to the IRS, and to withhold US tax on some portion of payments made after 31 December 2016 with respect to Notes if such information is not provided or if payments are made to certain foreign financial institutions that have not entered into a similar agreement with the IRS (and are not otherwise required to comply with the FATCA regime under applicable laws or are otherwise exempt from complying with the requirement to enter into a FATCA agreement with the IRS). If Suncorp or any other person is required to withhold amounts under or in connection with FATCA from any payments made in respect of Notes, Holders and beneficial owners of Notes will not be entitled to receive any gross up or additional amounts to compensate them for such withholding. This description is based on guidance issued to date by the IRS, including recently finalised regulations. Future guidance may affect the application of FATCA to Notes, including but not limited to, the proposed Intergovernmental Agreement ("IGA") between Australia and the United States.

5.1.18 SHAREHOLDING LIMITS

The *Financial Sector (Shareholdings) Act 1998* (Cth) restricts ownership by people (together with their associates) of banks, life insurers, general insurers and their holding companies, which includes Suncorp, to a 15% stake. A shareholder may apply to the Australian Treasurer to extend their ownership beyond 15%, but approval will not be granted unless the Treasurer is

satisfied that a holding by that person of greater than 15% is in the national interest.

Mergers, acquisitions and divestments of Australian public companies listed on ASX (such as Suncorp) are regulated by detailed and comprehensive legislation and the rules and regulations of ASX. These provisions include restrictions on the acquisition and sale of relevant interests in certain shares in an Australian listed company under the Corporations Act and a requirement that acquisitions of certain interests in Australian listed companies by foreign interests are subject to review and approval by the Treasurer. In addition, Australian law also regulates acquisitions which would have the effect, or be likely to have the effect, of substantially lessening competition in a market.

Holders should take care to ensure that by acquiring any Notes (taking into account any Ordinary Shares into which they may Convert), Holders do not breach any applicable restrictions on ownership.

5.1.19 NO RIGHTS IF CONTROL OF SUNCORP IS ACQUIRED

If a person or persons acquire control of Suncorp the Conditions do not provide any right or remedy for the Holders on account of that acquisition occurring. Further, the acquisition of Suncorp may result in Suncorp's Ordinary Shares no longer being quoted on ASX. If after that has occurred a Non-Viability Trigger Event occurs, the number of Ordinary Shares issued on Conversion will reflect the VWAP for the period of 5 Business Days on which the Ordinary Shares were last traded on ASX. This may be well before the Non-Viability Trigger Event and accordingly the value of the Conversion Number of Ordinary Shares when issued may be very different from the value based on that VWAP. This may adversely affect the position of Holders.

5.2 Risks associated with Suncorp and the Suncorp Group

Set out below are investment risks associated with Suncorp and the Suncorp Group. These are relevant to an investment in Notes as the value of your investment will depend on the financial performance and position of Suncorp and the Group.

5.2.1 REGULATORY AND COMPLIANCE RISK

The Group is subject to extensive laws and regulations in the jurisdictions in which it operates, including Australia and New Zealand and is licensed to operate in the various countries, states and territories in which it operates. The Group is also supervised by a number of different regulatory authorities which have broad administrative powers over its businesses. In Australia and New Zealand, the relevant regulatory authorities include APRA, RBA, RBNZ, ASIC, ASX, ACCC and AUSTRAC. In particular, the Group is subject to prudential supervision by APRA and is required, amongst other things, to meet capital requirements prescribed by APRA.

The Group is responsible for ensuring that it complies with all applicable legal and regulatory requirements (including accounting standards) and industry codes of practice in the jurisdictions in which it operates, as well as meeting the Group's ethical standards.

If the Group fails to comply with applicable laws and regulations, it may be subject to fines, penalties, restrictions on its ability to do business, or loss of licence to conduct business. An example of the broad administrative power available to regulatory authorities is the power available to APRA in certain circumstances to investigate the Group's affairs and/or issue a direction to it (such as a direction to comply with a prudential requirement, to conduct an audit, to remove a director, executive officer or employee or not to undertake transactions).

5. Investment risks

(continued)

Any such fines, penalties, restrictions or loss of licence could adversely affect the Group's businesses, financial performance, financial condition and prospects.

Regulation is becoming increasingly more extensive and complex. As with other financial services providers, the Group continues to face increased supervision and regulation in the jurisdictions in which it operates, particularly in the areas of funding, liquidity, capital adequacy and prudential regulation. For example:

- In December 2010 the Basel Committee on Banking Supervision announced a revised global regulatory capital framework, known as Basel III. Basel III will, among other things, increase the required quality and quantity of capital held by banks and introduces new minimum standards for the management of liquidity risk. APRA has announced that it supports the Basel III framework and released final prudential standards for Australian authorised deposit-taking institutions on 28 September 2012. The Basel III framework came into effect on 1 January 2013, subject to various transitional arrangements.
- The Commonwealth Treasury has recently announced a consultation on a series of reform proposals directed at strengthening APRA's crisis management powers. While at the early stages of consultation, if implemented, these proposals could impact substantially on the regulatory framework applying to the Group and its shareholders, including Holders, particularly in circumstances where Suncorp is financially distressed.

- As at the date of this Prospectus, APRA is also in the process of developing standards for conglomerate groups with a proposed implementation of January 2014. APRA has recently issued draft standards in relation to governance and risk exposures for consultation. When implemented, APRA may require changes to the Group's capital.

There are a number of other areas of potential regulatory change that could impact the Group including changes to accounting and reporting requirements, tax legislation, regulation relating to remuneration, privacy, consumer protection and competition legislation and bribery and anti-money laundering laws. In addition, further changes may occur driven by policy, prudential or political factors.

Some areas of potential regulatory change involve multiple jurisdictions seeking to adopt a coordinated approach. Such an approach may not appropriately respond to the specific requirements of the jurisdictions in which the Group operates and, in addition, such changes may be inconsistently introduced across jurisdictions.

Changes may also occur in the oversight approach of regulators. It is possible that governments in jurisdictions in which the Group conducts business or obtains funding might revise their application of existing regulatory policies that apply to, or impact, Suncorp's business, including for reasons relating to national interest and/or systemic stability.

The nature, timing and impact of future regulatory changes are not predictable and are beyond the Group's control. Regulatory compliance and the management of regulatory change is an increasingly important part of the Group's strategic planning. Regulatory change may also impact the Group's

operations by requiring it to have increased levels of liquidity and higher levels, and better quality, of capital as well as place restrictions on the businesses the Group conducts or require the Group to alter its product and service offerings. If regulatory change has any such effect, it could adversely affect one or more of the Group's businesses, restrict its flexibility, require it to incur substantial costs and impact the profitability of one or more of the Group's business lines. Any such costs or restrictions could adversely affect the Group's businesses, financial performance, financial condition and prospects.

5.2.2 DEPENDENCE ON THE AUSTRALIAN AND NEW ZEALAND ECONOMIES

As the Group currently conducts the majority of its business in Australia and New Zealand, its performance is influenced by the level and cyclical nature of business activity in Australia and New Zealand, which is, in turn, impacted by both domestic and international economic and political events. There can be no assurance that a weakening in the Australian and/or New Zealand economies, and/or that a weakening in the economic and business conditions of other countries, will not have an adverse effect on the Group's financial condition and on the results of its operations.

Adverse changes to the economic and business conditions in Australia, New Zealand and of other economies such as China, India, Japan, members of the European Union and the United States, could also negatively impact the Australian and New Zealand economies, the Group's customers and the Group's investments. This could result in reduced demand for the Group's products and services and/or impact the Group's investment returns, which could affect the Group's businesses, financial performance, financial condition and prospects.

5.2.3 RISK OF A MAJOR SYSTEMIC SHOCK TO THE AUSTRALIAN, NEW ZEALAND OR OTHER FINANCIAL SYSTEMS

There is a risk that a major systemic shock, similar to that experienced in recent years in Europe, could occur that causes an adverse impact on the Australian and New Zealand financial systems.

As outlined above, the financial services industry and capital markets have been, and may continue to be, adversely affected by continuing market volatility and the negative outlook for global economic conditions. Recently there has been an increased focus on the potential for sovereign debt defaults and/or significant bank failures in the 17 countries comprising the Euro-zone. There can be no assurance that the market disruptions in the Euro-zone, including the increased cost of funding for certain Euro-zone governments, will not spread, nor can there be any assurance that future assistance packages will be available or sufficiently robust to address any further market contagion in the Euro-zone or elsewhere.

Any such market and economic disruptions could have an adverse effect on financial institutions such as the Suncorp Group because consumer and business confidence may decrease, unemployment may rise and demand for the products and services the Group provides may decline, thereby reducing the Group's earnings. These conditions may also affect the ability of its borrowers to repay their loans, or the Group's counterparties to meet their obligations, causing it to incur higher credit losses. These events could also result in the undermining of confidence in the financial system, reducing liquidity and impairing the Group's access to funding and impairing its customers and counterparties and their businesses.

The nature and consequences of any such event are difficult to predict and there can be no guarantee that the Group could respond effectively to any such event. If the Group were not to respond effectively, the Group's businesses, financial performance, financial condition and prospects could be adversely affected.

5.2.4 COMPETITIVE ENVIRONMENT

The financial services industry is highly competitive and, as a result, the Group faces intense competition in all aspects of its business. The Group's banking business competes, both domestically and internationally, with retail and commercial banks, while the Group's general insurance and life businesses compete with other insurance firms. This includes specialist competitors, such as aggregators and comparison websites, which may not be subject to the same capital and regulatory requirements and therefore may be able to operate at lower cost.

If the Group is unable to compete effectively in its various businesses and markets, its market share may decline. Increased competition may also divert business to the Group's competitors or create pressure to lower margins.

The Group is also dependent on its ability to offer products and services that match evolving customer preferences, habits and sentiment. If the Group is not successful in developing or introducing new products and services or responding or adapting to changes in customer preferences, habits and sentiment, the Group may lose customers to its competitors. This could adversely affect the Group's businesses, financial performance, financial condition and prospects.

The level of competition continues to increase as the trend toward consolidation in the global financial services industry is creating competitors with a broader range of products and services, increased access to capital, and greater efficiency and enhanced pricing power. As a result, the Group could lose market share or be forced to reduce prices in order to compete effectively, particularly if industry participants engage in aggressive growth strategies or severe price discounting.

5.2.5 REPUTATIONAL DAMAGE

The Group's ability to attract and retain customers and investors and its prospects could be adversely affected if the Group's reputation is damaged.

There are various potential sources of reputational damage including potential conflicts of interest, pricing policies, failing to comply with legal and regulatory requirements (including without limitation, money laundering laws, trade sanctions legislation or privacy laws), ethical issues, litigation, failing to comply with information security policies, improper sales and trading practices, or personnel and supplier policies, improper conduct of companies in which it holds strategic investments, technology failures, security breaches and risk management failures. The Group's reputation could also be adversely affected by the actions of the financial services and allied industries in general or from the actions of its customers and counterparties.

Failure to appropriately address issues that could or do give rise to reputational damage could also give rise to additional legal risks, subject the Group to regulatory enforcement actions, fines and penalties and could lead to loss of business which could adversely affect the Group's financial performance, financial condition and prospects.

5. Investment risks

(continued)

5.2.6 CATASTROPHES

Through its general insurance businesses, the Group deals with claims arising from catastrophic events predominantly in the Australia and New Zealand regions including, but not limited to, cyclones, earthquakes, tsunami, wind, hail, fires, floods, volcanic activity and bushfires, in addition to man-made disasters. The Group also provides limited cover in other geographies and considers these to be immaterial. It is not possible to predict the timing or severity of catastrophes. The extent of insured losses from catastrophes is determined by the total amount of insured exposure in the area affected by the event and the severity of the event. While the Group manages its exposure to catastrophes through the purchase of catastrophe reinsurance based on a set of model assumptions, the Group cannot be assured that such coverage will be adequate or will continue to be available at acceptable levels or at all and, if that reinsurance is inadequate, that could adversely affect the Group's businesses, financial performance, financial condition and prospects.

5.2.7 REINSURANCE

The Group enters into a number of reinsurance arrangements. These arrangements allow the Group to limit its risk from particular lines of business or from specific events and to increase its capacity to write new policies. Under these arrangements, other insurers and reinsurers assume a portion of the Group's exposure to reported and unreported losses in exchange for a premium. The availability, amount and cost of reinsurance capacity depend on prevailing market conditions, and may vary significantly. Catastrophes both in Australia and New Zealand, in 2010 and 2011 as well as globally, have led to increases in reinsurance rates, and changes in terms and availability.

From time to time, market conditions have limited, and in some cases prevented, insurers from obtaining

the types and amounts of reinsurance that they consider adequate for their business needs. Accordingly, the Group may not be able to obtain desired amounts of reinsurance at prices acceptable to it or at all. In addition, even if the Group is able to obtain such reinsurance, it may not be able to negotiate terms that it deems appropriate or acceptable or obtain such reinsurance from entities with satisfactory creditworthiness.

There are risks associated with the determination of proper levels of reinsurance protection, the cost of such reinsurance and the financial security of reinsurers. Whilst modelling is utilised to assist with determining adequate coverage there can be no assurance that the Group's current reinsurance coverage is adequate, that it matches the underlying risks assumed or that increases in reinsurance costs will be able to be fully recovered through increased premium rates.

The Group is also exposed to the risk that its reinsurers default on their obligation to pay valid claims. In addition, the Group may take a considerable period to collect on reinsurance receivables, and reinsurers may dispute its claims, even if valid. Despite reinsurance, the Group is primarily liable to policyholders, and so a failure by a reinsurer to make payment, for whatever reason, could adversely affect the Group's businesses, financial performance, financial condition and prospects.

5.2.8 ESTIMATION OF CLAIMS PROVISIONS

The Group's provisions for insurance liabilities may prove to be inadequate to cover its ultimate liability under policies written by its insurance subsidiaries. Within its general insurance business, the Group maintains provisions for outstanding claims and unearned premiums to cover the estimated ultimate liability for claims including claims handling expenses, and within its life insurance

subsidiary provisions for future policy benefits and maintenance expenses. Although the Group seeks to maintain outstanding claims provisions in its general insurance subsidiaries at a probability of adequacy of approximately 90%, the estimation of claims provisions does not represent an exact calculation of liability, but rather a best estimate. These estimates are based on actuarial and statistical methodologies made on the basis of facts and circumstances known at a given time and estimates of trends into the future. Actual future events and conditions may result in the current estimates of claims costs being inadequate. Moreover, additional costs of claims, including claims inflation and costs arising from changes in the legal environment, the type or magnitude of which management cannot foresee, may emerge in the future. Insufficient provisions for insurance liabilities could adversely affect the Group's businesses, financial performance, liquidity, capital resources and financial condition.

5.2.9 CREDIT RISK ASSOCIATED WITH THE GROUP'S LENDING ACTIVITIES INCLUDING THE NON-CORE BANKING PORTFOLIO AND IMPLICATIONS

Credit risk is a significant risk and arises primarily from the Group's lending, reinsurance and investment activities. The risk arises from the likelihood that some customers and counterparties will be unable to honour their obligations to the Group, including the repayment of loans and interest.

One of the areas of credit risk is in the Group's non-core banking portfolio, which was formed in 2009, as a result of a strategic review of its Banking operations. The Bank's former corporate banking, property investment and development finance divisions were placed into an \$18 billion lending portfolio and the Bank embarked on an orderly run-off strategy to maximise shareholder value. The portfolio is closed to new business and is now in advanced stages of run-off with

outstanding balances of \$3.4 billion at 31 December 2012, including an impaired portfolio of \$1.6 billion as at 31 December 2012. The orderly run-off strategy to maximise shareholder value continues to be executed. As a run-off portfolio, the non-core banking portfolio's performance is not directly comparable to the core bank portfolio nor portfolios of other institutions that remain open to new business.

Credit risk also arises from certain derivative contracts the Group enters into and from its dealings with, and holdings of, debt securities issued by other banks, financial institutions, companies, governments and government bodies the financial conditions of which may be impacted to varying degrees by economic conditions in global financial markets.

The Group's banking operations hold collective and individually assessed provisions for its credit exposures. If economic conditions deteriorate, some customers and/or counterparties could experience higher levels of financial stress and the Group may experience a significant increase in defaults and write offs, and be required to increase its provisioning.

As at 31 December 2012, the Group held specific provisions to cover bad and doubtful debts. Deterioration in economic conditions, inadequate provisioning or a significant breakdown in credit disciplines, could diminish available capital and could adversely affect the Group's businesses, financial performance, liquidity, capital resources and financial condition.

5.2.10 DECLINES IN ASSET MARKETS INCLUDING POTENTIAL IMPLICATIONS FOR THE NON-CORE BANKING PORTFOLIO

The Group's performance is influenced by asset markets in Australia, New Zealand and other jurisdictions, including equity, property and other investment asset markets.

Declining asset prices could also impact customers and counterparties and the value of security the Group holds against loans and derivatives which may impact the Group's ability to recover amounts owing to it if customers or counterparties were to default.

In particular, the residential, commercial and rural property lending sectors are important to the businesses of the Group. Overall, the property market has been variable and in some locations there have been substantially reduced asset values. Declining property valuations in Australia or other markets where it does business could decrease the amount of new lending the Group is able to write and/or increase the losses that the Group may experience from existing loans.

For example, a significant decrease in Australian housing market demand or property valuations, or a significant slowdown in housing, commercial or strata title property markets could adversely impact the Group's home lending activities because the ability of its borrowers to repay their loans may be affected, causing the Group to incur higher credit losses, or the demand for its home lending products may decline, and this could adversely affect the Group's businesses, financial performance, capital resources, financial condition and prospects.

The Group's non-core banking portfolio (see Section 3.4.2) has specific exposure to corporate lending and development finance, including land and commercial property investment. Ongoing volatility in these sectors could impact the customers' ability to repay or refinance their exposures and ultimately may impact the Group's ability to recover amounts owing to it if the customers or counterparties were to default.

5.2.11 FUNDING AND LIQUIDITY RISK

Banks and other financial institutions (including the Suncorp Group) are currently subject to global credit and capital market conditions which have experienced extreme volatility, disruption and decreased liquidity over the last four to five years.

While there have been periods of stability in these markets, the environment has become more volatile and unpredictable. There has been a particular focus on the potential for sovereign debt defaults and/or banking failures in Europe. The vulnerable nature of several sovereign nations has resulted in a tightening of credit markets and wholesale funding conditions. This is discussed further in Section 5.2.3.

If market conditions deteriorate due to economic, financial, political or other reasons, the Group's funding costs may be adversely affected and its liquidity and its funding of lending activities may be constrained.

If the Group's current sources of funding prove to be insufficient, it may be forced to seek alternative funding. The availability of such alternative funding, and the terms on which it may be available, will depend on a variety of factors, including prevailing market conditions, the availability of credit, the Group's credit ratings and credit market capacity. Even if available, the cost of these alternatives may be more expensive or on unfavourable terms, which could adversely affect the Group's businesses, liquidity, capital resources, financial performance and financial condition. There is no assurance that the Group will be able to obtain adequate funding at acceptable prices or at all.

5. Investment risks

(continued)

5.2.12 CREDIT RATINGS

Credit ratings are opinions on the Group's creditworthiness. The Group's credit ratings affect the cost and availability of its funding from capital markets and other funding sources and they may be important to customers or counterparties when evaluating its products and services. Therefore, maintaining high quality credit ratings is important.

The credit ratings assigned to the Group and its subsidiaries by rating agencies are based on an evaluation of a number of factors, including financial strength, support from members of the Suncorp Group and structural considerations regarding the Australian financial system. A credit rating downgrade could be driven by the occurrence of one or more of the other events identified as risks in this Section or by other events including changes to the methodologies used by the rating agencies to determine ratings.

If Suncorp, or any member of the Suncorp Group, fails to maintain its current credit ratings, this could adversely affect the Group's cost of funds and related margins, competitive position and its access to capital and funding markets, which, in turn, could adversely affect the Group's businesses, financial performance, capital resources, financial condition and prospects. The extent and nature of these impacts would depend on various factors, including the extent of any ratings change, whether the ratings of Suncorp, or any member of the Suncorp Group, differ among agencies (split ratings) and whether any ratings changes also impact the Group's peers or the general insurance, banking or life insurance sectors.

5.2.13 MARKET RISK

The Group is exposed to market risk as a consequence of both its investments and trading activities in financial markets and through the asset and liability management of its balance sheet. In the Group's financial markets trading business, it is exposed to losses arising from adverse movements in levels and volatility of interest rates, foreign exchange rates, and credit prices. In the Group's asset and liability management of its balance sheet, it is exposed to losses arising from adverse movements in levels and volatility of interest rates. If the Group was to suffer substantial losses due to any market volatility, it could adversely affect the Group's businesses, financial performance, liquidity, capital resources and financial condition.

5.2.14 INVESTMENT PERFORMANCE

The Group has a significant investment portfolio supporting liabilities arising from its general insurance and life businesses.

The Group's investment portfolio consists of:

- shareholder assets backing insurance liabilities e.g. General Insurance technical funds which support outstanding claims and unearned premiums and investment portfolios backing risk and annuity products for the Life Insurance business;
- other shareholder assets e.g. the General Insurance and Life Insurance shareholder funds;
- assets backing participating policies for the Life Insurance business; and
- assets backing unit-linked policies for the Life Insurance business.

The investment portfolio is managed in accordance with the Group's risk appetite, investment policy and investment approach. The Group's investment approach for other shareholder assets is to invest in a range of assets including international and Australian equities and fixed income portfolios. The Group's investment approach for shareholder assets backing insurance liabilities is to mostly invest in high quality fixed income portfolios. The Group through its investment portfolios is exposed to risk and volatility in the markets, securities and other assets in which it invests. Those risks include, but are not limited to:

- asset/liability risk, i.e. the risk that the value of an investment portfolio will decrease relative to the value of the liabilities, as a result of fluctuation in investment factors including share prices, interest rates, credit spreads, counterparty default, exchange rates or commodity prices; and
- liquidity risk, including that assets cannot be sold without a significant impairment in value.

Such risks can be heightened during periods of high volatility, market disruption and periods of sustained low interest rates, such as those that occurred during the global financial crisis and could adversely affect the Group's businesses, financial performance, capital resources and financial condition.

5.2.15 OPERATIONAL RISK

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems, or from external events. As a financial services organisation the Group is exposed to a variety of operational risks such as fraud and other dishonest activities, management practices, workplace safety, project and change management, compliance, business continuity and crisis management, key person risk, information and systems integrity and outsourcing.

The Group relies to a significant degree on information technology systems. Most of the Group's daily operations are computer based and its information technology systems are essential to maintaining effective communication with customers and keeping pace with the competitive environment. The Group is exposed to a number of system risks, including:

- complete or partial failure of the information technology systems;
- inadequacy of internal, partner or third party information technology systems;
- capacity of the existing systems to effectively accommodate the Group's planned growth and integrate existing and future acquisitions and alliances;
- systems integration programs not being completed within the timetable or budget; and
- compromise of information or technology arising from external or internal security threats.

The Group has disaster recovery and systems development roadmaps in place to mitigate some of these risks. However, any failure in the Group's information technology systems could result in business interruption, the loss of customers, damaged reputation and weakening of its competitive position.

Operational risks, including information technology, could impact on the Group's operations or adversely affect demand for its products and services and its reputation, which could adversely affect the Group's businesses, financial performance and prospects.

5.2.16 ACCOUNTING POLICIES

The accounting policies and methods that the Group applies are fundamental to how it records and reports its financial position and the results of its operations. Management must exercise judgement in selecting and applying many of these accounting policies and methods so that they not only comply with generally accepted accounting principles but they also reflect the most appropriate manner in which to record and report on the financial position and results of operations. However, these accounting policies may be applied inaccurately, resulting in a misstatement of financial position and results of operations.

In some cases, management must select an accounting policy or method from two or more alternatives, any of which might comply with generally accepted accounting principles and be reasonable under the circumstances, yet might result in reporting materially different outcomes than would have been reported under another alternative.

5.2.17 STRUCTURAL SUBORDINATION

Suncorp is a holding company which owns or holds interests in a group of general insurance, banking and life insurance companies in Australia and New Zealand. In the event that a Suncorp subsidiary is wound up, the claims on Suncorp would be limited to the net assets (if any) of that subsidiary after all liabilities, including to policyholders and deposit holders, have been discharged or provided for.

In addition, Suncorp is reliant on the continued receipt of dividends or other funding from its subsidiaries to make payments on its securities. The ability of Suncorp's subsidiaries to pay dividends or to otherwise make funds available to Suncorp may in certain circumstances be subject to regulatory, contractual or legal restrictions.

5.2.18 MERGERS, ACQUISITIONS AND DIVESTMENTS

The Group may engage in merger, acquisition or divestment activity which facilitates the Group's strategic direction. Whilst the Group recognises that benefits may arise from merger, acquisition or divestment activities, significant risks exist in both the execution and implementation of such activities.

It is likely that the Group would raise additional debt or raise equity to finance any major merger or acquisition and this would cause the Group to face the financial risks and costs associated with additional debt or equity.

Mergers or acquisitions may require assimilation of new operations, new personnel and may cause dissipation of the Group's management resources. Changes in ownership and management may result in impairment of relationships with employees and customers of the acquired businesses. Depending on the type of transaction, it could take a substantial period of time for the Group to realise the financial benefits of the transaction, if any. During the period immediately following this type of transaction, the Group's operating results may be adversely affected.

As a target in any future merger or acquisition activity the issues identified above may also be relevant. For a discussion of the consequences of an Acquisition Event under the Conditions – see Section 5.1.8.

5. Investment risks

(continued)

Where the Group decides to divest a business or asset, this may involve a loss against book value, particularly of any goodwill or other intangibles.

The Group's failure to adequately manage the risks associated with any mergers, acquisitions or divestments could adversely affect the Group's businesses, financial performance, financial condition and prospects.

5.2.19 LITIGATION AND REGULATORY PROCEEDINGS

Suncorp and the Group, like all entities in the banking, insurance or finance sectors, are exposed to the risk of litigation and/or regulatory proceedings brought by or on behalf of policyholders, deposit holders, reinsurers, government agencies or other potential claimants. While there are no material legal proceedings that are current or known to be threatened against the Group, there can be no assurance that significant litigation will not arise in the future and that the outcome of legal proceedings from time to time will not have an adverse effect on the Group's businesses, financial performance, financial condition or prospects.

In addition, the Group, in the ordinary course of business, is regularly involved in legal proceedings relating to policies underwritten by entities within the Group or arising from its operations generally.

5.2.20 ENVIRONMENTAL RISK

The Group and its customers operate businesses and hold assets in a diverse range of geographical locations. Any significant environmental change or external event (including fire, storm, flood, earthquake or pandemic) in any of these locations has the potential to disrupt business activities, impact on the Group's operations, damage property and otherwise affect the value of assets held in the affected locations and the Group's ability to recover amounts owing to it. In addition, such an event could have an adverse impact on economic activity, consumer and investor confidence, or the levels of volatility in financial markets, which could adversely affect the Group's businesses, financial performance, capital resources, financial condition and prospects.

5.2.21 FAILURE OF RISK MANAGEMENT STRATEGIES

The Group has implemented risk management strategies and internal controls involving processes and procedures intended to identify, monitor and mitigate the risks to which it is subject, including liquidity risk, credit risk, market risk (including interest rate and foreign exchange risk) and operational risk.

However, there are inherent limitations with any risk management framework as there may exist, or develop in the future, risks that the Group has not anticipated or identified or controls that may not operate effectively.

If any of the Group's risk management processes and procedures prove ineffective or inadequate or are otherwise not appropriately implemented, the Group could suffer unexpected losses and reputational damage which could adversely affect the Group's businesses, financial performance, capital resources, financial condition and prospects.

6. About the Reinvestment Offer

This Section provides information on Suncorp's invitation to Eligible CPS Holders to apply to reinvest their CPS in Notes and the options available to CPS holders.

6. About the Reinvestment Offer

6.1 Overview

6.1.1 WHAT ARE CPS?

CPS are convertible preference shares issued by SML in 2008 (the terms of which were amended in 2010). CPS trade on ASX under the code "SBKPB".

6.1.2 WHAT IS THE REINVESTMENT OFFER AND AM I ELIGIBLE TO PARTICIPATE?

The Reinvestment Offer is an opportunity for Eligible CPS Holders to apply to reinvest their CPS in Notes.

Under the Reinvestment Offer, Suncorp offers to purchase some or all of the CPS of Eligible CPS Holders for \$100 per CPS on the Reinvestment Date (expected to be 22 May 2013). The proceeds of the sale of CPS will be applied to the Application Payment for Notes. This means that Eligible CPS Holders who participate in the Reinvestment Offer can apply to receive one Note for each Reinvested CPS.

To be eligible to participate, you must be:

- a registered holder of CPS on the Reinvestment Record Date (being 7:00pm (Sydney time) on 5 April 2013);
- shown on the register as having an address in Australia (or another jurisdiction to which Suncorp determines to extend the Reinvestment Offer); and
- must not be in the United States, or acting as a nominee for a person in the United States, or otherwise prevented from receiving the Reinvestment Offer of the Notes under the laws of any jurisdiction as determined by Suncorp.

6.1.3 WHAT IS THE PURPOSE OF THE REINVESTMENT OFFER?

Under the CPS terms, on the upcoming CPS Mandatory Conversion Date, being 14 June 2013, SML has the option to either cause CPS to be converted into Ordinary Shares or to conduct a resale of CPS to a Nominated Purchaser for \$100 per CPS. The Reinvestment Offer is an offer by Suncorp outside the CPS terms which is intended to assist Suncorp to refinance the CPS as well as offer Eligible CPS Holders the opportunity to apply to reinvest in Notes.

6.2 What are the options available to CPS holders?

6.2.1 I AM AN ELIGIBLE CPS HOLDER, WHAT ARE MY OPTIONS?

If you are an Eligible CPS Holder, you can invest in Notes through the Reinvestment Offer. To participate in the Reinvestment Offer, you can go online to complete your personalised Application Form (you will require your SRN or HIN).

Unless you apply for more Notes than the number of CPS held on the Reinvestment Record Date, you will not be required to make a separate Application Payment as the CPS sale proceeds will be applied to the Application Payment.

If you are an Eligible CPS Holder and you elect to participate in the Reinvestment Offer you will receive a Pro Rata Dividend of \$0.8272 per Reinvested CPS, subject to the dividend payment tests in the CPS terms being met, including the directors of SML determining to pay the dividend.

If you apply to have your CPS reinvested in Notes, it is your responsibility to ensure that CPS that are to be reinvested in Notes are not disposed of. If you dispose of your CPS that are intended to be reinvested in Notes prior to the Closing Date for the Reinvestment Offer, the number of Notes that may be allocated to you will be reduced to the extent that the required number of CPS are not available on the Closing Date for the Reinvestment Offer, expected to be 10 May 2013.

Once you have submitted an application to reinvest your CPS, a holding lock will be placed on those CPS and you will not be able to successfully trade them on market. The holding lock will be released from those CPS not successfully reinvested into Notes as soon as practicable after the Issue Date.

If you wish to apply for Notes we encourage you to apply as soon as possible after the Opening Date as the Offer may close early.

6. About the Reinvestment Offer

(continued)

6.2.2 I AM AN ELIGIBLE CPS HOLDER AND A CLIENT OF A SYNDICATE BROKER. WHAT SHOULD I DO?

If you are an Eligible CPS Holder and are an Australian resident retail or high net worth client of a Syndicate Broker, you may apply for Notes through the Reinvestment Offer under the Broker Firm Offer.

You may apply to reinvest all or some of the CPS registered in your name on the Reinvestment Record Date in Notes. You may also choose to apply for more Notes than the number of CPS held on the Closing Date of the Reinvestment Offer, expected to be 10 May 2013.

Unless you apply for more Notes than the number of CPS held on the Closing Date of the Reinvestment Offer, expected to be 10 May 2013, you will not be required to make a separate Application Payment as the CPS sale proceeds will be applied to the Notes Application Payment.

If you are an Eligible CPS Holder and you elect to participate in the Reinvestment Offer you will receive a Pro Rata Dividend of \$0.8272 per Reinvested CPS, subject to the dividend payment tests in the CPS terms being met, including the directors of SML determining to pay the dividend.

You should contact your Syndicate Broker for instructions on how to submit an Application Form and, if applicable, an Application Payment.

6.2.3 I AM AN INELIGIBLE CPS HOLDER, WHAT ARE MY OPTIONS?

If you are a CPS holder with a registered address outside Australia on the Reinvestment Record Date, then you are ineligible to participate in the Reinvestment Offer. In these circumstances, you may choose to sell CPS on market (and may have to pay brokerage) at the prevailing market price, which may be more or less than \$100. To choose this option, you should sell your CPS before the CPS Mandatory Conversion Date.

If you do not sell your CPS on market then it is expected that SML will issue a resale notice on, or before, 14 May 2013 announcing that it will conduct a resale of all remaining CPS on issue on 14 June 2013. If a resale occurs, your CPS will be sold to Suncorp (as Nominated Purchaser under the CPS terms) on 14 June 2013 and you will receive \$100 plus \$1.1029 accrued dividends as at that date, subject to dividend payment tests in the CPS terms being met, including the directors of SML determining to pay the dividend, for each CPS you held.

6.4 What are the risks associated with participating in the Reinvestment Offer?

If you are an Eligible CPS Holder and you apply under the Reinvestment Offer, you may receive an allocation of Notes. As such, you will be subject to the risks associated with an investment in Notes and in Suncorp, many of which are outside the control of Suncorp and its Directors. These risks are outlined in Section 5 and should be considered before you apply under the Reinvestment Offer.

There is a risk that you may not receive your full allocation of Notes, in which case, the balance of your CPS will not be reinvested and are expected to be resold on 14 June 2013. The risks associated with this are that:

- following the completion of the Reinvestment Offer, it is anticipated that the number of CPS available to trade on the market will decline as a result of the purchase of CPS by Suncorp under the Reinvestment Offer. This may lead to a less liquid market for the CPS that remain outstanding, which could negatively impact the ability for remaining CPS holders to sell their CPS on-market at an acceptable price, or at all; and
- if you hold both CPS and Notes, you will hold two securities with different issue terms and different risk profiles.

6.5 Further information about CPS and participating in the Reinvestment Offer

6.5.1 IF I ELECT TO PARTICIPATE IN THE REINVESTMENT OFFER, WHAT DIVIDENDS WILL I RECEIVE ON CPS?

If you are an Eligible CPS Holder and you elect for some or all of the CPS registered in your name on the Reinvestment Record Date, being 5 April 2013 to be reinvested in Notes, you will receive a Pro Rata Dividend on the Reinvested CPS subject to the dividend payment tests in the CPS terms being met, including the directors of SML determining to pay the dividend. This is to ensure that holders of Reinvested CPS receive dividends in respect of the period from 14 March 2013, until the Reinvestment Date.

Subject to dividend payment tests in the CPS terms being met, including the directors of SML determining to pay the dividend, the Pro Rata Dividend will be paid on the Reinvestment Date, expected to be 22 May 2013, for the period from (and including) 14 March 2013 to (but excluding) the Reinvestment Date. The Pro Rata Dividend is expected to be \$0.8272 per Reinvested CPS and is expected to be fully franked.

CPS holders who do not participate in the Reinvestment Offer will not receive a Pro Rata Dividend on the Reinvestment Date. However, a final franked dividend of \$1.1029 on CPS is expected to be paid on 14 June 2013, in accordance with the CPS terms.

6.5.2 CAN I ELECT TO REINVEST THE PRO RATA DIVIDEND IN NOTES?

No. The Pro Rata Dividend will be paid to Eligible CPS Holders in respect of their Reinvested CPS via direct credit or cheque on the Reinvestment Date, in accordance with your existing CPS payment instructions.

6.5.3 WILL I RECEIVE A PRIORITY ALLOCATION OF NOTES?

If you are an Eligible CPS Holder and you apply under the Reinvestment Offer, you will receive a priority allocation of Notes in relation to your Reinvested CPS over Securityholder Applicants, if there is excess demand for Notes.

6. About the Reinvestment Offer

(continued)

6.5.4 IF I WANT TO PARTICIPATE IN THE REINVESTMENT OFFER, DO I NEED TO REINVEST ALL OF MY CPS?

There is no minimum number of CPS that you must hold to be able to participate in the Reinvestment Offer.

If you are an Eligible CPS Holder and wish to participate in the Reinvestment Offer, you may apply to reinvest some or all of your CPS in Notes.

However, if you are an Eligible CPS Holder and own 50 CPS or fewer, you must apply to reinvest all your CPS in Notes if you wish to participate in the Reinvestment Offer.

If you are an Eligible CPS Holder and own more than 50 CPS, you must apply for a minimum number of 50 Notes (\$5,000).

6.5.5 IF MY APPLICATION FOR NOTES IS SCALED BACK, WHAT WILL HAPPEN TO THE CPS THAT ARE NOT SUCCESSFULLY REINVESTED?

Those CPS that are not successfully reinvested in Notes will be released from the holding lock as soon as practicable after the Issue Date for the Offer. Once released, you can sell your CPS on ASX at the prevailing market price subject to the liquidity of that market.

6.5.6 WHAT WILL HAPPEN TO ANY REMAINING CPS ON ISSUE FOLLOWING THE REINVESTMENT OFFER?

It is expected that SML will issue a resale notice on, or before, 14 May 2013 announcing that it will conduct a resale of all remaining CPS on issue on 14 June 2013. If a resale occurs, your CPS will be sold to Suncorp (as Nominated Purchaser under the CPS terms) on 14 June 2013 and you will receive \$100 plus \$1.1029 accrued dividends as at that date, subject to the dividend payment tests under the CPS terms being met, including the directors of SML determining to pay the dividend, for each CPS you held.

Following completion of the Reinvestment Offer and the expected resale of all remaining CPS, all CPS will be held by Suncorp and ultimately cancelled. No external securityholder approvals will be required to facilitate the cancellation.

6.5.7 WHAT DO YOU DO IF YOU HAVE SOLD SOME OF YOUR CPS BUT WISH TO APPLY FOR NOTES?

If you hold fewer CPS than set out on your personalised Application Form, you may still apply to reinvest the remaining CPS registered in your name on the Closing Date of the Reinvestment Offer in Notes.

If you wish to apply for more Notes than the number of CPS registered in your name on the Closing Date of the Reinvestment Offer, you will need to make a separate Application Payment.

6.5.8 CAN YOU SELL YOUR CPS AFTER YOU HAVE COMPLETED AND RETURNED YOUR APPLICATION FORM?

If you apply to have your CPS reinvested in Notes, it is your responsibility to ensure that you do not sell or dispose of any of those CPS, other than as part of the Reinvestment Offer.

CPS holders who apply to participate in the Reinvestment Offer are taken to agree to a holding lock being placed on those CPS, pending completion of the Reinvestment Offer – but it is your obligation to ensure that you do not transfer those CPS. If you do, the number of Notes you may be allocated will be reduced to the extent the required number of CPS are not available on the Closing Date of the Reinvestment Offer.

Once you have submitted an Application Form to apply to reinvest your CPS, you will not be able to successfully deal with those CPS until those CPS are released from the holding lock which is placed on them. The holding lock will be released from those CPS not successfully reinvested into Notes as soon as practicable after the Issue Date for the Offer.

6.5.9 IS BROKERAGE OR STAMP DUTY PAYABLE?

No brokerage or stamp duty is payable on the sale of your CPS to Suncorp under the Reinvestment Offer, the resale of your CPS to Suncorp (as Nominated Purchaser under the CPS terms) or your Application for Notes.

CPS holders who choose to sell their CPS on market through their broker may be required to pay applicable brokerage.

6.5.10 WHAT HAPPENS IF THE OFFER DOES NOT PROCEED?

If you have elected to apply to reinvest your CPS in Notes and the Offer does not proceed, your CPS will not be sold to Suncorp under the Reinvestment Offer, you will not receive the Pro Rata Dividend and you will continue to hold CPS. Any Application Payment in respect of additional Notes will be refunded to you. No interest will be payable on any Application Payment received from CPS holders.

If the Offer does not proceed, SML will separately notify CPS holders through ASX of its intention with regards to CPS prior to the CPS Mandatory Conversion Date on 14 June 2013.

7.6 Bookbuild and allocation policy

7.6.1 BOOKBUILD

The Bookbuild is a process that was conducted by the Joint Lead Managers before the Opening Date to determine the Margin and firm allocations of Notes to Bookbuild participants (being Syndicate Brokers and certain Institutional Investors), by agreement with Suncorp. In this process, the Bookbuild participants were invited to lodge bids for a number of Notes. On the basis of those bids, the Joint Lead Managers and Suncorp, by mutual agreement, determined the Margin and the firm allocations to Syndicate Brokers and to certain Institutional Investors.

The Bookbuild was conducted in the manner contemplated in this Prospectus and otherwise on the terms and conditions agreed to by Suncorp and the Joint Lead Managers under the Offer Management Agreement – see Section 10.6.

Suncorp may increase the size of the Offer following the close of the Bookbuild.

The collection and quotation of TFNs and ABNs are authorised, and their use and disclosure is strictly regulated, by tax laws and the Privacy Act. It is not an offence not to quote your TFN or ABN, however not doing so may result in tax being withheld from interest payments. Please refer to "*Pay as you go withholding tax*" in Section 8 for additional information.

Successful Applicants who do not have an address in Australia registered with the Registry, or who direct the payment of any Interest to an address outside of Australia, may have an amount deducted for Australian withholding tax from any Interest paid unless the Offer satisfies the public offer test in s.128F of the Income Tax Assessment Act 1936 and that Applicant is eligible for an exemption from interest withholding tax by virtue of that section.

7.7.7 DISCRETION REGARDING THE OFFER

Suncorp reserves the right not to proceed with, and may withdraw, the Offer at any time before the issue of Notes to successful Applicants.

If the Offer, or any part of it, does not proceed, all relevant Application Payments will be refunded (without interest). CPS Holder Applicants will not receive Notes and will retain their CPS.

Suncorp and the Joint Lead Managers also reserve the right to close the Offer or any part of it early, extend the Offer or any part of it, accept late Applications or bids either generally or in particular cases, reject any Application or bid, or allocate to any Applicant or bidder fewer Notes than applied or bid for. This is at Suncorp's discretion, and Suncorp is under no obligation to exercise that discretion in any particular case.

Investors should also note that no cooling off rights (whether by law or otherwise) apply to an Application for Notes. This means that, in most circumstances, Applicants may not withdraw their Applications once submitted.

Suncorp Group Limited

10 April 2013

Dear Directors,

Australian taxation consequences of investing in Suncorp Subordinated Notes

1 Introduction

We have been instructed to provide a summary of the primary Australian income tax and goods and services tax ("GST") consequences for investors who acquire Notes proposed to be issued by Suncorp Group Limited ("**Suncorp**") pursuant to the arrangements described in the Prospectus.

This letter only considers the primary Australian tax consequences for investors who hold Notes on capital account and who are not associates of Suncorp for tax law purposes ("**Holders**"). This letter also considers the consequences for Australian resident Holders who are subject to the Taxation of Financial Arrangement ("**TOFA**") rules. This letter does not consider the tax consequences for Holders who are in the business of dealing or trading in securities or who otherwise hold Notes on revenue account for tax purposes.

This letter also considers the Australian tax consequences for certain Eligible CPS Holders who participate in the Reinvestment Offer.

The following summary is necessarily general in nature and is not definitive or comprehensive as regards all tax issues that may arise for Holders. The Australian taxation consequences in relation to investing in Notes may vary according to each Holder's individual circumstances. Accordingly, Holders should seek their own independent tax advice.

This summary is based on the Australian taxation laws and the administrative practice of the Australian Taxation Office ("**ATO**") as at 9.00 am on the date of this letter. References to legislative provisions are references to the provisions of the *Income Tax Assessment Act 1936* and the *Income Tax Assessment Act 1997* (together, the "**Act**").

Capitalised terms which are not defined in this letter have the meaning given to them in the Prospectus.

2 Characterisation of the Notes

The Notes should be "debt interests" for income tax purposes. For Holders, the main implication of this is that Interest payments on the Notes will not be frankable payments.

For Australian resident Holders who are not subject to the TOFA provisions (see below), the Notes should be taxed as "traditional securities" and thus subject to the specific provisions in the Act relating to gains and losses arising from the disposal or redemption of traditional securities (s.26BB and s.70B).

The Notes should be "financial arrangements" for the purposes of the TOFA provisions in Division 230. The TOFA provisions only apply to limited categories of taxpayers, and generally will *not* apply to:

- individuals;
- superannuation funds and managed investment schemes with assets worth less than \$100m; or
- other entities that have: (i) aggregated turnover of less than \$100m; (ii) assets of less than \$300m; and (iii) financial assets of less than \$100m.

The TOFA provisions are complicated (and include various elective methods). As such, the comments in this letter in relation to the application of the TOFA provisions are general in nature. Holders who are subject to the TOFA provisions should take their own independent tax advice in relation to how the TOFA provisions apply to the Notes they hold.

3 Interest payments

3.1 Australian residents

Interest payments in respect of the Notes should be included in the assessable income of Australian resident Holders. The precise manner in which Interest payments are included in a Holder's assessable income will depend on whether the Holder is subject to the TOFA provisions.

(a) Holders not subject to TOFA

Holders who are not subject to TOFA should generally include Interest payments in their assessable income in the income years in which Interest payments are received from Suncorp.

(b) Holders subject to TOFA

The default position for Holders who are subject to TOFA is that Interest payments in respect of the Notes should be included in their assessable income on a compounding accruals basis over the period to which the Interest payment relates. However, there are various elective regimes under TOFA that taxpayers can elect into, which, if they applied, would affect the tax treatment of the Notes.

3.2 Non-residents

It is intended that the Notes will be issued in a manner which will satisfy the requirements for the Australian withholding tax exemption in s.128F of the Act.

If the requirements in s.128F are satisfied, Interest payments to a Holder who is a non-resident of Australia and who does not derive the Interest in the course of carrying on a business through a permanent establishment in Australia will not be subject to Australian withholding tax or other income tax.

If a non-resident Holder does derive Interest payments in the course of carrying on a business through a permanent establishment in Australia, then the Interest payments will be included in that Holder's assessable income for Australian tax purposes.

4 Disposal or redemption of Notes

4.1 Australian residents

(a) Holders not subject to TOFA

As noted above, for Australian resident Holders who are not subject to TOFA, the Notes should be taxed as "traditional securities" and thus subject to the specific provisions relating to gains and losses arising from the disposal or redemption of traditional securities (s.26BB and s.70B).

If a Holder disposes of their Notes or their Notes are redeemed, and the proceeds of the disposal or redemption exceed their cost for the Notes, the resulting gain should be

8. Australian taxation summary

(continued)

assessable income of the Holder in the income year in which the disposal or redemption occurs, pursuant to s.26BB. The gain will be taxable in the same way as ordinary income and will not be a capital gain. The Holder will not be entitled to apply the capital gains tax ("CGT") discount in respect of the gain, or to offset any capital losses against the gain.

Conversely, if the proceeds of the disposal or redemption are less than the Holder's cost for the Notes, the resulting loss should generally be deductible for the Holder in the income year in which the disposal or redemption occurs, pursuant to s.70B. However, such a loss will not be deductible if, broadly, the disposal or redemption occurs:

- otherwise than in the ordinary course of trading on a securities market; and
- because of a belief or apprehension that Suncorp is unable or unwilling to discharge its liability to pay amounts under the Notes.

For a Holder who acquires Notes under this Prospectus, the cost of a Note should generally be its issue price.

The proceeds of disposal will generally be the gross amount received by the Holder in respect of the disposal of the Notes. However, if the Notes are redeemed by Suncorp, the proceeds of disposal will exclude any parts of the redemption amount paid to Holders that are referable to any accrued and unpaid Interest. Those Interest amounts should be included separately in the Holder's assessable income (see 3.1(a) above).

(b) *Holders subject to TOFA*

Holders who are subject to TOFA will generally be required to recognise an assessable gain or deductible loss on disposal/redemption of the Notes under the TOFA balancing adjustment provisions. Although the mechanics of the balancing adjustment provisions take into account a number of components (including, Interest previously received and amounts previously recognised as assessable income) the broad effect of the balancing adjustment provisions should be to include an amount in assessable income or allow a deductible loss to the Holder reflecting the difference between the issue price paid by a Holder for the Notes and the consideration that the Holder receives on disposal/redemption of the Notes.

However, such a TOFA balancing adjustment loss will not be deductible if, broadly, the disposal or redemption of the Notes occurs:

- otherwise than in the course of trading on a securities market; and
- because of a belief or apprehension that Suncorp is unable or unwilling to discharge its liability to pay amounts under the Notes.

4.2 Non-residents

(a) *Disposal of Notes otherwise than by redemption*

A gain realised by a non-resident Holder on the disposal of Notes should not be subject to Australian income tax unless the gain has an Australian source.

Even where such a gain has an Australian source, a Holder who is a resident of a country with which Australia has concluded a tax treaty should not be subject to Australian income tax on the gain unless the gain is attributable to a business carried on through a permanent establishment of the Holder in Australia.

The source of a gain on disposal of a security is a factual issue, and would be determined by weighing various factors including the location of the security, the place at which the contract to sell the security is concluded and the place at which the decision to sell the security is made. However, it should be noted that the ATO has previously taken the (non-binding) view that gains arising from the sale of securities listed on the Australian Securities Exchange may have an Australian source on the basis that the contracts for the sale of the securities are made in Australia on behalf of the seller. Non-resident Holders should seek independent tax advice in respect of the source of any gain realised on disposal or redemption of their Notes.

If a gain realised by a non-resident Holder is subject to Australian tax because it has an Australian source, it will be taxed as ordinary income and not as a capital gain. Depending on whether or not the non-resident Holder is subject to TOFA, either the rules relating to traditional securities or the TOFA rules will apply (as discussed in 4.1 above).

(b) *Redemption of Notes*

Subject to the matters discussed below in this section, the tax treatment of a non-resident Holder whose Notes are redeemed by Suncorp is the same as that outlined for a disposal of Notes in 4.2(a) above.

The difference is that, where the Notes of a non-resident Holder are redeemed by Suncorp, the proceeds of disposal would exclude any part of the redemption amount paid to the Holder that is referable to any accrued and unpaid Interest on the Notes. Such Interest amounts would be treated for Australian tax purposes in the same manner as outlined in 3.2 above in respect of other Interest payments.

5 Conversion of Notes

5.1 Australian residents

(a) *Holders not subject to TOFA*

If Notes are Converted into Ordinary Shares, no gain or loss should arise for income tax purposes under s.26BB and s.70B respectively. In these circumstances, s.26BB(4) and s.70B(2B) operate to disregard any gain or loss.

Similarly, no capital gain or loss should arise on Conversion of the Notes as any such capital gain or loss arising should be disregarded under s.130-60(3).

When a Holder acquires Ordinary Shares on Conversion of the Notes, the traditional securities provisions in s.26BB and s.70B should no longer apply (i.e. the Ordinary Shares should not be traditional securities).

Ordinary Shares acquired as a consequence of Conversion should be treated as having a cost base and a reduced cost base for CGT purposes equal to the cost base of the Notes at the time of Conversion. For CGT purposes, the acquisition date of Ordinary Shares should be the time of Conversion. This would be relevant in the case of any subsequent disposal of Ordinary Shares.

(b) *Holders subject to TOFA*

The default position for Holders who are subject to TOFA is that the Conversion of the Notes into Ordinary Shares should not give rise to a balancing adjustment event. The consequence of this is that no gain or loss should arise for income tax purposes on Conversion. However, as noted above, Holders who are subject to TOFA should take their own independent tax advice as the actual treatment for any individual Holder will depend on their own particular circumstances (including, what elections (if any) they have made under the TOFA provisions).

When a Holder acquires Ordinary Shares on Conversion of the Notes, the TOFA provisions should not apply to the Ordinary Shares, unless certain TOFA elections have been made. The comments set out in 5.1(a) above in respect of the ongoing CGT consequences for a Holder in relation to Ordinary Shares will generally apply.

5.2 Non-residents

As with Australian resident Holders who are not subject to TOFA, any gain or loss arising on Conversion of Notes should generally be disregarded for the purposes of s.26BB/s.70B and the CGT rules, as described in 5.1(a) above.

The cost base of Ordinary Shares for non-resident Holders will be calculated in the same way as described in 5.1(a) above. However, any capital gain or capital loss made by non-resident Holders from any subsequent disposal of Ordinary Shares is likely to be disregarded on the basis that Ordinary Shares are not likely to be "taxable Australian property" at the time of the disposal.

8. Australian taxation summary

(continued)

Non-resident Holders should seek their own taxation advice in relation to the operation of the Australian CGT rules.

6 Eligible CPS Holders participating in the Reinvestment Offer

Eligible CPS Holders have the option to participate in the Reinvestment Offer. This will be undertaken by Suncorp acquiring the CPS from Eligible CPS Holders with the proceeds of sale (excluding any Pro Rata Dividend) being applied to acquire Notes.

The following income tax consequences will generally apply for Eligible CPS Holders who are Australian tax residents and who participate in the Reinvestment Offer to the extent those participants are not in the business of dealing or trading in securities and do not otherwise hold their CPS on revenue account for tax purposes.

An Eligible CPS Holder who elects to participate in the Reinvestment Offer will receive a Pro Rata Dividend on each Reinvested CPS, subject to the dividend payment tests in the CPS terms being met, including the directors of SML determining to pay the dividend.

Pro Rata Dividends should be subject to the same taxation treatment as other dividends paid on CPS. In particular, Australian resident Eligible CPS Holders should include the amount of a Pro Rata Dividend as well as an amount equal to the franking credits attached to the Pro Rata Dividend in their assessable income and should, subject to their own facts and circumstances, generally qualify for a tax offset equal to the franking credits.

The sale of CPS by Eligible CPS Holders to Suncorp will constitute a disposal for CGT purposes.

To the extent that the sale proceeds received by an Australian resident Eligible CPS Holder on the sale of their CPS exceed the cost base in their CPS, the excess would constitute a capital gain in the hands of Australian resident Eligible CPS Holders. Conversely, a capital loss would arise equal to the amount by which the sale proceeds are less than the reduced cost base.

The cost base or reduced cost base of CPS respectively should include the amount paid to acquire CPS (when issued by SML) as well as any incidental costs (e.g. broker fees) associated with the acquisition and disposal of CPS.

If CPS have been owned for at least 12 months prior to the sale (excluding the days of acquisition and disposal), an Australian resident Eligible CPS Holder (other than a company) may be entitled to CGT discount treatment in respect of any capital gain arising on disposal of their CPS, such that a percentage of the gain is not included in assessable income. The discount percentage is applied to the amount of the capital gain after offsetting any current year or carried forward capital losses. The discount percentages are 50% for Australian resident Eligible CPS Holders who are individuals and trusts and 33⅓% for Australian resident Eligible CPS Holders who are complying superannuation entities.

Any capital gain or capital loss made by non-resident Eligible CPS Holders are likely to be disregarded on the basis that CPS are not likely to be "taxable Australian property" at the time of sale.

The proceeds from the sale of CPS that are applied to acquire Notes will be included in the cost of the Notes for the purposes of determining any future gain or loss on their disposal, redemption or Conversion – refer to 5 above.

7 Goods and services tax

Neither the issue nor receipt of the Notes should give rise to a GST liability, on the basis that the supply of Notes is either an input taxed financial supply or (in the case of non-resident subscribers) a GST-free supply. Furthermore, neither the payment of Interest or the redemption amount for Notes, nor the disposal of Notes, should give rise to any GST liability.

Holders should seek their own independent advice as to whether any GST costs they incur in relation to acquiring Notes would be recoverable.

8 Pay as you go withholding tax

Australian resident Holders may, if they choose, notify Suncorp of their tax file number ("TFN"), Australian Business Number ("ABN"), or a relevant exemption from withholding tax from Interest payments. In the event that Suncorp is not so notified, tax will be automatically deducted at the highest marginal tax rate (including Medicare Levy) from Interest payments on the Notes. The rate of withholding is currently 46.5%.

Suncorp is required to withhold and remit to the ATO such tax until such time as it receives the relevant TFN, ABN or exemption notification. Australian resident Holders will be able to claim a tax credit/rebate (as applicable) in their tax returns in respect of any tax withheld.

If payments of Interest are exempt from Australian interest withholding tax under s.128F, then non-resident Holders who do not hold the Notes through a permanent establishment in Australia should not be subject to any withholding tax under these rules.

10.5.7 RETIREMENT AND REMOVAL

The Trustee may retire at any time by giving notice to Suncorp at least 60 days before the date it wants to retire or any shorter period which is agreed.

Suncorp may remove the Trustee at any time by giving notice to the Trustee of at least 60 days (or such other period as Suncorp and the Trustee may agree or required by the Corporations Act) in circumstances, amongst others, where:

- the Trustee is in breach of its material obligations under the Trust Deed and has not rectified the breach within 10 Business Days of receiving notice from Suncorp requesting the breach be remedied;
- the Trustee has acted fraudulently, has been grossly negligent or is in wilful default or is in breach of section 283DA of the Corporations Act and, where such has occurred and where such default is capable of remedy, the Trustee has not remedied the breach within 7 Business Days after receiving notice from Suncorp of its occurrence;
- the Trustee ceases or has ceased or has expressed an intention to cease to carry on business;
- the Trustee ceases to be a person which can act as Trustee under the Corporations Act;
- the Trustee is placed in liquidation or is wound-up or dissolved or a receiver, liquidator, administrator or similar person is appointed to the Trustee; or

- Suncorp is authorised or requested to do so by a meeting of Holders.

The removal or retirement of the Trustee does not take effect until the appointment of a new trustee is effective. Suncorp has the power to appoint a new trustee.

10.5.8 MEETINGS

A meeting of Holders has the power to – by Ordinary Resolution, give directions to the Trustee as to the performance of its duties under the Trust Deed and the Conditions and – by Special Resolution, release the Trustee from liability, approve any act taken by the Trustee or approve any amendment to the Trust Deed or the Conditions required to be authorised by a Special Resolution.

Each Holder is entitled to one vote on a show of hands unless a poll is demanded by the chairperson, the Trustee or Suncorp or by or on behalf of one or more Holders holding (in aggregate) Notes representing at least 5% of the aggregate Face Value of the Notes outstanding when the meeting begins. On a show of hands, every Holder who is present has one vote and on a poll every Holder of Notes who is present has one vote for every Note with respect to which it is the registered holder.

10.5.9 NO MONITORING OBLIGATIONS

The Trustee is not responsible for monitoring compliance by Suncorp with its covenants and obligations under the Trust Deed or any other activities or status of Suncorp except as required by law. In this regard, the Trustee is subject to certain statutory duties imposed on it under Chapter 2L of the Corporations Act including to:

- exercise reasonable diligence to ascertain whether:
 - the property of Suncorp that is or should be available will be sufficient to repay the amounts lent by Holders in respect of Notes; and
 - Suncorp has breached the Conditions, the Trust Deed or the provisions of Chapter 2L of the Corporations Act; and
- unless the Trustee is satisfied the breach is not material, it must do everything in its power to ensure Suncorp remedies such a breach.

10.5.10 RECEIPT OF MONEYS

All moneys that are received by the Trustee under the Trust Deed will be applied first in payment of any amounts owing to the Trustee in connection with the Trust Deed, secondly in or towards payment of all amounts due but unpaid under the Notes to the relevant Holders. The balance (if any) of the money remaining after those payments will be returned to Suncorp.

10.6 Summary of the Offer Management Agreement

10.6.1 OVERVIEW

Suncorp and the Joint Lead Managers signed the Offer Management Agreement on 10 April 2013. Under the Offer Management Agreement, Suncorp appointed UBS, ANZ Securities Limited, National Australia Bank Limited, RBS Morgans Limited and Westpac Institutional Bank (a division of Westpac Banking Corporation) as joint lead managers of the Offer. The following is a summary of the principal provisions of the Offer Management Agreement.

Under the Offer Management Agreement, the Joint Lead Managers have agreed to manage the Offer, including the Bookbuild and related allocation process for the Offer and to provide settlement support for the settlement obligations of successful Applicants under the Bookbuild.

10.6.2 FEES

The estimated aggregate fees payable by Suncorp to the Joint Lead Managers under the Offer Management Agreement are set out in Section 9.2.2. The actual amount payable will not be known until the allocation of Notes under the Offer. In addition, Suncorp must reimburse each Joint Lead Manager for reasonable expenses, including reasonable legal and travel costs, incurred by the Joint Lead Managers in relation to the Offer.

10.6.3 REPRESENTATIONS, WARRANTIES AND UNDERTAKINGS

Suncorp gives various representations, warranties and undertakings to the Joint Lead Managers, including that the documents issued or published by or on behalf of Suncorp in respect of the Offer comply with all applicable laws, including the Corporations Act and the ASX Listing Rules. With the exception of the Notes issue and certain other corporate actions (including an issue of shares in the same class as existing Ordinary Shares in Suncorp), Suncorp has also agreed that it will not (and will ensure that its related bodies corporate do not), without the Joint Lead Managers' prior written consent, offer, issue or create or agree to offer, issue or create, or indicate in any way that it may or will offer, issue or create, any securities with Additional Tier 1 Capital status at any time after the date of the Offer Management Agreement and before the expiration of 90 days after the Issue Date, or any securities with Tier 2 Capital status predominantly offered to Australian retail investors

at any time after the date of the Offer Management Agreement and before the expiration of 45 days after the Issue Date, or any securities that are convertible into or exchangeable for any of those securities, or any option or other rights to acquire any of those securities at any time after the date of the Offer Management Agreement and before the expiration of the time period applicable to the status of those securities mentioned earlier.

10.6.4 INDEMNITY

Suncorp agrees to indemnify the Joint Lead Managers, their affiliates and the officers, directors, employees, agents, advisers and representatives of the Joint Lead Managers and their affiliates against all claims, demands, damages, losses, costs, expenses, liabilities, damages or actions incurred by them in connection with the Offer (subject to limited exclusions).

10.6.5 TERMINATION EVENTS

Each Joint Lead Manager may terminate at any time its obligations under the Offer Management Agreement on the occurrence of a number of customary termination events, including (among others):

- ASIC issues a stop order in relation to the Offer;
- ASX refuses to quote the Notes on ASX;
- the trading of Ordinary Shares is suspended or they cease to be quoted on the ASX;
- ASIC withdraws or varies its ASIC Modification;
- any person withdraws their consent to be named in the Prospectus;
- Suncorp withdraws the Prospectus or the Offer;
- a supplementary prospectus is required under section 719 of the Corporations Act;

- a credit rating downgrade of Suncorp;
- a specified fall in the S&P ASX 200;
- unauthorised alterations to Suncorp's share capital or constitution;
- a material adverse change in the position or prospects of members of the Group; and
- the Trustee ceases to act (or is replaced).

Certain of these events will only give rise to a right to terminate if the Joint Lead Manager reasonably believes that the event is likely to have a material adverse effect on the Offer or there is a reasonable possibility that the Joint Lead Manager will contravene, be involved in a contravention of, or incur a liability under the Corporations Act or any other applicable law as a result of the event. If this occurs, the Joint Lead Manager who terminates will no longer be a lead manager and will not be obliged to conduct the Bookbuild or provide settlement support for the Bookbuild.

Under the Offer Management Agreement, if one Joint Lead Manager terminates, the other Joint Lead Managers may give notice in writing to Suncorp stating whether they assume the obligations of the terminating Joint Lead Manager. In addition, if any Joint Lead Manager terminates its obligations under the Offer Management Agreement, then that Joint Lead Manager and certain of their affiliates will have no obligations to subscribe for any Notes as Bookbuild investors.

If all Joint Lead Managers terminate, none of them, their affiliates or any Bookbuild investors will have any obligation to subscribe for Notes.

This Prospectus is authorised by each Director who consents, and who has not withdrawn their consent, to its lodgement with ASIC and its issue.

For personal use only

Note Conditions

a. Note Conditions

1 Form and Face Value

1.1 FORM

The Notes are direct, unsecured and subordinated debt obligations of Suncorp issued in registered form by entry in the Register. The Notes are unsecured notes for the purposes of section 283BH of the Corporations Act.

1.2 FACE VALUE AND ISSUE PRICE

The Face Value and issue price of each Note is \$100.

1.3 CHESS

The Notes will be entered in and dealt with in CHESS. While the Notes remain in CHESS:

- (a) the rights and obligations of a person holding the Notes; and
- (b) all dealings (including transfers and payments) in relation to the Notes within CHESS,

will be subject to and governed by the ASX Settlement Operating Rules (but without affecting any Conditions which affect the eligibility of the Notes as Tier 2 Capital).

No certificates will be issued to Holders unless Suncorp determines that certificates should be available or are required by law.

1.4 INDEPENDENT OBLIGATIONS

Each entry in the Register constitutes a separate and individual acknowledgement to the relevant Holder of the indebtedness of Suncorp to the relevant Holder. Subject to Condition 10, the Holder to whom those obligations are owed is entitled to enforce them without having to join any other Holder or any predecessor in title of a Holder.

2 Status and subordination

2.1 STATUS AND RANKING

The Notes constitute direct and unsecured subordinated obligations of Suncorp, ranking:

- (a) ahead of the claims of all Shareholders;
- (b) ahead of all unsecured subordinated obligations of Suncorp under instruments issued as Relevant Tier 1 Capital Instruments;
- (c) equally among themselves;
- (d) equally with all other unsecured subordinated obligations of Suncorp under instruments issued as Relevant Tier 2 Capital Instruments; and
- (e) behind the claims of Unsubordinated Creditors.

2.2 SOLVENCY CONDITION TO PAYMENT

When Suncorp is not in a winding-up:

- (a) the obligations of Suncorp to make any payment in respect of the Notes will be conditional on Suncorp being Solvent at the time of the payment; and
- (b) no payment in respect of the Notes will be made unless Suncorp is Solvent immediately after making the payment,

(the **Solvency Condition**).

Any amount not paid on account of the Solvency Condition remains as a debt owing by Suncorp to the relevant Holders which is payable on the first Business Day on which the amount may be paid in compliance with the Solvency Condition.

A certificate signed by Suncorp, two authorised signatories of Suncorp, its auditor or, if Suncorp is being wound up, its liquidator, as to whether Suncorp is Solvent at any time is (in the absence of wilful default, bad faith or manifest error) conclusive evidence of the information contained in the certificate

and will be binding on the Holders.

In the absence of such a certificate, Holders are entitled to assume (unless the contrary is proved) that Suncorp is Solvent at the time of, and will be Solvent immediately after, any payment in respect of the Notes.

2.3 SUBORDINATION IN A WINDING-UP

If Suncorp is in winding-up, all amounts due in respect of the Notes will be subordinated to the claims of all Unsubordinated Creditors as provided in Condition 11.

2.4 EFFECT OF NON-VIABILITY TRIGGER EVENT

If a Non-Viability Trigger Event occurs, despite any other provision in these Conditions, Notes will be Converted into Ordinary Shares as provided in Condition 5 or, if Condition 5.3 applies, Written-Off.

3 Interest

3.1 NOTES BEAR INTEREST

Each Note bears interest (**Interest**) on its Face Value from and including its Issue Date to but excluding its Maturity Date or any Early Redemption Date. Interest accrues daily.

3.2 INTEREST PAYMENT DATES

Subject to the Solvency Condition, Interest in respect of a Note will be payable quarterly in arrears, on 22 February, 22 May, 22 August and 22 November each year, commencing on 22 August 2013. If any of those dates is not a Business Day, the Interest Payment Date is the following Business Day.

3.3 INTEREST CALCULATIONS

Subject to these Conditions, Suncorp shall pay on each Note on an Interest Payment Date Interest calculated according to the following formula:

$$\text{Interest} = \frac{(\text{Face Value} \times \text{Interest Rate} \times N)}{365}$$

Where:

Interest Rate (expressed as a percentage per annum) is calculated according to the following formula:

Interest Rate = Bank Bill Rate + Margin

Where:

Bank Bill Rate (expressed as a percentage per annum) means, for an Interest Period, the average mid-rate for Bills of a term of 90 days which average mid-rate is displayed on Reuters page BBSW (or any page which replaces that page) on the first Business Day of the Interest Period or, if there is a manifest error in the calculation of that average mid-rate or that average mid-rate is not displayed by 10:30am (Sydney time) on that date, the rate specified in good faith by Suncorp at or around that time on that date having regard, to the extent possible, to:

- (a) the rates otherwise bid and offered for Bills of a term of 90 days or for funds of that tenor displayed on Reuters page BBSW (or any page which replaces that page) at that time on that date; or
- (b) if bid and offer rates for Bills of a term of 90 days are not otherwise available, the rates otherwise bid and offered for funds of that tenor at or around that time on that date.

Margin (expressed as a percentage per annum) means the margin determined under the Bookbuild.

N means in respect of:

- (a) the first Interest Payment Date, the number of days from (and including) the Issue Date until (but not including) the first Interest Payment Date; and
- (b) each subsequent Interest Payment Date, the number of days from (and including) the preceding Interest Payment Date until (but not including) the relevant Interest Payment Date.

3.4 SUNCORP TO DETERMINE AND NOTIFY

Suncorp must:

- (a) determine the Interest Rate and amount of Interest for each Interest Period in respect of a Note; and
- (b) give notice to the Registrar, the Trustee and the Holders of its determination (an **Interest Notice**) no later than the fourth Business Day after the first day of the Interest Period.

3.5 CUMULATIVE INTEREST

For any Interest which is not paid by virtue of the Solvency Condition, Interest shall accrue at the Interest Rate in the manner provided in this Condition 3. Such Interest accumulates, accrues to and, together with the Interest which was not paid by virtue of the Solvency Condition, is due and payable on, the first Business Day on which the amount may be paid in compliance with the Solvency Condition.

3.6 CALCULATION OF ACCRUED INTEREST IN OTHER CASES

Where under these Conditions the day for payment of any accrued Interest is not an Interest Payment Date, the amount of that Interest will be calculated in accordance with Condition 3.3 as if a reference to "N" is a reference to the number of days in the Interest Period ending on but excluding that date.

4 Redemption

4.1 REDEMPTION ON THE MATURITY DATE

Suncorp shall redeem each Note on the Maturity Date by payment of its Face Value (together with any accrued and unpaid Interest on the Note to the Maturity Date).

4.2 EARLY REDEMPTION BY SUNCORP

With the prior written approval of APRA, Suncorp may by notice to Holders, the Trustee and the Registrar (an **Early Redemption Notice**) elect to redeem:

- (a) some or all of the Notes on 22 November 2018 or any subsequent Interest Payment Date (each an **Optional Redemption Date**); or
- (b) all (but not some) of the Notes if a Tax Event or a Regulatory Event occurs.

4.3 EARLY REDEMPTION NOTICE

An Early Redemption Notice must specify:

- (a) where Condition 4.2(b) applies, the details of the Tax Event or Regulatory Event to which the Early Redemption Notice relates;
- (b) the number of Notes to be redeemed; and
- (c) the Early Redemption Date, which:
 - (i) in the case of an Optional Redemption Date, is the Optional Redemption Date which is at least 15 days (and no more than 50 days) after the date the Early Redemption Notice is given; and
 - (ii) in the case of a Tax Event or Regulatory Event, is a date which is at least 15 days (and no more than 50 days) after the date the Early Redemption Notice is given.

4.4 EFFECT OF AN EARLY REDEMPTION NOTICE

An Early Redemption Notice given under Condition 4.2 is irrevocable and obliges Suncorp, subject to the Solvency Condition, to redeem the relevant number of Notes on the Early Redemption Date, by payment of the Face Value in respect of each Note to be redeemed (together with any accrued but unpaid Interest on the Note to the Early Redemption Date).

a. Note Conditions

(continued)

4.5 NO EARLY REDEMPTION AT THE OPTION OF HOLDERS

A Holder cannot require Suncorp to redeem all or some of the Notes held by that Holder before their Maturity Date.

4.6 PURCHASES

Suncorp and any of its Related Entities may at any time with APRA's prior written approval purchase Notes in the open market or otherwise.

4.7 EARLY REDEMPTION AND PURCHASE RESTRICTIONS

Suncorp may only elect to redeem any Notes under Condition 4.2, and Suncorp or any of its Related Entities may only elect to purchase any Notes under Condition 4.6, if either:

- (a) before or concurrently with the redemption or purchase, Suncorp replaces the Notes the subject of the redemption or purchase with a capital instrument which is of the same or better quality (for the purposes of APRA's prudential standards as they are applied to the Group at the relevant time) and the replacement of the relevant Notes is done under conditions that are sustainable for the income capacity of Suncorp; or
- (b) Suncorp obtains confirmation from APRA that APRA is satisfied, having regard to the capital position of the Group, that Suncorp does not have to replace the Notes the subject of the redemption or purchase.

Holders should not expect that APRA's approval will be given for any early redemption or purchase of Notes under these Conditions.

5 Conversion on Non-Viability Trigger Event

5.1 NON-VIABILITY TRIGGER EVENT

(a) A **Non-Viability Trigger Event** occurs when APRA provides a written determination to Suncorp that the conversion or write-off of Relevant Capital Instruments in accordance with their terms or by operation of law is necessary because:

- (i) without the conversion or write-off, APRA considers that Suncorp would become non-viable; or
 - (ii) without a public sector injection of capital into, or equivalent capital support with respect to, Suncorp, APRA considers that Suncorp would become non-viable.
- (b) If a Non-Viability Trigger Event occurs Suncorp must convert or write-off:
- (i) all Relevant Capital Instruments; or
 - (ii) an amount of the Relevant Capital Instruments if APRA is satisfied that conversion or write-off of that amount will be sufficient to ensure that Suncorp does not become non-viable.

5.2 NON-VIABILITY TRIGGER EVENT NOTICE

(a) If a Non-Viability Trigger Event occurs:

- (i) on that date (the **Non-Viability Conversion Date**) Suncorp must immediately determine in accordance with APRA's determination under Condition 5.1:

- (A) the amount of Notes that will Convert and the amount of other Relevant Capital Instruments which will convert or be written-off; and

- (B) the identity of the Holders at the time that the Conversion is to take effect on that date (and in making that determination Suncorp may make any decisions with respect to the identity of the Holders at that time as may be necessary or desirable to ensure Conversion occurs in an orderly manner, including disregarding any transfers of Notes that have not been settled or registered at that time);

- (ii) subject only to Condition 5.3 and despite any other provision in these Conditions, on the Non-Viability Conversion Date the relevant amount of Notes will Convert, and the relevant amount of other Relevant Capital Instruments will convert or be written-off, in each case immediately and irrevocably; and

- (iii) Suncorp must give notice of the Non-Viability Trigger Event (a **Non-Viability Trigger Event Notice**) to Holders and the Trustee as soon as practicable which states the Non-Viability Conversion Date, the amount of Notes Converted and the relevant amount of Relevant Capital Instruments converted or written-off.

- (b) If in accordance with Condition 5.1 Suncorp is required to convert only an amount of Relevant Capital Instruments, Suncorp will determine the amount of Notes which will Convert and other Relevant Capital Instruments which will convert or be written-off as follows:

- (i) first, Suncorp will convert or write-off all Relevant Tier 1 Capital Instruments before Conversion of the Notes;
 - (ii) second, if conversion or write-off of Relevant Tier 1 Capital Instruments is less than the amount sufficient to satisfy APRA that Suncorp would not become non-viable, Suncorp will Convert Notes and convert or write-off other Relevant Tier 2 Capital Instruments in an aggregate amount which when added to the amount of Relevant Tier 1 Capital Instruments converted or written-off will satisfy APRA that Suncorp would not become non-viable; and
 - (iii) in Converting Notes or converting or writing-off other Relevant Tier 2 Capital Instruments Suncorp will endeavour to treat Holders and holders of other Relevant Tier 2 Capital Instruments on an approximately proportionate basis, but may discriminate to take account of the effect on marketable parcels and other logistical considerations and the need to effect the Conversion immediately.
- (c) None of the following shall prevent, impede or delay the Conversion of Notes as required by this Condition 5.2:
- (i) any failure to or delay in the conversion or write-off of any other Relevant Capital Instruments;
 - (ii) any failure or delay in giving a Non-Viability Trigger Event Notice;
 - (iii) any failure or delay in quotation of the Ordinary Shares to be issued on Conversion; or
 - (iv) any requirement to select or adjust the amount of Notes to be Converted in accordance with Condition 5.2(b)(iii).
- (d) From the Non-Viability Conversion Date, subject to Condition 5.3, Suncorp shall treat the Holder in respect of the Notes as the holder of the Conversion Number of Ordinary Shares and will take all such steps, including updating any register, required to record the Conversion.

5.3 NO FURTHER RIGHTS IF CONVERSION CANNOT OCCUR

Where on the Non-Viability Conversion Date an Inability Event subsists and Conversion has not been effected within five Business Days after the Non-Viability Conversion Date, then to the extent such event prevents Suncorp from Converting Notes the relevant Holders' rights (including to the payment of Interest and Face Value) in relation to such Notes are immediately and irrevocably written-off and terminated (**Written-Off**).

6 Conversion Mechanics

6.1 CONVERSION

On the Non-Viability Conversion Date, subject to Conditions 5.3, 6.12 and 6.13, the following will apply:

- (a) Suncorp will allot and issue the Conversion Number of Ordinary Shares in respect of each Note required to be Converted. The Conversion Number is calculated according to the following formula, and subject always to the Conversion Number being no greater than the Maximum Conversion Number:

$$\text{Conversion Number for each Note} = \frac{\$100}{99\% \times \text{VWAP}}$$

where:

VWAP (expressed in dollars and cents) means the VWAP during the VWAP Period.

Maximum Conversion Number

means a number calculated according to the following formula:

$$\text{Maximum Conversion Number} = \frac{\$100}{\text{Relevant Fraction} \times \text{Issue Date VWAP}}$$

where:

Relevant Fraction means 0.20.

- (b) Each Holder's rights (including to payment of Interest) in relation to each Note will be immediately and irrevocably terminated for an amount equal to the Face Value and Suncorp will apply that Face Value by way of payment for the subscription for the Ordinary Shares to be allotted and issued under Condition 6.1(a). Each Holder is taken to have irrevocably directed that any amount payable under this Condition 6.1 is to be applied as provided for in this Condition 6.1 and no Holder has any right to payment in any other way.
- (c) If the total number of additional Ordinary Shares to be allotted and issued in respect of a Holder's aggregate holding of Notes includes a fraction of an Ordinary Share, that fraction of an Ordinary Share will be disregarded.

6.2 ADJUSTMENTS TO VWAP GENERALLY

For the purposes of calculating VWAP under Condition 6.1:

- (a) where, on some or all of the Business Days in the relevant VWAP Period, Ordinary Shares have been quoted on ASX as cum dividend or cum any other distribution or entitlement and Notes will be Converted into Ordinary Shares after that date and those Ordinary Shares will no longer carry that dividend or any other distribution or entitlement, then the VWAP on the Business Days on which those Ordinary Shares have been quoted cum dividend or cum any

a. Note Conditions

(continued)

other distribution or entitlement will be reduced by an amount (**Cum Value**) equal to:

- (i) in the case of a dividend or other distribution, the amount of that dividend or other distribution including, if the dividend or other distribution is franked, the amount that would be included in the assessable income of a recipient of the dividend or other distribution who is both a resident of Australia and a natural person under the Tax Act;
 - (ii) in the case of any other entitlement that is not a dividend or other distribution under Condition 6.2(a)(i) which is traded on ASX on any of those Business Days, the volume weighted average price of all such entitlements sold on ASX during the VWAP Period on the Business Days on which those entitlements were traded; or
 - (iii) in the case of any other entitlement which is not traded on ASX during the VWAP Period, the value of the entitlement as reasonably determined by the Directors; and
- (b) where, on some or all of the Business Days in the VWAP Period, Ordinary Shares have been quoted as ex dividend or ex any other distribution or entitlement, and Notes will be Converted into Ordinary Shares which would be entitled to receive the relevant dividend, distribution or entitlement, the VWAP on the Business Days on which those Ordinary Shares have been quoted ex dividend or ex any other distribution or entitlement will be increased by the Cum Value.

6.3 ADJUSTMENTS TO VWAP FOR REORGANISATION

- (a) Where during the relevant VWAP Period there is a change to the number of Ordinary Shares on issue as a result of a Reorganisation, in calculating the VWAP for the VWAP Period, the VWAP for each Business Day in the relevant VWAP Period which falls before the date on which trading in Ordinary Shares is conducted on a post Reorganisation basis shall be adjusted by the following formula:

$$\frac{A}{B}$$

Where:

A means the aggregate number of Ordinary Shares immediately before the Reorganisation; and

B means the aggregate number of Ordinary Shares immediately after the Reorganisation.

- (b) Any adjustment made by Suncorp in accordance with Condition 6.3(a) will be effective and binding on Holders under these Conditions and these Conditions will be construed accordingly.

6.4 ADJUSTMENTS TO ISSUE DATE VWAP GENERALLY

For the purposes of determining the Issue Date VWAP, adjustments will be made in accordance with Conditions 6.2 and 6.3 during the VWAP Period for the Issue Date VWAP. On and from the Issue Date, adjustments to the Issue Date VWAP:

- (a) may be made by Suncorp in accordance with Conditions 6.5 to 6.7 (inclusive); and
- (b) if so made, will correspondingly cause an adjustment to the Maximum Conversion Number.

6.5 ADJUSTMENTS TO ISSUE DATE VWAP FOR BONUS ISSUES

- (a) Subject to Condition 6.5(b), if at any time after the Issue Date, Suncorp makes a *pro rata* bonus issue of Ordinary Shares to holders of Ordinary Shares generally, the Issue Date VWAP will be adjusted immediately in accordance with the following formula:

$$V = V_o \times \frac{RD}{RD + RN}$$

Where:

V means the Issue Date VWAP applying immediately after the application of this formula;

V_o means the Issue Date VWAP applying immediately prior to the application of this formula;

RD means the number of Ordinary Shares on issue immediately prior to the allotment of new Ordinary Shares pursuant to the bonus issue; and

RN means the number of Ordinary Shares issued pursuant to the bonus issue.

- (b) Condition 6.5(a) does not apply to Ordinary Shares issued as part of a bonus share plan, employee or executive share plan, executive option plan, share top up plan, share purchase plan or a dividend reinvestment plan.
- (c) For the purpose of Condition 6.5(a), an issue will be regarded as a bonus issue notwithstanding that Suncorp does not make offers to some or all holders of Ordinary Shares with registered addresses outside Australia, provided that in so doing Suncorp is not in contravention of the ASX Listing Rules.

- (d) No adjustments to the Issue Date VWAP will be made under this Condition 6.5 for any offer of Ordinary Shares not covered by Condition 6.5(a), including a rights issue or other essentially *pro rata* issue.
- (e) The fact that no adjustment is made for an issue of Ordinary Shares except as covered by Condition 6.5(a) shall not in any way restrict Suncorp from issuing Ordinary Shares at any time on such terms as it sees fit nor be taken to constitute a modification or variation of rights or privileges of Holders or otherwise requiring any consent or concurrence of the Holders.

6.6 ADJUSTMENTS TO ISSUE DATE VWAP FOR REORGANISATION

- (a) If at any time after the Issue Date there is a change to the number of Ordinary Shares on issue because of a Reorganisation, the Issue Date VWAP will be adjusted by multiplying the Issue Date VWAP applicable on the Business Day immediately before the date of any such Reorganisation by the following formula:

$$\frac{A}{B}$$

where:

A means the aggregate number of Ordinary Shares on issue immediately before the Reorganisation; and

B means the aggregate number of Ordinary Shares on issue immediately after the Reorganisation.

- (b) Any adjustment made by Suncorp in accordance with this Condition 6.6 will be effective and binding on Holders under these Conditions and these Conditions will be construed accordingly.

- (c) Each Holder acknowledges that Suncorp may consolidate, divide or reclassify securities so that there is a lesser or greater number of Ordinary Shares at any time in its absolute discretion without any such action constituting a modification or variation of rights or privileges of Holders or otherwise requiring any consent or concurrence of the Holders.

6.7 NO ADJUSTMENT TO ISSUE DATE VWAP IN CERTAIN CIRCUMSTANCES

Despite the provisions of Conditions 6.5 and 6.6, no adjustment will be made to the Issue Date VWAP where any such adjustment (rounded if applicable) would be less than one percent of the Issue Date VWAP then in effect.

6.8 ANNOUNCEMENT OF ADJUSTMENTS TO ISSUE DATE VWAP

Suncorp will notify the Trustee and the Holders (an **Adjustment Notice**) of any adjustment to the Issue Date VWAP under Condition 6 within 10 Business Days of Suncorp determining the adjustment.

6.9 STATUS AND LISTING OF ORDINARY SHARES

Ordinary Shares issued or arising upon Conversion will rank equally with all other fully paid Ordinary Shares.

6.10 LISTING ORDINARY SHARES ISSUED ON CONVERSION

Suncorp shall use all reasonable endeavours to list the Ordinary Shares issued upon Conversion of the Notes on ASX.

6.11 FOREIGN HOLDERS

Where Notes held by a Foreign Holder are required to be Converted, unless Suncorp is satisfied that the laws of the Foreign Holder's country of residence permit the issue of Ordinary Shares to the Foreign Holder (but as to which Suncorp is not bound to enquire), either unconditionally or after compliance with conditions which Suncorp in its absolute discretion

regards as acceptable and not unduly onerous, the Ordinary Shares which the Foreign Holder is obliged to accept will be issued to the Trustee (or other nominee appointed by Suncorp which must not be a member of the Group or Related Entity of Suncorp) who will sell those Ordinary Shares and pay a cash amount equal to the Proceeds to the Foreign Holder.

6.12 CONVERSION WHERE THE HOLDER DOES NOT WISH TO RECEIVE ORDINARY SHARES

If a Note is required to be Converted and the Holder has notified Suncorp that it does not wish to receive Ordinary Shares as a result of Conversion, which notice may be given by the Holder at any time on or after the Issue Date and no less than 15 Business Days prior to the Non-Viability Conversion Date then, on the Non-Viability Conversion Date, subject to applicable law, the Holder's rights (including to payment of Interest and Face Value) in relation to each such Note being Converted are immediately and irrevocably terminated and Suncorp will issue the Conversion Number of Ordinary Shares to a Trustee (or other nominee appointed by Suncorp which must not be a member of the Group or Related Entity of Suncorp) for no additional consideration to hold on trust for sale for the benefit of the relevant Holder. At the first opportunity to sell the Ordinary Shares, the Trustee or other nominee will arrange for their sale and pay a cash amount equal to the Proceeds to the relevant Holder.

6.13 NO DUTY ON SALE

For the purpose of Conditions 6.11 and 6.12, Suncorp does not owe any obligations or duties to the Holders in relation to the price at which Ordinary Shares are sold and has no liability for any loss suffered by a Holder as a result of the sale of Ordinary Shares.

a. Note Conditions

(continued)

6.14 POWER OF ATTORNEY

- (a) Each Holder appoints each of Suncorp, its officers and any External Administrator of Suncorp (each an **Attorney**) severally to be the attorney of the Holder with power in the name and on behalf of the Holder to sign all documents and transfers and do any other thing as may in the Attorney's opinion be necessary or desirable to be done in order for the Holder to observe or perform the Holder's obligations under these Conditions including, but not limited to, effecting any Conversion or Write-Off of Notes, making any entry in the Register or the register of any Ordinary Shares or exercising any voting power in relation to any consent or approval required for Conversion or Write-Off.
- (b) The power of attorney given in this Condition 6.14 is given for valuable consideration and to secure the performance by the Holder of the Holder's obligations under these Conditions and is irrevocable.

6.15 HOLDER ACKNOWLEDGMENTS

Each Holder irrevocably acknowledges and agrees that:

- (a) upon Conversion of the Notes in accordance with Condition 5 and Condition 6, it consents to becoming a member of Suncorp and agrees to be bound by the Constitution, in each case in respect of the Ordinary Shares issued on Conversion;
- (b) it is obliged to accept Ordinary Shares upon a Conversion notwithstanding:
- (i) any change in the financial position of Suncorp since the Issue Date;
 - (ii) any disruption to the market or potential market for the Ordinary Shares or to capital markets generally;

- (iii) any breach by Suncorp of any obligation in connection with the Notes; or
 - (iv) any other circumstance which might affect a Conversion of the Notes;
- (c) Conversion of the Notes in accordance with Condition 5 is a fundamental term of the Notes and is not subject to any other conditions other than those expressly provided in Condition 5;
- (d) Conversion must occur immediately on the Non-Viability Conversion Date and Conversion or Write-Off may result in disruption or failures in trading or dealings in the Notes or other loss to Holders;
- (e) it will not have any rights to vote in respect of any Conversion or Write-Off;
- (f) the Ordinary Shares issued on Conversion may not be quoted at the time of issue, or at all;
- (g) the determinations made by Suncorp under Condition 5.2 are final and binding; and
- (h) it has no remedies on account of a failure by Suncorp to issue Ordinary Shares in accordance with Condition 6 other than (and subject always to Condition 5.3) to seek specific performance of the obligation to issue the Ordinary Shares.

7 Title and transfer

7.1 TITLE

Title to Notes passes when details of the transfer are entered in the Register.

7.2 REGISTER CONCLUSIVE AS TO OWNERSHIP

Except as required by law and subject to correction for fraud or error, Suncorp must treat the person whose name is entered in the Register as the Holder of a Note as the absolute owner of

that Note. This Condition 7.2 applies whether or not a Note is overdue and despite any notice of ownership, trust or interest in the Note.

7.3 JOINT HOLDERS

Where two or more persons are entered in the Register as the joint Holders of a Note, they are taken to hold the Note as joint tenants with rights of survivorship, but the Registrar is not bound to register more than three persons as joint Holders of a Note.

7.4 TRANSFER

Subject to the ASX Listing Rules, Notes will be transferable only in accordance with these Conditions, the ASX Settlement Operating Rules and the further conditions included in the Trust Deed. A Holder may not transfer part of a Note.

7.5 INSTRUMENTS OF TRANSFER

A Holder may transfer a Note:

- (a) by a proper ASTC transfer according to the ASX Settlement Operating Rules;
- (b) by a proper transfer under any other computerised or electronic system recognised by the Corporations Act; or
- (c) subject to Condition 1.3 by any proper or sufficient instrument of transfer of marketable securities under applicable law.

7.6 TRANSFER ON OCCURRENCE OF CERTAIN EVENTS

The Registrar must register a transfer of a Note to or by a person who is entitled to make or receive the transfer as a consequence of:

- (a) death, bankruptcy, liquidation or winding-up of a Holder; or
- (b) a vesting order by a court or other body with power to make the order on receiving the evidence that the Registrar or Suncorp requires.

8 Payments

8.1 METHOD OF PAYMENT

Monies payable by Suncorp to a Holder in respect of a Note may be paid in any manner Suncorp decides from time to time, including:

- (a) by any method of direct credit determined by Suncorp to the Holder shown on the Register or to such person or place acceptable to Suncorp as directed by them; or
- (b) by cheque sent by prepaid post on the scheduled payment date, at the risk of the Holder, to the Holder (or to the first named joint Holder of the Note) at its address appearing in the Register.

Cheques sent on the scheduled payment date to the nominated address of a Holder will be taken to have been received by the Holder on that date and no further amount will be payable by Suncorp in respect of the Note as a result of the Holder not receiving payment on that date.

8.2 HOLDERS ENTITLED TO PAYMENT

Monies payable by Suncorp in respect of a Note shall be paid:

- (a) in the case of a payment of Interest, to the Holder appearing in the Register at the close of business on the Record Date; and
- (b) in the case of a payment of the Face Value, to the Holder appearing in the Register at 10:00am Sydney time on the date fixed for redemption,

in each case unless otherwise required by the ASX Listing Rules.

8.3 UNPRESENTED CHEQUES

Cheques issued by Suncorp that are not presented within six months of being issued or such lesser period as determined by Suncorp may be cancelled. Where a cheque which is cancelled was drawn in favour of

a Holder, the moneys are to be held by Suncorp for the Holder as a non-interest bearing deposit or paid by Suncorp according to the legislation relating to unclaimed moneys.

8.4 UNSUCCESSFUL ATTEMPTS TO PAY – OTHER

Subject to applicable law and the ASX Listing Rules, where Suncorp:

- (a) decides that an amount is to be paid to a Holder by a method of direct credit and the Holder has not given a direction as to where amounts are to be paid by that method;
- (b) attempts to pay an amount to a Holder by direct credit, electronic transfer of funds or any other means and the transfer is unsuccessful; or
- (c) has made reasonable efforts to locate a Holder but is unable to do so,

then, in each case, the amount is to be held by Suncorp for the Holder in a non-interest bearing deposit with a bank selected by Suncorp until the Holder or any legal personal representative of the Holder claims the amount or the amount is paid by Suncorp according to the legislation relating to unclaimed moneys.

8.5 TIME LIMIT FOR CLAIMS

A claim against Suncorp for payment according to these Conditions is void, to the fullest extent permitted by applicable law, unless made within five years of the date for payment.

8.6 DETERMINATION AND CALCULATION FINAL

Except where there is fraud or a manifest error, any determination or calculation which Suncorp makes in accordance with these Conditions is final and binds Suncorp, the Registrar, the Trustee and each Holder.

8.7 ROUNDING

Unless otherwise specified in these Conditions:

- (a) all calculation of amounts payable in respect of a Note will be rounded to four decimal places; and
- (b) for the purposes of making payment to a Holder in respect of the Holder's aggregate holding of Notes, any fraction of a cent will be disregarded.

8.8 PAYMENT TO JOINT HOLDERS

A payment to any one joint Holder of a Note will discharge Suncorp's liability in respect of the payment.

8.9 NO SET-OFF OR OFFSETTING RIGHTS

A Holder:

- (a) may not exercise any right of set-off against Suncorp in respect of any claim by Suncorp against that Holder; and
- (b) will have no offsetting rights or claims on Suncorp if Suncorp does not pay an amount when scheduled under these Conditions.

Suncorp may not exercise any right of set-off against a Holder in respect of any claim by that Holder against Suncorp.

8.10 PAYMENT ON BUSINESS DAYS

If a payment is to be made to an account on a Business Day on which banks are not open for business in the place the account is located, payment will be made on the next day on which banks are open for business in that place, and no additional interest is payable in respect of that delay in payment.

8.11 APPLICABLE LAW

Subject to Condition 11, Suncorp's obligation to make any payment is subject to applicable law.

a. Note Conditions

(continued)

9 Taxation

9.1 GENERAL

All payments in respect of the Notes shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature (together **Taxes**), unless such withholding or deduction is required by law or as permitted by Condition 9.4.

9.2 DEDUCTIONS

- (a) If Suncorp is required by law to make a withholding or deduction, Suncorp shall pay the full amount required to be deducted by law to the relevant revenue authority within the time allowed for such payment without incurring any penalty under the applicable law and shall, if required by any relevant Holder, deliver to that Holder the relevant receipt issued by the revenue authority after it is received by Suncorp.
- (b) If any deduction has been made and the amount of the deduction has been accounted for by Suncorp to the relevant revenue authority and the balance of the amount payable paid to the relevant holder, then the full amount payable to such holder shall be deemed to have been duly paid and satisfied by Suncorp.

9.3 SUNCORP TO PAY ADDITIONAL AMOUNTS

Where a withholding or deduction for Taxes is required by a law of the Commonwealth of Australia or any authority of the Commonwealth of Australia having power to tax, subject to the Solvency Condition, Suncorp shall pay such additional amounts (**Additional Amounts**) to the Holders as will result in those Holders receiving the amounts that would have been received by them had no such withholding or deduction been required, except that no such Additional Amounts will be payable with respect to any Notes:

- (a) in respect of which the Holder is liable for those Taxes by reason of its having some connection with the Commonwealth of Australia, other than the mere holding of the Notes or the receipt of the relevant payment;
- (b) in respect of which the Holder is an Offshore Associate of Suncorp (acting other than in the capacity of a clearing house, paying agent, custodian, funds manager or responsible entity of a registered scheme within the meaning of the Corporations Act);
- (c) in respect of which those Taxes have been imposed or levied as a result of the Holder of the Notes being party to or participating in a scheme to avoid such Taxes, being a scheme to which Suncorp was neither a party to nor participated in; or
- (d) to, or to a third party on behalf of, an Australian resident Holder or a non-resident Holder who is engaged in carrying on business in Australia at or through a permanent establishment of the non-resident in Australia, if that person has not supplied an appropriate tax file number, Australian Business Number or other exemption details.

9.4 FATCA

Suncorp may withhold or make deductions from payments or from the issue of Ordinary Shares to a Holder where it is required to do so under or in connection with FATCA, or where it has reasonable grounds to suspect that the Holder or a beneficial owner of Notes may be subject to FATCA, and may deal with such payment, and any Ordinary Shares in accordance with FATCA. If any withholding or deduction arises under or in connection with FATCA, Suncorp will not be required to pay any further amounts or issue any further Ordinary Shares on account of such withholding or deduction or otherwise reimburse or compensate,

or make any payment to, a Holder or a beneficial owner of Notes for or in respect of any such withholding or deduction. A dealing with such payment and any Ordinary Shares in accordance with FATCA satisfies Suncorp's obligations to that Holder to the extent of the amount of that payment or issue of Ordinary Shares.

9.5 TAX FILE NUMBER

Suncorp will deduct tax from payments of Interest at the rate prescribed by law if an Australian resident investor or a non-resident investor carrying on business in Australia at or through a permanent establishment of the non-resident in Australia has not supplied an appropriate tax file number, Australian Business Number or exemption details and no Additional Amount is payable in respect of any such deduction.

9.6 REFERENCES TO AMOUNTS IN RESPECT OF NOTES

Any reference in these Conditions to any amount owing in respect of Notes (including any amount in respect of Interest or Face Value) includes a reference to any Additional Amount which may be payable in respect of that amount under this Condition 9.

10 Events of Default

10.1 EVENTS OF DEFAULT

An "Event of Default" occurs if:

- (a) either:
 - (i) Suncorp does not pay any Face Value of the Notes due in respect of the Notes within 10 days of its due date; or
 - (ii) Suncorp does not pay any Interest or other amount due in respect of the Notes within 20 days of its due date,
- (a **Payment Default**); or

- (b) either:
- (i) a court order is made for the winding up of Suncorp and that order is not successfully appealed or permanently stayed within 60 days of making of that order; or
 - (ii) an effective resolution for the winding up of Suncorp is passed by the Shareholders entitled to vote on such resolution,

in each case, other than for the purposes of a consolidation, amalgamation, merger or reconstruction which has been approved by the holders of Ordinary Shares of Suncorp or by a court of competent jurisdiction under which the surviving entity has assumed or will assume expressly or by law all obligations of Suncorp in respect of the Notes,

(a **Winding Up Default**).

To the extent that a payment is not required to be made because of the Solvency Condition, the amount is not due and payable and a Payment Default cannot occur.

10.2 NOTIFICATION

If an Event of Default occurs, Suncorp must promptly after becoming aware of it notify the Registrar, the Holders and the Trustee of the occurrence of the Event of Default (a **Default Notice**).

10.3 ENFORCEMENT

If an Event of Default occurs and is continuing:

- (a) in the case of a Payment Default, the Trustee may bring proceedings:
 - (i) to recover any amount then due and payable but unpaid on the Notes (subject to Suncorp being able to make the payment and remain Solvent);

- (ii) to obtain an order for specific performance of any other obligation in respect of the Notes; or
 - (iii) for the winding up of Suncorp; and
- (b) in the case of a Winding Up Default, in addition to taking any of the actions specified in Condition 10.3(a), the Trustee may declare by notice to Suncorp that the Face Value of each Note (together with all Interest accrued but unpaid to the date for payment) is payable on a date specified in the notice and, subject to Condition 11, may prove in the winding up of Suncorp for that amount.

10.4 NO OTHER REMEDIES AGAINST SUNCORP

None of the Holders or the Trustee may exercise any other remedies (including any right to sue for damages which has the same economic effect as acceleration) as a consequence of an Event of Default other than as specified in this Condition 10 (but this does not affect the Trustee's right to claim payment of its Costs or remuneration).

10.5 TRUSTEE'S DUTY TO ENFORCE

The Trustee shall not be bound to take any of the actions referred to in Condition 10.3 to enforce the obligations of Suncorp in respect of the Notes or any other proceedings or action to or in connection with the Trust Deed or the Notes unless:

- (a) it shall have been so directed by a Special Resolution of Holders or so requested in writing by the Holders of at least 25% of the aggregate Face Value of the Notes (disregarding any Notes held beneficially by Suncorp or any member of the Group);

- (b) it is required to do so under the terms of the Trust Deed, including that it shall have been indemnified and its liability limited as contemplated by clause 6.4 of the Trust Deed; and
- (c) it is not restricted or prohibited from so acting under the Trust Deed or by any order of any court or any applicable law.

10.6 HOLDERS' RIGHT TO ENFORCE

No Holder shall be entitled to proceed directly against Suncorp to enforce any right or remedy under or in respect of any Note unless the Trustee, having become bound so to proceed, fails to do so within 14 days and the failure is continuing, in which case any Holder may itself institute proceedings against Suncorp for the relevant remedy to the same extent (but not further or otherwise) that the Trustee would have been entitled to do so.

11 Subordination

11.1 WINDING UP

In a winding up of Suncorp, a claim by a Holder, or by the Trustee or any other person on behalf of the Holder, for an amount owing by Suncorp in connection with a Note, is subordinated to the claims of Unsubordinated Creditors of Suncorp, in that:

- (a) all claims of Unsubordinated Creditors must be paid in full before the Holder's claim is paid; and
- (b) until the Unsubordinated Creditors have been paid in full, the Holder must not claim in the winding up in competition with the Unsubordinated Creditors so as to diminish any distribution, dividend or payment which, but for that claim, the Unsubordinated Creditors would have been entitled to receive.

a. Note Conditions

(continued)

11.2 AGREEMENTS AND ACKNOWLEDGMENTS OF HOLDERS

Each Holder irrevocably acknowledges and agrees that:

- (a) **(debt subordination)** this Condition 11 is a debt subordination for the purposes of section 563C of the Corporations Act;
- (b) **(voting)** it must not exercise its voting rights as an unsecured creditor in the winding up or administration of Suncorp to defeat the subordination in this Condition 11;
- (c) **(not otherwise affected)** the debt subordination effected by this Condition 11 is not affected by any act or omission of Suncorp or an Unsubordinated Creditor which might otherwise affect it at law or in equity; and
- (d) **(clawback)** it must pay or deliver to the liquidator any amount or asset received on account of its claim in the winding up of Suncorp in connection with a Note in excess of its entitlement under Condition 11.1 above.

11.3 NO CONSENT OF UNSUBORDINATED CREDITORS

Nothing in this Condition 11 shall be taken to require the consent of any Unsubordinated Creditor to any amendment of these Conditions.

12 Meetings of Holders

12.1 MEETING PROVISIONS

Meetings of Holders may be held in accordance with the Meeting Provisions and the Trust Deed. A meeting may consider any matter affecting the interests of Holders, including any variation to these Conditions proposed by Suncorp in accordance with Condition 13.

12.2 CONVENING A MEETING

The Meeting Provisions contain provisions governing notice, quorum requirements and other matters relevant to the conduct of a meeting.

Suncorp:

- (a) may convene a meeting at any time; and
- (b) must convene a meeting:
 - (i) upon the request in writing of Holders who together hold 10% or more of the aggregate Face Value of all Notes outstanding (determined disregarding any Notes held beneficially by Suncorp or any member of the Group); and
 - (ii) in any other case required by the Corporations Act.

12.3 RESOLUTIONS BINDING

Any resolution passed at any meeting of the Holders or by writing, in each case, in accordance with the Meeting Provisions, is binding on Holders, whether or not they are present at the meeting.

13 Variation

13.1 VARIATION WITH APPROVAL

Subject to Condition 13.2 and Condition 13.3, Suncorp may vary the Trust Deed and these Conditions with the approval of the Holders by Special Resolution and the Trustee.

13.2 VARIATION WITHOUT APPROVAL

Subject to Condition 13.3 and complying with the Corporations Act and all applicable laws, Suncorp may by deed poll vary the Trust Deed and these Conditions without the approval of the Holders if, in the opinion of Suncorp, the variation:

- (a) is necessary or advisable to comply with any law;
- (b) is necessary to correct an obvious error, or otherwise, of a formal, technical or administrative nature only;

- (c) is made to cure any ambiguity or correct or supplement any defective or inconsistent provision;
- (d) is necessary or advisable to maintain the quotation of the Notes on ASX; or
- (e) is not materially prejudicial to the interests of the Holders as a whole and Suncorp has provided to the Trustee (or the Trustee has obtained) an opinion of reputable legal counsel in Australia that it is open to the Trustee to determine that such variation is not materially prejudicial to the interests of Holders as a whole.

13.3 NO VARIATION WHICH MAY AFFECT TIER 2 CAPITAL ELIGIBILITY

The prior written approval of APRA is required in respect of any variation in respect of the Trust Deed and these Conditions where such variation may affect the eligibility of the Notes as Tier 2 Capital. The Trustee is entitled to rely on an Officer's Certificate delivered to it by Suncorp as conclusive evidence of whether APRA approval of a variation is required and, if required, has been obtained.

13.4 HOLDER APPROVAL NOT REQUIRED

Suncorp does not require the approval of Holders or the Trustee to vary or terminate any registry agreement or other agreement in respect of Notes (other than the Trust Deed and these Conditions).

13.5 NOTICE TO HOLDERS

Suncorp must notify Holders and the Trustee of any variation to the Trust Deed and these Conditions promptly after it is made.

13.6 MEANING OF VARY AND VARIATION

In this Condition 13 "vary" includes amend, modify, cancel, alter or add to and "variation" has a corresponding meaning.

14 General rights

14.1 FURTHER ISSUES

Suncorp may, from time to time without the consent of the Holders, issue any securities ranking equally with the Notes (on the same terms or otherwise) or ranking in priority or junior to the Notes.

14.2 NO OTHER RIGHTS

A Holder of Notes has:

- (a) no claim against Suncorp except as expressly set out in these Conditions;
- (b) no right to participate in the issue of any shares or any other securities of any kind of Suncorp; and
- (c) no right to receive notice of or vote at any meeting of members of Suncorp.

16.3 WHEN NOTICES TO HOLDERS TAKE EFFECT

Notices or other communications from Suncorp to Holders take effect on the day the notice or communication was delivered, sent or published on the Group's website (as applicable under Conditions 16.1 and 16.2).

16.4 NON-RECEIPT OF NOTICE BY A HOLDER

The non-receipt of a notice or other communication by a Holder or an accidental omission to give notice to a Holder will not invalidate the giving of that notice either in respect of that Holder or generally.

A notice or other communication given by a Holder to Suncorp or the Trustee in connection with the Notes must be:
